

To Whom It May Concern:

“As your constituent, I write to you today to express my strong opposition to many parts of the recently passed S.2820. I hope that you will join me in prioritizing support for the establishment of a standards and accreditation committee, which includes increased transparency and reporting, as well as strong actions focused on the promotion of diversity and restrictions on excessive force. These goals are attainable and are needed now.

I am, however, concerned at the expansion of this legislation, targeting fundamental protections such as due process and qualified immunity. This bill in its present form is troubling in many ways and will make an already dangerous and difficult job even more dangerous for the men and women in law enforcement who serve our communities every day with honor and courage. Below are just a few areas, among many others, that concern me and warrant your rejection of these components of this bill:

(1) Due Process for all police officers: Fair and equitable process under the law demands the same rights of appeal afforded to all citizens and fellow public servants. Due process should not be viewed as an arduous impediment, but favored as a bedrock principle of fundamental fairness, procedure and accountability.

(2) Qualified Immunity: Qualified Immunity does not protect problem police officers. Qualified Immunity is extended to all public employees who act reasonably and in compliance with the rules and regulations of their respective departments, not just police officers. Qualified Immunity protects all public employees, as well as their municipalities, from frivolously lawsuits. This bill removes important liability protections essential for all public servants. Removing qualified immunity protections in this way will open officers, and other public employees to personal liabilities, causing significant financial burdens. This will impede future recruitment in all public fields: police officers, teachers, nurses, fire fighters, corrections officers, etc., as they are all directly affected by qualified immunity protections.

(3) POSA Committee: The composition of the POSA Committee must include more rank-and-file police officers and experts in the law enforcement field. If you’re going to regulate law enforcement, up to and including termination, you must understand law enforcement. The same way doctors oversee doctors, lawyers oversee lawyers, teachers oversee teachers, experts in law enforcement should oversee practitioners in law enforcement.

In closing, I remind you that those who protect and serve communities across Massachusetts are some of the most sophisticated and educated law enforcement officials in the nation. I again implore you to amend and correct S.2820 so as to treat the men and women in law enforcement with the respect and dignity they deserve.”

Thank you,
