419 Except as otherwise provided in sections 507 through 509, a proceeding to adjudicate
420 parentage under this chapter may be maintained by:

422 (2) the individual who gave birth to the child, unless a court has adjudicated that the
423 individual is not a parent of the child;

424 (3) an individual who has an established parent-child relationship under section 201 of
425 this chapter;

446 in chapter 119A on behalf of the department of transitional assistance, the department of children
447 and families, the division of medical assistance or any other public assistance program of the
448 commonwealth.

449 (b) An individual entitled to notice under subsection (a) has a right to intervene in the
450 proceeding.

451 (c) Lack of notice required by subsection (a) does not render a judgment void. Lack of
452 notice does not preclude an individual entitled to notice under subsection (a) from bringing a
453 proceeding under subsection (b) of section 511.

454 (d) A donor shall not be entitled to notice.

455 Section 504. PERSONAL JURISDICTION.

456 (a) The court may adjudicate an individual's parentage of a child only if the court has
457 personal jurisdiction over the individual.

458 Section 505. VENUE.

459 Venue for a proceeding to adjudicate parentage under this chapter is in the county of this
460 state in which:

461 (1) the child resides or, for the purposes of Article 6 or 7, is or will be born;

462 (2) any parent or intended parent resides;

463 (3) the defendant resides or is located if the child does not reside in this state; or

464 (4) a proceeding has been commenced for administration of the estate of an individual
465 who is or may be a parent under this chapter.

466 Section 506. ADJUDICATING PARENTAGE OF CHILD WITH ALLEGED GENETIC
467 PARENT.

468 A proceeding to determine whether an alleged genetic parent who is not a presumed
469 parent is a parent of a child shall be commenced pursuant to chapter 209C.

470 Section 507. ADJUDICATING PARENTAGE OF CHILD WITH PRESUMED
471 PARENT.

472 (a) A proceeding to determine whether a presumed parent is a parent of a child shall be
473 commenced pursuant to chapter 209C.

474 Section 508. ADJUDICATING CLAIM OF DE FACTO PARENTAGE OF CHILD.

475 (a) A proceeding to establish parentage of a child under this section may be commenced
476 only by an individual who:

477 (1) is alive when the proceeding is commenced; and

478 (2) claims to be a de facto parent of the child.

479 (b) An individual who claims to be a de facto parent of a child shall commence a
480 proceeding to establish parentage of a child under this section:

481 (1) before the child attains 18 years of age; and

482 (2) while the child is alive.

483 (c) The following rules govern standing of an individual who claims to be a de facto
484 parent of a child to maintain a proceeding under this section:

485 (1) The individual shall file an initial verified pleading alleging specific facts that support
486 the claim to parentage of the child asserted under this section. The verified pleading must be
487 served on all parents and legal guardians of the child and any other party to the proceeding.

488 (2) An adverse party, parent, or legal guardian may file a pleading in response to the
489 pleading filed under paragraph

490 (1). A responsive pleading must be verified and must be served on parties to the
491 proceeding.

492 (3) Unless the court finds a hearing is necessary to determine disputed facts material to
493 the issue of standing, the court shall determine, based on the pleadings under paragraphs (1) and
494 (2), whether the individual has alleged facts sufficient to satisfy by a preponderance of the
495 evidence the requirements of paragraphs (1) through (7) of subsection (d).

496 If the court holds a hearing under this subsection, the hearing shall be held on an
497 expedited basis. The court may enter an interim order concerning contact between the child and
498 an individual with standing seeking adjudication under this section as a de facto parent of the
499 child.

500 (d) In a proceeding to adjudicate parentage of an individual who claims to be a de facto
501 parent of the child, if there is only 1 other individual who is a parent or has a claim to parentage
502 of the child, the court shall adjudicate the individual who claims to be a de facto parent to be a
503 parent of the child if the individual demonstrates by clear-and convincing evidence that:

504 (1) the individual resided with the child as a regular member of the child's household for
505 a significant period of time;

506 (2) the individual engaged in consistent caretaking of the child which may include
507 regularly caring for the child's needs and making day-to-day decisions regarding the child
508 individually or cooperatively with another parent;

509 (3) the individual undertook full and permanent responsibilities of a parent of the child
510 without expectation or payment of financial compensation;

511 (4) the individual held out the child as the individual's child;

512 (5) the individual established a bonded and dependent relationship with the child, which
513 is parental in nature;

514 (6) another parent of the child fostered or supported the bonded and dependent
515 relationship required under paragraph (5). A parent's consent to guardianship shall not be
516 considered as evidence that a parent fostered or supported the bonded and dependent relationship
517 required under (5); and

518 (7) continuing the relationship between the individual and the child is in the best interest
519 of the child.

520 (e) A parent of the child may use evidence of duress, coercion, or threat of harm to
521 contest an allegation that the parent fostered or supported a bonded and dependent
522 relationship as

523 provided in subsection (d)(6) of this section. Such evidence may include whether, within
524 the prior ten years, the individual seeking to be adjudicated a de facto parent has been convicted
525 of rape, assault with intent to commit rape, indecent assault and battery, assault or assault and
526 battery on a family or household member domestic assault, of the child or a parent of the child;
527 was the subject of a final abuse prevention order pursuant to Chapter 209A because the
528 individual was found to have committed abuse against the child or a parent of the child; or was
529 substantiated for abuse against the child or a parent.

530 (f) Subject to other limitations in this part, if in a proceeding to adjudicate parentage of an
531 individual who claims to be a de facto parent of the child, there is more than 1 other individual
532 who is a parent or has a claim to parentage of the child and the court determines that the
533 requirements of subsection (d) are satisfied, the court shall adjudicate parentage under section
534 511 of this chapter.

535 (g) The adjudication of an individual as a de facto parent under this section does not
536 disestablish the parentage of any other parent.

537 Section 508A. ADJUDICATING PARENTAGE OF CHILD WITH ACKNOWLEDGED
538 PARENT.

539 (a) If a child has an acknowledged parent, a proceeding to challenge that
540 acknowledgment of parentage or a denial of parentage, brought by a signatory to the
541 acknowledgment or denial, is governed by chapter 209C.

542 (b) If a child has an acknowledged parent, the following rules apply to a proceeding to
543 challenge the acknowledgment of parentage or denial of parentage brought by an individual,
544 other than the child, who has standing under Section 502 and was not a signatory to the
545 acknowledgment or denial:

546 (i) The individual must commence the proceeding not later than one year after the
547 effective date of the acknowledgment unless the individual did not know and could not have
548 reasonably known of the individual's potential parentage due to a material misrepresentation or
549 concealment, in which case the proceeding shall be commenced within one year after the
550 discovery of the individual's potential parentage.

551 (ii) After the action is commenced, the court must first determine whether permitting the
552 proceeding is in the best interests of the child.

553 (iii) If the court finds that permitting the proceeding is in the best interests of the child,
554 the court shall adjudicate parentage under section 511 of this chapter.

555 Section 509. ADJUDICATING PARENTAGE OF CHILD WITH ADJUDICATED
556 PARENT.

557 (a) If a child has an adjudicated parent, a proceeding to challenge the adjudication,
558 brought by an individual who was a party to the adjudication or received notice, is governed by
559 the rules governing a collateral attack on a judgment.

560 (b) If a child has an adjudicated parent, the following rules apply to a proceeding to
561 challenge the adjudication of parentage brought by an individual, other than the child, who has
562 standing under section 502 and was not a party to the adjudication and did not receive notice
563 under section 503:

564 (1) the individual must commence the proceeding not later than 2 years after the effective
565 date of the adjudication;

566 (2) after the action is commenced, the court must first determine whether permitting the
567 proceeding is in the best interest of the child; and

568 (3) if the court finds that permitting the proceeding is in the best interests of the child, the
569 court shall adjudicate parentage under section 511 of this chapter.

570 Section 510. ADJUDICATING PARENTAGE OF CHILD OF ASSISTED
571 REPRODUCTION.

572 (a) An individual who is a parent under Article 6 of this chapter or the individual who
573 gave birth to the child may bring a proceeding to adjudicate parentage. If the court determines
574 the individual is a parent under Article 6, the court shall adjudicate the individual to be a parent
575 of the child.

576 (b) In a proceeding to adjudicate an individual's parentage of a child, if another
577 individual other than the person who gave birth to the child is a parent under Article 6, the court
578 shall adjudicate the individual's parentage of a child under section 511 of this chapter.

579 Section 511. ADJUDICATING COMPETING CLAIMS OF PARENTAGE.

580 (a) In a proceeding to adjudicate competing claims of, or challenges under this article or
581 chapter 209C to, parentage of a child by 2 or more individuals, the court shall adjudicate
582 parentage in the best interest of the child, based on:

583 (1) the age of the child;

584 (2) the length of time during which each individual assumed the role of parent of the
585 child;

586 (3) the nature of the relationship between the child and each individual;

587 (4) the harm to the child if the relationship between the child and each individual is not
588 recognized;

589 (5) the basis for each individual's claim to parentage of the child; and

590 (6) other equitable factors arising from the disruption of the relationship between the
591 child and each individual or the likelihood of other harm to the child.

592 (b) If an individual challenges parentage based on the results of genetic testing, in
593 addition to the factors listed in subsection (a), the court shall consider:

594 (1) the facts surrounding the discovery that the individual might not be a genetic parent of
595 the child; and

596 (2) the length of time between the time that the individual was placed on notice that the
597 individual might not be a genetic parent and the commencement of the proceeding.

598 (c) The court may adjudicate a child to have more than 2 parents under this chapter if the
599 court finds that it is in the best interests of the child to do so. A finding of best interests of the
600 child under this subsection does not require a finding of unfitness of any parent or person seeking
601 an adjudication of parentage.

602 Section 512. TEMPORARY ORDER.

603 (a) In a proceeding under this article, the court may issue a temporary order for child
604 support if the order is consistent with law of this state other than this chapter and the individual
605 ordered to pay support is:

606 (1) a presumed parent of the child;

607 (2) petitioning to be adjudicated a parent;

608 (3) identified as a genetic parent through genetic testing pursuant to this chapter or
609 chapter 209C;

610 (4) an alleged genetic parent who has declined to submit to genetic testing pursuant to
611 this chapter or chapter 209C;

612 (5) shown by a preponderance of evidence to be a parent of the child; or

613 (6) a parent under this chapter.

614 (b) A temporary order may include a provision for custody, parenting time, and visitation
615 under law of this state other than this chapter.

616 (c) If the child on whose behalf an order of support is sought is a recipient of benefits
617 pursuant to chapter 117, 118 or 119 and the department of transitional assistance, the department
618 of children and families, the division of medical assistance or any other public assistance
619 program has not been made a party, the court shall notify the IV-D agency of the order or
620 judgment of support. Each judgment or order of support which is issued pursuant to this chapter
621 shall conform to and shall be enforced in accordance with the provisions of chapter one hundred
622 and nineteen A.

623 Section 513. CONSOLIDATING PROCEEDINGS.

624 (a) Except as otherwise provided in subsection (b) and consistent with the jurisdiction of
625 the court under the law of this state other than this chapter, the court may combine a proceeding
626 to adjudicate parentage under this chapter with a proceeding for adoption, termination of parental
627 rights, care and protection, child custody or parenting time or visitation, guardianship, child
628 support, divorce, annulment, separate support, administration of an estate or other appropriate
629 proceeding.

630 (b) A defendant may not combine a proceeding described in subsection (a) with a
631 proceeding to adjudicate parentage brought under chapter 209D, the Uniform Interstate Family
632 Support Act.

633 Section 514. PROCEEDING BEFORE BIRTH.

634 Except as otherwise provided in Article 6 and Article 7 of this chapter, a proceeding to
635 adjudicate parentage may be commenced before the birth of the child and an order or judgment
636 may be entered before birth, but enforcement of the order or judgment of parentage must be
637 stayed until the birth of the child.

638 Section 515. COURT TO ADJUDICATE PARENTAGE.

639 The court shall adjudicate parentage of a child without a jury.

640 Section 516. HEARING; INSPECTION OF RECORDS.

641 (a) On request of a party, the court may close a proceeding under this article to the
642 general public.

643 (b) All complaints, pleadings, papers or documents filed pursuant to this article, including
644 docket entries, shall not be available for inspection, unless a judge of probate and family court of
645 the county where such records are kept, for good cause shown, shall otherwise order or unless
646 requested by the child or the parties. All such complaints, pleadings, papers or documents shall
647 be segregated.

648 Section 517. DISMISSAL FOR WANT OF PROSECUTION.

649 The court may dismiss a proceeding under this chapter for want of prosecution only
650 without prejudice. An order of dismissal for want of prosecution purportedly with prejudice is
651 void and has only the effect of a dismissal without prejudice.

652 Section 518. ORDER ADJUDICATING PARENTAGE.

653 (a) In a proceeding under this article, the court shall issue a final judgment adjudicating
654 whether a person alleged or claiming to be a parent is the parent of a child.

655 (b) A final judgment under subsection (a) shall identify the child by name and date of
656 birth.

657 (c) On request of a party and consistent with law of this state other than this chapter, the
658 court in a proceeding under this article may order the name of the child changed.

659 (d) If the final judgment under subsection (a) is at variance with the child's birth
660 certificate, the court shall order the department of public health to issue an amended birth
661 certificate.

662 Section 519. BINDING EFFECT OF DETERMINATION OF PARENTAGE.

663 a) Except as otherwise provided herein:

664 (1) a signatory to an acknowledgment of parentage or denial of parentage is bound by the
665 acknowledgment and denial as provided in chapter 209C; and

666 (2) a party to an adjudication of parentage by a court acting under circumstances that
667 satisfy the jurisdiction requirements of section 2-201 of chapter 209D and any individual who
668 received notice of the proceeding are bound by the adjudication.

669 (b) A child is not bound by a determination of parentage under this chapter unless: (1) the
670 determination as based on an unrescinded acknowledgement of parentage and the
671 acknowledgment is consistent with the results of genetic testing; (2) the determination was based
672 on a finding consistent with the results of genetic testing and the consistency is declared in the

673 determination or otherwise shown; (3) the determination of parentage was made under Article 6
674 or 7; or

675 (4) the child was a party or was represented by an attorney, guardian ad litem or similar
676 individual in the proceeding.

677 (c) In a proceeding for divorce or annulment, the court is deemed to have made an
678 adjudication of parentage of a child if the court acts under circumstances that satisfy the
679 jurisdiction requirements of section 2-201 of chapter 209D, and the final order:

680 (1) expressly identifies the child as a “child of the marriage” or “issue of the marriage” or
681 includes similar words indicating that both spouses are parents of the child; or

682 (2) provides for support of the child by a spouse unless that spouse’s parentage is
683 disclaimed specifically in the order.

684 (d) Except as otherwise provided in subsection (b) or section 509, a determination of
685 parentage may be asserted as a defense in a subsequent proceeding seeking to adjudicate
686 parentage of an individual who was not a party to the earlier proceeding.

687 (e) A party to an adjudication of parentage may challenge the adjudication only under law
688 of this state other than this chapter relating to appeal, vacation of judgment or other judicial
689 review.

690 Article 6. ASSISTED REPRODUCTION

691 Section 601. SCOPE OF ARTICLE.

692 This article shall not apply to the birth of a child conceived by sexual intercourse or
693 assisted reproduction by surrogacy agreement under Article 7.

694 Section 602. PARENTAL STATUS OF DONOR.

695 A donor is not a parent of a child conceived through assisted reproduction by virtue of the
696 donor's genetic connection.

697 Section 603. PARENTAGE OF CHILD OF ASSISTED REPRODUCTION.

698 An individual who consents under section 604 to assisted reproduction by a person with
699 the intent to be a parent of a child conceived by the assisted reproduction is a parent of the child.

700 Section 604. CONSENT TO ASSISTED REPRODUCTION.

701 (a) Except as otherwise provided in subsection (b), the consent described in section 603
702 must be in a record signed by the individual giving birth to a child conceived by assisted
703 reproduction and an individual who intends to be a parent of the child.

704 (b) Failure to consent in a record as provided by subsection (a), before, on or after birth
705 of the child, does not preclude the court from finding consent to parentage if the court finds by a
706 preponderance of the evidence that:

707 (1) prior to conception or birth of the child, both parties agreed that they would be parents
708 of the child; or

709 (2) the individual who seeks to be a parent of the child voluntarily participated in and
710 consented to the assisted reproduction that resulted in the conception of the child.

711 Section 605. LIMITATION ON SPOUSE'S DISPUTE OF PARENTAGE.

712 (a) Except as otherwise provided in subsection (b), an individual who, at the time of a
713 child's birth, is the spouse of the person who gave birth to the child by assisted reproduction may
714 not challenge the individual's parentage of the child unless:

715 (1) not later than 2 years after the birth of the child, the spouse commences a proceeding
716 to adjudicate their own parentage of the child; and

717 (2) the court finds the spouse did not consent to the assisted reproduction, before, on or
718 after birth of the child, or withdrew consent under section 607.

719 (b) A proceeding by a spouse to challenge that their own parentage of a child born by
720 assisted reproduction may be commenced at any time if the court determines:

721 (1) the spouse neither provided a gamete for, nor consented to, the assisted reproduction;

722 (2) the spouse and the person who gave birth to the child have not cohabited since the
723 probable time of assisted reproduction; and

724 (3) the spouse never openly held out the child as their child.

725 (c) This section applies to a spouse's dispute of parentage even if the spouse's marriage is
726 declared invalid after assisted reproduction occurs.

727 (d) The person giving birth shall not challenge a spouse's parentage under this section.

728 Section 606. EFFECT OF CERTAIN LEGAL PROCEEDINGS REGARDING
729 MARRIAGE.

730 If a marriage of a person who gives birth to a child conceived by assisted reproduction is
731 terminated through divorce or annulment before transfer or implantation of gametes or embryos

732 to the person giving birth, a former spouse of the person giving birth is not a parent of the child
733 unless the former spouse consented in a record that the former spouse would be a parent of the
734 child if assisted reproduction were to occur after a divorce or annulment, and the former spouse
735 did not withdraw consent under section 607.

736 Section 607. WITHDRAWAL OF CONSENT.

737 (a) An individual who consents under section 604 to assisted reproduction may withdraw
738 consent any time before a transfer or implantation of gametes or embryos that results in a
739 pregnancy, by giving notice in a record of the withdrawal of consent to the person who agreed to
740 give birth to a child conceived by assisted reproduction and to any clinic or health-care provider
741 who may be facilitating the assisted reproduction. Failure to give notice to the clinic or health-
742 care provider does not affect a determination of parentage under this chapter.

743 (b) An individual who withdraws consent under subsection (a) is not a parent of the child
744 under this article.

745 Section 608. PARENTAL STATUS OF DECEASED INDIVIDUAL.

746 (a) If an individual who intends to be a parent of a child conceived by assisted
747 reproduction dies during the period between the transfer or implantation of a gamete or embryo
748 and the birth of the child, the individual's death does not preclude the establishment of the
749 individual's parentage of the child if the individual otherwise would be a parent of the child
750 under this chapter.

751 (b) If an individual who consented in a record to assisted reproduction by a person who
752 agreed to give birth to a child dies before a transfer or implantation of gametes or embryos, the
753 deceased individual is a parent of a child conceived by the assisted reproduction only if:

754 (1) either:

755 (A) the individual consented in a record that if assisted reproduction were to occur after
756 the death of the individual, the individual would be a parent of the child; or

757 (B) the individual's intent to be a parent of a child conceived by assisted reproduction
758 after the individual's death is established by a preponderance of the evidence; and

759 (2) either:

760 (A) the embryo is in utero not later than 36 months after the individual's death; or

761 (B) the child is born not later than 45 months after the individual's death.

762 Section 609. LABORATORY ERROR.

763 If due to a laboratory error the child is not genetically related to either the intended parent
764 or parents or any donor who donated to the intended parent or parents, the intended parent or
765 parents are the parents of the child unless otherwise determined by the court.

766 Section 610. LIMITATIONS ON GENETIC TESTING.

767 Genetic testing, including genetic marker testing pursuant to section 11 of chapter 209C,
768 shall not be used: (1) to challenge the parentage of an individual who is a parent under this
769 Article; or (2) to establish the parentage of an individual who is a donor.

770 Section 611. PARENTAGE JUDGMENTS OF CHILDREN BORN OF ASSISTED
771 REPRODUCTION.

772 (a) A party consenting to assisted reproduction, an individual who is a parent pursuant to
773 sections 603 and 604 of this chapter, an intended parent or parents or the individual giving birth
774 may commence a proceeding to obtain an order:

775 (1) Declaring that the intended parent or parents are the parent or parents of the resulting
776 child immediately upon birth of the child and ordering that parental rights and responsibilities
777 vest exclusively in the intended parent or parents immediately upon birth of the child; and(

778 2) Designating the contents of the birth certificate and directing the department of public
779 health to designate the intended parent or parents as the parent or parents of the resulting child.

780 (b) A proceeding under this section may be commenced before or after the date of birth
781 of the child, though an order issued before the birth of the resulting child does not take effect
782 unless and until the birth of the resulting child. Nothing in this subsection shall be construed to
783 limit the court's authority to issue other orders under any other provision of the general laws.

784 (c) Neither the state, the department of public health nor the hospital where the child is or
785 expected to be born shall be a necessary party to a proceeding under this section.

786 Section 612. INSPECTION OF DOCUMENTS.

787 All complaints, pleadings, papers or documents filed pursuant to this section, including
788 docket entries, shall not be available for inspection, unless a judge of probate and family court of
789 the county where such records are kept, for good cause shown, shall otherwise order or unless

790 requested by the resulting child or a party. All such complaints, pleadings, papers or documents
791 shall be segregated.

792 Article 7. PARENTAGE BY SURROGACY AGREEMENT

793 PART 1 GENERAL REQUIREMENTS

794 Section 701. DEFINITIONS.

795 In this article the following terms shall, unless the context clearly requires otherwise,
796 have the following meanings:

797 “Genetic surrogate”, an individual who is at least 21 years of age, is not an intended
798 parent and who agrees to become pregnant through assisted reproduction using the individual’s
799 own gamete, under a genetic surrogacy agreement as provided in this article.

800 “Gestational surrogate”, an individual who is at least 21 years of age, is not an intended
801 parent and who agrees to become pregnant through assisted reproduction using gametes that are
802 not the individual’s own, under a gestational surrogacy agreement as provided in this article.

803 “Surrogacy agreement”, an agreement between 1 or more intended parents and an
804 individual who is not an intended parent in which the person agrees to become pregnant through
805 assisted reproduction and which provides that each intended parent is a parent of a child
806 conceived under the agreement. Unless otherwise specified, surrogacy agreement refers to both a
807 gestational surrogacy agreement and a genetic surrogacy agreement.

808 Section 702. ELIGIBILITY TO ENTER GESTATIONAL OR GENETIC SURROGACY
809 AGREEMENT.

810 (a) To execute an agreement to act as a gestational or genetic surrogate, an individual
811 shall:

812 (1) be at least 21 years of age;

813 (2) previously have given birth to at least 1 child;

814 (3) complete a medical evaluation related to the surrogacy arrangement by a licensed
815 medical doctor;

816 (4) complete a mental-health consultation by a licensed mental health professional; and

817 (5) have independent legal representation of the person's choice throughout the surrogacy
818 agreement regarding the terms of the surrogacy agreement and the potential legal consequences
819 of the agreement and that is paid for by the intended parent or parents.

820 (b) To execute a surrogacy agreement, each intended parent, whether or not genetically
821 related to the child, shall:

822 (1) be at least 21 years of age;

823 (2) complete a mental-health consultation by a licensed mental health professional; and

824 (3) have independent legal representation of the intended parent's choice throughout the
825 surrogacy agreement regarding the terms of the surrogacy agreement and the potential legal
826 consequences of the agreement.

827 Section 703. REQUIREMENTS OF GESTATIONAL OR GENETIC SURROGACY
828 AGREEMENT: PROCESS.

829 A surrogacy agreement shall be executed in compliance with the following rules:

830 (1) At least 1 party shall be a resident of this state or, if no party is a resident of this state,
831 at least 1 medical evaluation or procedure or mental-health consultation under the agreement
832 shall occur in this state, or the birth is anticipated to or does occur in this state.

833 (2) An individual acting as a surrogate and each intended parent shall meet the
834 requirements of section 702.

835 (3) Each intended parent, the individual acting as surrogate, and spouse, if any, of the
836 individual acting as surrogate shall be parties to the agreement.

837 (4) The agreement shall be in a record signed by each party listed in paragraph (3).

838 (5) The surrogate and each intended parent shall receive a copy of the agreement.

839 (6) The signature of each party to the agreement shall be attested by a notary or
840 witnessed.

841 (7) The individual acting as surrogate and, if married, the spouse of the individual acting
842 as surrogate and the intended parent or parents shall have independent legal representation
843 throughout the surrogacy agreement regarding the terms of the surrogacy agreement and the
844 potential legal consequences of the agreement paid for by the intended parent or parents, and
845 each counsel shall be identified in the surrogacy agreement. A single attorney for the individual
846 acting as surrogate and the individual's spouse, if married, and a single attorney for the intended
847 parents is sufficient to meet this requirement, provided the representation otherwise conforms to
848 the Rules of Professional Conduct.

849 (8) The intended parent or parents shall pay for independent legal representation for the
850 individual acting as surrogate and the individual's spouse, if any.

851 (9) The agreement shall be executed before a medical procedure occurs related to
852 attempting to achieve a pregnancy in the individual acting as surrogate, other than the medical
853 evaluation and mental health consultation required by section 702.

854 Section 704. REQUIREMENTS OF GESTATIONAL OR GENETIC SURROGACY
855 AGREEMENT: CONTENT.

856 (a) A surrogacy agreement shall comply with the following requirements:

857 (1) An individual acting as surrogate agrees to attempt to become pregnant by means of
858 assisted reproduction.

859 (2) Except as otherwise provided in sections 711, 715, and 716, the individual acting as
860 surrogate and the surrogate's spouse or former spouse, if any, have no claim to parentage of a
861 child conceived by assisted reproduction under the surrogacy agreement.

862 (3) The surrogate's spouse, if any, shall acknowledge and agree to comply with the
863 obligations imposed on the individual acting as surrogate by the surrogacy agreement.

864 (4) Except as otherwise provided in sections 709, 712, , 715, and 716, the intended parent
865 or, if there are 2 intended parents, each one jointly and severally, immediately on birth of the
866 child shall be the exclusive parent or parents of the child, regardless of the number of children
867 born or gender or mental or physical condition of each child.

868 (5) Except as otherwise provided in sections 709, 712, 715, and 716, the intended parent
869 or, if there are 2 intended parents, each parent jointly and severally, immediately on birth of the

870 child shall assume responsibility for the financial support of the child, regardless of the number
871 of children born or the gender or mental or physical condition of each child.

872 (6) The surrogacy agreement shall include information providing that the intended parent
873 or parents shall be responsible for the surrogacy-related expenses, including medical expenses, of
874 the individual acting as surrogate and the medical expenses of the child.

875 (7) The intended parent or parents are liable for the surrogacy-related expenses of the
876 person acting as surrogate, including expenses for health care provided for assisted reproduction,
877 prenatal care, labor and delivery and for the medical expenses of the resulting child that are not
878 paid by insurance. This subdivision shall not be construed to supplant any health insurance
879 coverage that is otherwise available to the individual acting as surrogate or an intended parent for
880 the coverage of health care costs. This subdivision shall not change the health insurance
881 coverage of the individual acting as surrogate or the responsibility of the insurance company to
882 pay benefits under a policy that covers a individual acting as surrogate.

883 (8) The surrogacy agreement shall not infringe on the rights of the individual acting as
884 surrogate to make all health and welfare decisions regarding the person, the person's body and
885 the person's pregnancy throughout the duration of the surrogacy arrangement, including during
886 attempts to become pregnant, pregnancy, delivery and post-partum. The agreement shall not
887 infringe upon the right of the individual acting as surrogate to autonomy in medical decision
888 making by, including, but not limited to, requiring the individual acting as surrogate to undergo a
889 scheduled, nonmedically indicated caesarean section or to undergo multiple embryo transfer.
890 Except as otherwise provided by law, any written or oral agreement purporting to waive or limit
891 the rights described in this subdivision are void as against public policy.

892 (9) The surrogacy agreement shall include information about each party's right under this
893 article to terminate the surrogacy agreement.

894 (b) A surrogacy agreement may provide for:

895 (1) payment of consideration and reasonable expenses; and

896 (2) reimbursement of specific expenses if the agreement is terminated under this article.

897 (c) A right created under a surrogacy agreement is not assignable and there is no third-
898 party beneficiary of the agreement other than the child.

899 Section 705. SURROGACY AGREEMENT: EFFECT OF SUBSEQUENT CHANGE
900 OF MARITAL STATUS.

901 (a) Unless a surrogacy agreement expressly provides otherwise:

902 (1) the marriage of an individual acting as surrogate after the surrogacy agreement is
903 signed by all parties shall not affect the validity of the agreement, the spouse's consent to the
904 surrogacy agreement is not required and the surrogate's spouse is not a presumed parent of a
905 child conceived by assisted reproduction under the surrogacy agreement; and

906 (2) the divorce or annulment of the individual acting as surrogate after the surrogacy
907 agreement is signed by all parties shall not affect the validity of the surrogacy agreement.

908 (b) Unless a surrogacy agreement expressly provides otherwise:

909 (1) the marriage of an intended parent after the agreement is signed by all parties shall not
910 affect the validity of a surrogacy agreement, the consent of the spouse of the intended parent is

911 not required, and the spouse of the intended parent is not, based on the surrogacy agreement, a
912 parent of a child conceived by assisted reproduction under the surrogacy agreement; and

913 (2) the divorce or annulment of an intended parent after the surrogacy agreement is
914 signed by all parties shall not affect the validity of the surrogacy agreement and the intended
915 parents are the parents of the child.

916 Section 706. INSPECTION OF DOCUMENTS.

917 All complaints, pleadings, papers or documents filed pursuant to this section, including
918 docket entries, shall not be available for inspection, unless a judge of probate and family court of
919 the county where such records are kept, for good cause shown, shall otherwise order or unless
920 requested by the child resulting from the surrogacy agreement or by a party to the surrogacy
921 agreement. All such complaints, pleadings, papers or documents shall be segregated.

922 Section 707. EXCLUSIVE, CONTINUING JURISDICTION.

923 During the period after the execution of a surrogacy agreement until 90 days after the
924 birth of a child conceived by assisted reproduction under the surrogacy agreement, a court of this
925 state conducting a proceeding under this chapter has exclusive, continuing jurisdiction over all
926 matters arising out of the agreement. This section does not give the court jurisdiction over a child
927 custody or child support proceeding if jurisdiction is not otherwise authorized by the law of this
928 state other than this chapter. PART 2. SPECIAL RULES FOR GESTATIONAL SURROGACY

929 AGREEMENT

930 Section 708. TERMINATION OF GESTATIONAL SURROGACY AGREEMENT.

931 (a) A party to a gestational surrogacy agreement may terminate the agreement, at any
932 time before an embryo transfer, by giving notice of termination in a record to all other parties. If
933 an embryo transfer does not result in a pregnancy, a party may terminate the agreement at any
934 time before a subsequent embryo transfer.

935 (b) Unless a gestational surrogacy agreement provides otherwise, on termination of the
936 agreement under subsection (a), the parties are released from the agreement, except that each
937 intended parent remains responsible for expenses that are reimbursable under the agreement and
938 incurred by the individual acting as gestational surrogate through the date of termination.

939 (c) Except in a case involving fraud, neither an individual acting as gestational surrogate
940 nor the surrogate's spouse or former spouse, if any, is liable to the intended parent or parents for
941 a penalty or liquidated damages, for terminating a gestational surrogacy agreement under this
942 section.

943 Section 709. PARENTAGE UNDER GESTATIONAL SURROGACY AGREEMENT.

944 (a) Except as otherwise provided in subsection (c) or section 710(b) or 712, on birth of a
945 child conceived by assisted reproduction under a gestational surrogacy agreement, each intended
946 parent is, by operation of law, a parent of the child. Parental rights shall vest exclusively in the
947 intended parent or parents immediately upon birth of the resulting child.

948 (b) Except as otherwise provided in subsection (c) or section 712, neither an individual
949 acting as gestational surrogate nor the surrogate's spouse or former spouse, if any, is a parent of
950 the child.

951 (c) If a child is alleged to be a genetic child of the individual who agreed to be a
952 gestational surrogate, the court shall, upon finding sufficient evidence, order genetic testing of
953 the child. If the child is a genetic child of the individual who agreed to be a gestational surrogate,
954 parentage shall be determined based on Articles 1 through 5 of this chapter.

955 (d) Except as otherwise provided in subsection (c) or subsection (b) of section 710 or
956 section 712, if, due to a clinical or laboratory error, a child conceived by assisted reproduction
957 under a gestational surrogacy agreement is not genetically related to an intended parent or a
958 donor who donated to the intended parent or parents, each intended parent, and not the individual
959 acting as gestational surrogate and the surrogate's spouse or former spouse, if any, is a parent of
960 the child.

961 Section 710. GESTATIONAL SURROGACY AGREEMENT: PARENTAGE OF
962 DECEASED INTENDED PARENT.

963 (a) Section 709 applies to an intended parent even if the intended parent died during the
964 period between the transfer of a gamete or embryo and the birth of the child.

965 (b) Except as otherwise provided in section 712, an intended parent is not a parent of a
966 child conceived by assisted reproduction under a gestational surrogacy agreement if the intended
967 parent dies before the transfer of a gamete or embryo unless:

968 (1) the surrogacy agreement provides otherwise; and

969 (2) the transfer of a gamete or embryo occurs not later than 36 months after the death of
970 the intended parent or birth of the child occurs not later than 45 months after the death of the
971 intended parent.

972 Section 711. GESTATIONAL SURROGACY AGREEMENT: ORDER OR
973 JUDGMENT OF PARENTAGE.

974 (a) Except as otherwise provided in subsection (c) of section 709 or section 712, before,
975 on or after the birth of a child conceived by assisted reproduction under a gestational surrogacy
976 agreement, any party to the agreement may commence a proceeding in the probate and family
977 court in the county where the intended parents(s) reside, where the individual acting as a
978 gestational surrogate resides or where the resulting child is born or expected to be born for an
979 order or judgment of parentage:

980 (1) declaring that each intended parent is a parent of the child and ordering that parental
981 rights and duties vest immediately on the birth of the child exclusively in each intended parent;

982 (2) declaring that the individual acting as gestational surrogate and the surrogate's spouse
983 or former spouse, if any, are not the parents of the child;

984 (3) designating the content of the birth record in accordance with chapter 46 and directing
985 the department of public health to designate each intended parent as a parent of the child;

986 (4) to protect the privacy of the child and the parties, declaring that the court record and
987 related pleadings shall be impounded in accordance with section 706;

988 (5) if necessary, that the child be surrendered to the intended parent or parents;

989 (6) if necessary, that the hospital where the child will be or has been born, treat the
990 intended parent(s) as the sole legal parent(s) for the purpose of naming and medical decisions;

991 and

992 (7) for other relief the court determines necessary and proper.

993 (a) before or after the birth of the child, as requested by the parties.

994 (b) The court may issue an order or judgment under subsection

995 (c) Neither this state or the department of public health nor any town clerk nor the
996 hospital where the child is to be born is a necessary party to a proceeding under subsection (a).
997 Any party to the surrogacy agreement not joining in the action shall be provided with notice of
998 the proceeding.

999 (d) A complaint under this section shall be supported by the following: (i) sworn
1000 affidavits of the parties to the surrogacy agreement and the assisted reproductive physician
1001 demonstrating the intent of the parties for the intended parent or parents to be the sole legal
1002 parent or parents of the child and that the child was born pursuant to assisted reproduction and
1003 (ii) certifications from the attorneys representing the intended parent(s) and the individual acting
1004 as gestational surrogate that the requirements of sections 702, 703 and 704 have been met. A
1005 complaint supported by such affidavits and certifications shall be sufficient to establish
1006 parentage, and a hearing shall not be required unless the court requires additional information
1007 which cannot reasonably be ascertained without a hearing.

1008 (e) Where a complaint satisfies subsection (d), a court shall, within 30 days of the filing
1009 of the complaint, issue an order or judgment of parentage. Such parentage orders or judgments
1010 issued under this section shall conclusively establish or affirm, where applicable, the parent-child
1011 relationship.

1012 (f) In the event the certification required by subsection (d) of this section cannot be made
1013 because of a technical or nonmaterial deviation from the requirements of sections 702, 703 and
1014 704 of this chapter, the court may nevertheless enforce the agreement and issue a judgment of

1015 parentage if the court determines the agreement is in substantial compliance with the
1016 requirements of said sections.

1017 Section 712. EFFECT OF GESTATIONAL SURROGACY AGREEMENT.

1018 (a) A gestational surrogacy agreement that substantially complies with sections 702, 703
1019 and 704 is enforceable.

1020 (b) If a child was conceived by assisted reproduction under a gestational surrogacy
1021 agreement that does not substantially comply with sections 702, 703 and 704, the court shall
1022 determine the rights and duties of the parties to the agreement consistent with the intent of the
1023 parties at the time of execution of the agreement. Each party to the agreement and any individual
1024 who at the time of the execution of the agreement was a spouse of a party to the agreement has
1025 standing to maintain a proceeding to adjudicate an issue related to the enforcement of the
1026 agreement.

1027 (c) Except as expressly provided in a gestational surrogacy agreement or subsection (d)
1028 or (e) of this section, if the agreement is breached by the individual acting as gestational
1029 surrogate or 1 or more intended parents, the non-breaching party is entitled to the remedies
1030 available at law or in equity.

1031 (d) Specific performance is not a remedy available for breach by an individual acting as
1032 gestational surrogate of a provision in the agreement that the individual acting as gestational
1033 surrogate be impregnated, terminate or not terminate a pregnancy, or submit to medical
1034 procedures.

1035 (e) Except as otherwise provided in subsection (d), if an intended parent is determined to
1036 be a parent of the child, specific performance is a remedy available for:

1037 (1) breach of the agreement by an individual acting as gestational surrogate which
1038 prevents the intended parent from exercising immediately on birth of the child the full rights of
1039 parentage; or

1040 (2) breach by the intended parent which prevents the intended parent's acceptance,
1041 immediately on birth of the child conceived by assisted reproduction under the agreement, of the
1042 duties of parentage.

1043 PART 3. SPECIAL RULES FOR GENETIC SURROGACY AGREEMENT

1044 Section 713. REQUIREMENTS TO VALIDATE GENETIC SURROGACY 1045 AGREEMENT.

1046 a) Except as otherwise provided in section 716, to be enforceable, a genetic surrogacy
1047 agreement shall be validated by a probate and family court. A proceeding to validate the
1048 agreement shall be commenced before assisted reproduction related to the surrogacy agreement.

1049 (b) The court shall issue an order validating a genetic surrogacy agreement if the court
1050 finds that:

1051 (1) sections 702, 703 and 704 of this chapter are satisfied; and

1052 (2) all parties entered into the agreement voluntarily and understand its terms.

1053 (c) An individual who terminates a genetic surrogacy agreement under section 714 shall
1054 file notice of the termination with the court and parties. On receipt of the notice, the court shall
1055 vacate any order issued under subsection (b).

1056 Section 714. TERMINATION OF GENETIC SURROGACY AGREEMENT.

1057 (a) A party to a genetic surrogacy agreement may terminate the agreement as follows:

1058 An intended parent or individual acting as genetic surrogate who is a party to the
1059 agreement may terminate the agreement at any time before a gamete or embryo transfer by
1060 giving notice of termination in a record to all other parties. If a gamete or embryo transfer does
1061 not result in a pregnancy, a party may terminate the agreement at any time before a subsequent
1062 gamete or embryo transfer. The notice of termination shall be attested by a notary or witnessed.

1063 (b) An intended parent or individual acting as genetic surrogate who terminates the
1064 agreement after the court issues an order validating the agreement under sections 713 or 716 of
1065 this chapter, but before the individual acting as genetic surrogate becomes pregnant by means of
1066 assisted reproduction, shall also file notice of the termination with such court.

1067 (c) A person may not terminate a validated genetic surrogacy agreement if a gamete or
1068 embryo transfer has resulted in a pregnancy.

1069 (d) On termination of the genetic surrogacy agreement, the parties are released from all
1070 obligations under the agreement except that any intended parent remains responsible for all
1071 expenses incurred by the individual acting as genetic surrogate through the date of termination
1072 which are reimbursable under the agreement. Unless the agreement provides otherwise, the

1073 individual acting as surrogate is not entitled to any non-expense related compensation paid for
1074 acting as a surrogate.

1075 (e) Except in a case involving fraud, neither an individual acting as genetic surrogate nor
1076 the surrogate's spouse or former spouse, if any, is liable to the intended parent or parents for a
1077 penalty or liquidated damages, for terminating a genetic surrogacy agreement under this section.

1078 Section 715. PARENTAGE UNDER VALIDATED GENETIC SURROGACY
1079 AGREEMENT.

1080 (a) On birth of a child conceived by assisted reproduction under a genetic surrogacy
1081 agreement validated under section 713 or 716 of this chapter, each intended parent is, by
1082 operation of law, a parent of the resulting child.

1083 (b) On birth of a child conceived by assisted reproduction under a genetic surrogacy
1084 agreement validated under section 713 or 716 of this chapter, the intended parent or parents shall
1085 file a notice with the court that validated the agreement that a child has been born as a result of
1086 assisted reproduction. Upon receiving such notice, the court shall immediately, or as soon as
1087 practicable, issue an order without notice and hearing:

1088 (1) declaring that any intended parent or parents is a parent of a child conceived by
1089 assisted reproduction under the agreement and ordering that parental rights and duties vest
1090 exclusively in any intended parent;

1091 (2) declaring that the individual acting as genetic surrogate and the surrogate's spouse or
1092 former spouse, if any, are not parents of the child;

1093 (3) designating the contents of the birth certificate in accordance with chapter 46 and
1094 directing the department of public health to designate any intended parent as a parent of the
1095 child;

1096 (4) to protect the privacy of the child and the parties, declaring that the court record is not
1097 open to inspection in accordance with section 706;

1098 (5) if necessary, that the child be surrendered to the intended parent or parents; and

1099 (6) for other relief the court determines necessary and proper.

1100 (c) Except as otherwise provided in subsection (d) or section 717, if, due to a clinical or
1101 laboratory error, a child conceived by assisted reproduction under a genetic surrogacy agreement
1102 is not genetically related to an intended parent or a donor who donated to the intended parent or
1103 parents, each intended parent, and not the individual acting as genetic surrogate and the
1104 surrogate's spouse or former spouse, if any, is a parent of the child.

1105 (d) If a child born to an individual acting as genetic surrogate is alleged not to have been
1106 conceived by assisted reproduction, the court may, upon finding sufficient evidence, order
1107 genetic testing to determine the genetic parentage of the child. If the child was not conceived by
1108 assisted reproduction and the second source of genetic material is the spouse of the individual
1109 acting as genetic surrogate, then the surrogate and her spouse shall be found to be the parents of
1110 the child. If the second genetic source is an individual other than the spouse of the surrogate,
1111 then parentage shall be determined as provided in chapter 209C. However, if the second genetic
1112 source is an intended parent, the court, in its sole discretion, may determine parentage under
1113 Articles 1 through 5 of this chapter. Unless the genetic surrogacy agreement provides otherwise,

1114 the individual acting as genetic surrogate is not entitled to any non-expense related compensation
1115 paid for acting as a surrogate if the child was not conceived by assisted reproduction.

1116 (e) If an intended parent fails to file the notice required under subsection (b) of this
1117 section, the individual acting as genetic surrogate may file with the court, not later than 60 days
1118 after the birth of a child conceived by assisted reproduction under the agreement, notice that the
1119 child has been born to the individual acting as genetic surrogate. On proof of a court order issued
1120 under sections 713 or 716 of this chapter validating the agreement, the court shall order that each
1121 intended parent is a parent of the child.

1122 Section 716. EFFECT OF NONVALIDATED GENETIC SURROGACY
1123 AGREEMENT.

1124 (a) A genetic surrogacy agreement, whether or not in a record, that is not validated under
1125 section 713 is enforceable only to the extent provided in this section and section 718.

1126 (b) If all parties agree, a court may validate a genetic surrogacy agreement after assisted
1127 reproduction has occurred but before the birth of a child conceived by assisted reproduction
1128 under the agreement if the court finds that:

1129 (1) sections 702, 703 and 704 of this chapter are satisfied; and(2) all parties entered into
1130 the agreement voluntarily and understand its terms.(c) If a child conceived by assisted
1131 reproduction under a genetic surrogacy agreement that is not validated under section 713 or
1132 subsection (b) of this section is born, the individual acting as genetic surrogate is not
1133 automatically a parent and the court shall adjudicate parentage of the child based on the best
1134 interest of the child, taking into account the factors in subsection (a) of section 511 and the intent
1135 of the parties at the time of the execution of the agreement.

1136 (d) The parties to a genetic surrogacy agreement have standing to maintain a proceeding
1137 to adjudicate parentage under this section.

1138 Section 717. GENETIC SURROGACY AGREEMENT: PARENTAGE OF DECEASED
1139 INTENDED PARENT.

1140 (a) Except as otherwise provided in section 715 or 716, on birth of a child conceived by
1141 assisted reproduction under a genetic surrogacy agreement, each intended parent is, by operation
1142 of law, a parent of the child, notwithstanding the death of an intended parent during the period
1143 between the transfer of a gamete or embryo and the birth of the child.

1144 (b) Except as otherwise provided in section 715 or 716, an intended parent is not a parent
1145 of a child conceived by assisted reproduction under a genetic surrogacy agreement if the
1146 intended parent dies before the transfer of a gamete or embryo unless:

1147 (1) the agreement provides otherwise; and

1148 (2) the transfer of the gamete or embryo occurs not later than 36 months after the death of
1149 the intended parent, or birth of the child occurs not later than 45 months after the death of the
1150 intended parent.

1151 Section 718. BREACH OF GENETIC SURROGACY AGREEMENT.

1152 (a) Subject to section 714(d), if a genetic surrogacy agreement is breached by an
1153 individual acting as a genetic surrogate or 1 or more intended parents, the non-breaching party is
1154 entitled to the remedies available at law or in equity.

1155 (b) Specific performance is not a remedy available for breach by an individual acting as
1156 genetic surrogate of a requirement of a validated or nonvalidated genetic surrogacy agreement

1157 that the surrogate be impregnated, terminate or not terminate a pregnancy, or submit to medical
1158 procedures.

1159 (c) Except as otherwise provided in subsection (b), specific performance is a remedy
1160 available for:

1161 (1) breach of a validated genetic surrogacy agreement by an individual acting as genetic
1162 surrogate of a requirement which prevents an intended parent from exercising, immediately upon
1163 birth of the child, the full rights of parentage; or

1164 (2) breach by an intended parent which prevents the intended parent's acceptance,
1165 immediately upon birth of the child, of the duties of parentage.

1166 Article 8. MISCELLANEOUS PROVISIONS

1167 Section 1. UNIFORMITY OF APPLICATION AND CONSTRUCTION.

1168 In applying and construing this uniform act, consideration shall be given to the need to
1169 promote uniformity of the law with respect to its subject matter among states that enact it.

1170 Section 2. RELATION TO ELECTRONIC SIGNATURES IN GLOBAL AND 1171 NATIONAL COMMERCE ACT.

1172 This chapter modifies, limits or supersedes the Electronic Signatures in Global and
1173 National Commerce Act, 15 U.S.C. Section 7001 et seq., but does not modify limit, or supersede
1174 Section 101(c) of that act, 15 U.S.C. Section 7001(c), or authorize electronic delivery of any of
1175 the notices described in Section 103(b) of that act, 15 U.S.C. Section 7003(b).

1176 Section 3. Severability.

1177 If any provision of this chapter or its application to any individual or circumstance is held
1178 invalid, the invalidity shall not affect other provisions or applications of this chapter which can
1179 be given effect without the invalid provision or application and to this end the provisions of this
1180 chapter are severable.

1181 Section 4. Transitional provision.

1182 This chapter applies to a proceeding in which no judgment has entered before the
1183 effective date of this act with respect to an individual's parentage that has not already been
1184 adjudicated by a court of competent jurisdiction or determined by operation of law.

1185 SECTION 55. This act shall take effect 1 year after its enactment
