An Act relative to a woman's right to know.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1           SECTION 1 This act shall be known and cited as “Laura’s Law” or as "Woman's Right  
2 to Know Act."

3           SECTION 2. Chapter 112 of the General Laws is hereby amended by striking the first  
4 paragraph of section 12S, appearing at lines

5           1 through 19 in the 2008 Official Edition of the General Laws of Massachusetts, and  
6 inserting the following: —

7           Section 12S. No physician may perform an abortion upon a pregnant woman without first  
8 obtaining her written informed consent in compliance with the following procedures, unless in a  
9 case of a medical emergency, compliance would cause the pregnant woman’s death or the

woman's substantial and irreversible impairment of a major bodily function. The referring physician, the physician performing the abortion, or either physician's agent must provide in a manner enabling the pregnant woman to receive at least twenty-four hours before the time an abortion is scheduled to be performed a printed pamphlet, the internet address to a state-sponsored website, or toll free number for an audio recording, all of which are created and maintained by the commissioner of public health, and which communicate the following general information: a written notice of the patients' rights guaranteed by section 70E of chapter 111 of the General Laws; a comprehensive list of the names, addresses, and contact information of public and private agencies and services available in the Commonwealth to provide medical, financial and other assistance to a woman through pregnancy, upon childbirth, and while her child is dependent, with prenatal, childbirth, neonatal, childrearing, and adoption services; a description of the probable anatomical and physiological characteristics of the unborn child at two week gestational increments from fertilization to full term, including color photographs or if a representative photograph is not available, realistic drawings of the developing unborn child at two week increments, and including written information about brain and heart function and the presence of external members and internal organs at each stage of development; a description of the various methods of abortion, and the physical, psychological and emotional risks or medical complications commonly associated with each method; a description of the physical, psychological and emotional risks or medical complications of pregnancy and delivery; a description of the support obligations of the father of a child born alive; and statements that, under the law of the commonwealth, a pregnant woman has the right upon her request to view a live ultrasound and hear the heartbeat of her unborn child before an abortion, that a person's refusal to undergo abortion does not constitute grounds for the denial of public assistance, that

the law permits adoptive parents to pay the cost of prenatal care, childbirth and neonatal care, that the father of the unborn child is liable to assist in the support of the child, even in instances where he has offered to pay for the abortion, that it is unlawful for any individual to coerce a woman to undergo an abortion, and that any physician who performs an abortion upon a woman without obtaining her informed consent may be liable to her for damages in a civil action at law. The texts of the pamphlet, website and audio recording shall be identical in content, incorporate the definitions of abortion, pregnancy, and unborn child as set out in Section 12K of this Chapter, be objective, nonjudgmental and designed to convey only accurate scientific information when discussing fetal development and medical risks, be written in a manner designed to permit a person unfamiliar with medical terminology to understand its purpose and content, and be published in English, Spanish, and Portuguese, and in each other language which is the primary language of 2% or more of the state's population. Prior to the scheduled abortion and before the woman provides her written consent to the abortion, the referring physician or the physician performing the abortion must orally inform the woman of: the nature of the proposed abortion method and associated risks and alternatives that a reasonable patient in the woman's position would consider material to the decision of whether to undergo the abortion; the probable gestational age of the unborn child at the time the abortion is to be performed; and the probable anatomical and physiological characteristics of the unborn child at the time the abortion is to be performed; and her right to see the ultrasound image and hear the heartbeat, if audible through auscultation, of her unborn child before the abortion is to be performed. Also prior to the scheduled abortion and before the woman provides her written consent to the abortion, the referring physician, the physician performing the abortion, or either physician's agent shall orally inform the woman that alternatives to abortion are available, ask the woman if she has seen the

information, including the list of abortion alternative agencies, provided in the pamphlet, website or recorded telephone message described in this section, give the woman a copy of the pamphlet if she requests one at this time, and provide the woman with an opportunity to contact abortion alternative agencies at this time should she so desire, and advise the woman that she has the right to see an ultrasound image and hear the fetal heartbeat of her unborn child before an abortion is performed. If requested by the woman before the abortion is performed, the referring physician or the physician performing the abortion shall arrange to provide to her a real-time ultrasound image for her to view and auscultation of fetal heart tone for her to hear of her unborn child. The ultrasound image and the auscultation of fetal heart tone must be of a quality consistent with standard medical practice in the community. Before the scheduled abortion but after she is provided with the opportunity to receive the information described in this section, if she decides to obtain the abortion, the woman shall sign a consent form. The form shall indicate that she has been offered and, if applicable, upon her request received the information and services described in this section and does provide her informed consent to the abortion. The physician performing the abortion shall maintain the signed consent form in the physician's files and destroy it seven years after the date upon which the abortion is performed. The commissioner of public health shall create and publish within ninety days after the effective date of this act, and shall review on an annual basis and update if necessary, the pamphlet, website, telephone recordings, and consent form required by this section. The commissioner shall avail at no cost and in appropriate number to any institution, clinic or physician's office providing abortions the printed materials required under this section.

SECTION 3. Chapter 111, section 70E is hereby amended by adding "institution, clinic, or physician's office providing abortions," immediately after the word "clinic," and before the

79 word “infirmity” appearing at line 2 of the 2008 Official Edition of the General Laws of  
80 Massachusetts.

81           SECTION 4. If any one or more provision, section, sentence, clause, phrase or word of  
82 this Act or the application thereof to any person or circumstance is found by a court to be  
83 unconstitutional or otherwise unenforceable, the same is hereby declared to be severable and the  
84 balance of this Act shall remain effective notwithstanding. The General Court hereby declares  
85 that it would have passed this Act, and each provision, section, sentence, clause, phrase or word  
86 thereof, even if any one or more provision, section, sentence, clause, phrase, or word would be  
87 found by a court to be unconstitutional or otherwise unenforceable.

88           SECTION 5. This Act shall take effect immediately after its passage by the General  
89 Court and approval by the Governor, or upon its otherwise becoming a law.
