22 thereof is based upon the metal or article’s potential for re-use or upon the worth of the raw
23 material of which such article is made.

24 Section 2. (a) No person shall carry on the business of being a scrap metal processor,
25 collector of, dealer in or keeper of a shop for the purchase, sale, and barter of junk, scrap metal
26 commodities, old metals or second hand articles without filing a registration form with the

28 All registrations under this section shall be made on a form or forms to be prescribed by
