

SENATE No. 2154

The Commonwealth of Massachusetts

PRESENTED BY:

Robert L. Hedlund

To the Honorable Senate and House of Representatives of the Commonwealth of Massachusetts in General Court assembled:

The undersigned legislators and/or citizens respectfully petition for the adoption of the accompanying bill:

An Act authorizing the Massachusetts Water Resources Authority to provide additional sewer services through the city known as the town of Weymouth to the town of Hingham.

PETITION OF:

NAME:

DISTRICT/ADDRESS:

Robert L. Hedlund

SENATE No. 2154

By Mr. Hedlund, a petition (subject to Joint Rule 12) (accompanied by bill, Senate, No. 2154) of Robert L. Hedlund for legislation to authorize the Massachusetts Water Resources Authority to provide additional sewer services through the city known as the town of Weymouth to the town of Hingham. Environment, Natural Resources and Agriculture.

The Commonwealth of Massachusetts

In the Year Two Thousand Eleven

An Act authorizing the Massachusetts Water Resources Authority to provide additional sewer services through the city known as the town of Weymouth to the town of Hingham.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to authorize additional sewer services to property in the town of Hingham, therefore, it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. Notwithstanding chapter 149 of the acts of 2003 and subject to approvals
2 required under section 2 hereof, the Massachusetts Water Resources Authority may provide
3 additional sewer services through the city known as the town of Weymouth to the property
4 located at 105 Research road in the town of Hingham, as described in a deed recorded at the
5 Plymouth registry district of the land court, certificate number LCC93472, and shown on the
6 town of Hingham assessor’s map 206, lot 12; provided, however, that the discharge from the
7 property to the sewer system shall not exceed a maximum of 5,400 gallons per day, unless an
8 additional amount is approved by the Massachusetts Water Resources Authority. The Authority
9 may allow the property to be used and serviced by its sewer system to the same extent as parcels

10 of property located within the district currently served by the Authority; and provided further,
11 that the property is subject to all rules, regulations and requirements of the authority. All costs
12 and expenses incurred for the engineering, design, supervision, labor, equipment and materials
13 relative to sewer tie-in shall be paid by the owner of said property.

14 SECTION 2. The provision of sewer services by the Authority for any discharges in
15 excess of that level authorized under section 1 of chapter 149 of the acts of 2003, shall
16 commence only after the board of directors of the Massachusetts Water Resources Authority has
17 voted approval and made other determinations in accordance with its applicable policies and
18 after all required approvals have been received, including, as applicable, the approval of the
19 community of origin, the transporting community, other regulatory bodies where required, and
20 the Massachusetts Water Resources Authority advisory board.
