18 (b) There shall be credited to the fund, revenue from general obligation bond  
19 appropriations or other monies authorized by the general court and specifically designated for the  
20 fund and any gifts, grants, private contributions, repayment of loans, fees and charges imposed  
21 relative to the making of loans or grants, subsidies, credit enhancements and other financial  
22 assistance, investment income earned on the fund's assets and any other sources. Money  
23 remaining in the fund at the end of a fiscal year shall not revert to the General Fund.

24 Section 3. The fund shall finance revitalization grants and other financial assistance to  
25 municipalities and local housing authorities to encourage public-private partnerships to transform  
26 severely distressed public housing into mixed-income communities that assist residents in  
27 becoming self-sufficient. Activities eligible for assistance from the fund shall include, but not be  
28 limited to:

- 29 (1) demolition of severely distressed public housing;
- 30 (2) acquisition of sites for off-site construction;
- 31 (3) capital costs of major rehabilitation;
- 32 (4) new construction and other physical improvements;
- 33 (5) costs for mobility counseling and relocation; and
- 34 (6) community and supportive service programs for residents, including those relocated  
35 as a result of revitalization efforts.

36 Section 4. The department shall develop and administer a competitive grant process and  
37 shall not approve any project unless it shall have found that:

- 38 (1) The project area is a decadent, substandard or blighted open area.
- 39 (2) The project will be of public benefit, in the public interest and for a public purpose,  
40 consistent with the sound needs of the community as a whole, and any benefit to private entities  
41 or individuals will be indirect and incidental and not the purpose of the project.
- 42 (3) The project area would not by private enterprise alone and without either government  
43 subsidy or the exercise of governmental powers be made available for revitalization.
- 44 (4) The amount of the grant to be provided appears to be the minimum amount necessary  
45 to make the project feasible.
- 46 (5) The project will have a significant impact on the economic condition of the city or  
47 town.

48 (6) There exist, or it is anticipated that there will exist within a reasonable time after  
49 award of a grant, firm commitments of private or other public resources in amounts sufficient,  
50 when added to the amount of the proposed grant, to render the project financially sound.

51 Within a reasonable time after application of a grant, the department shall give written  
52 notice to the applicant of its decision with respect to the application.

53 Section 5. The department shall promulgate regulations for the implementation,  
54 administration and enforcement of this chapter including, but not limited to:

55 (1) minority and women business enterprise participation;

56 (2) the comparative degree of economic distress among applicants;

57 (3) the comparative degrees of physical deterioration of the areas in question;

58 (4) the extent of financial participation by other public or private entities;

59 (5) the maximization of the number of public housing units to be constructed or preserved  
60 relative to the grant amount;

61 (6) the feasibility of accomplishing the proposed project in a timely fashion within the  
62 grant amount available.

63 Section 6. The department shall give priority to applications for grants which, in addition  
64 to meeting the other factors in this chapter, promise to: (1) provide substantial employment or  
65 other direct benefit for low-income persons; (2) significantly improve the condition of a low-  
66 income neighborhood; (3) provide reinforcement for other housing or other community  
67 development-related investments by the commonwealth; or (4) combine the aforementioned  
68 characteristics.

69 Section 7. Subject to replacing the maximum number of units that are feasible and with  
70 the approval of the department, a project receiving a grant shall not be required to provide an  
71 equal number of low-rent relocation units to replace those occupied units that are removed in the  
72 reduction of an undesirable unit density pursuant to subsection (j) of section 26 of Chapter 121B  
73 of the General Laws.

74 Section 8. The department shall annually file a report with the house and senate  
75 committees on ways and means, the joint committee on housing and the house and senate  
76 committees on bonding, capital expenditures and state assets detailing all expenditures from the  
77 fund, including, but not limited to, the recipients of grants from the fund, the cost of  
78 administration, and the number of units constructed, acquired and rehabilitated.
