[SIMILAR MATTER FILED IN PREVIOUS SESSION  
SEE HOUSE, NO. 3084 OF 2019-2020.]

**The Commonwealth of Massachusetts**

**In the One Hundred and Ninety-Second General Court  
(2021-2022)**

An Act establishing an emergency responder yellow dot program.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1 Chapter 90 of the General Laws is hereby amended by inserting after section 11 the  
2 following section:-

3 Section 11A. (a) For the purposes of this section the following words shall, unless a  
4 different meaning is apparent from the language or context, have the following meanings:-

5 “Emergency responder”, an emergency medical technician, emergency medical  
6 technician-paramedic, paramedic, other emergency medical services provider, physician or nurse  
7 on the scene or accompanying or attending a patient in an ambulance, fire fighter or law  
8 enforcement officer on the scene. This definition shall apply whether an ‘emergency responder’  
9 is on-scene in a professional capacity in response to an emergency call, or whether an individual  
10 possessing such professional training is on-scene by simple happenstance.

11           “Program participant”, an individual who has completed a health information card that  
12 includes health and emergency contact information, and affixed the decal provided by the  
13 registrar pursuant to the yellow dot program to the individual's vehicle.

14           “Yellow dot program”, a voluntary program of the registry to assist drivers and  
15 passengers who participate in the program and emergency medical responders in reporting  
16 critical medical information in the event of a motor vehicle accident or a medical emergency  
17 involving a program participant's vehicle.

18           (b) The registrar shall establish a yellow dot program in the registry. The yellow dot  
19 program shall provide emergency responders with critical health and emergency contact  
20 information about program participants so that emergency responders may aid program  
21 participants when those individuals are involved in motor vehicle emergencies or accidents and  
22 are unable to communicate. The registrar shall make yellow dot program materials available for  
23 pick up by any interested person at any registry of motor vehicle customer service office and  
24 shall provide for an on-line means through which individuals can request the materials required  
25 to participate in the program. The registrar shall also make yellow dot materials available in  
26 bulk, at no cost, to outside organizations wishing to disseminate those materials.

27           (c) The registrar shall provide to a program participant:

28           (1) a standard medical information form providing space for each participant to supply, at  
29 a minimum, the following information: name; a photograph of the program participant taken  
30 within the past 5 years clearly showing the participant's face; emergency contact information of  
31 no more than 2 persons; medical information, including medical conditions, recent surgeries,  
32 allergies, medications being taken, specific medical instructions and any religious objection to

33 receiving treatment; hospital preference; no more than 2 physicians' contact information; and the  
34 date on which the participant completed the form. The medical information form shall include a  
35 statement that the yellow dot program acts as a facilitator only, and that all information supplied  
36 on the medical information form is the sole responsibility of the program participant. The  
37 medical information form shall also include statements that the program participant supplies the  
38 medical information voluntarily, and that the program participant authorizes the disclosure to,  
39 and use of, the medical information by emergency medical responders and other responders for  
40 the purposes described in this section.

41 (2) a yellow decal of a size and design to be determined by the registrar which may be  
42 affixed to the rear driver's side window of the program participant's motor vehicle.

43 (3) a yellow envelope of a size and design to be determined by registrar into which the  
44 health information card established pursuant to this subsection is to be inserted and placed in the  
45 program participant's glove compartment; and

46 (4) a program instruction sheet.

47 (d) An emergency medical responder or other responder may use the information  
48 contained in the yellow dot folder for the following purposes:

49 (1) to identify a participant in the yellow dot program;

50 (2) to ascertain whether the participant has a medical condition that may impede  
51 communications with the responder;

52 (3) to communicate with the participant's emergency contacts about the location and  
53 general condition of the participant; or

54 (4) to consider the person's current medications and pre-existing medical conditions when  
55 emergency medical treatment is administered for any injury the participant suffers.

56 (e) the unauthorized taking of the personal information contained within an individual's  
57 'yellow-dot' materials, and/or the use of such information for any purpose not related to life-  
58 saving or other emergency response measures, shall fall under the definitions and enforcements  
59 of 'identity theft' defined in MGL Chapter 266 Section 37E

60 (f) Except for wanton or willful misconduct, no emergency medical responder nor any  
61 employer of an emergency medical responder, shall incur any liability if the emergency medical  
62 responder or other responder is unable to make contact, in good faith, with an emergency contact  
63 person, or disseminates or fails to disseminate any information from the yellow dot folder to  
64 other emergency medical responders, hospitals, or any healthcare providers who render  
65 emergency medical treatment to the participant. No health care provider or employer of a health  
66 care provider shall incur any civil or criminal liability if the provider relies in good faith on the  
67 information provided to them through the program.

68 (g) The registrar shall develop and undertake a public education campaign to inform the  
69 public about the yellow dot program established pursuant to this section. The registrar shall  
70 provide sufficient program materials to other state departments, agencies, non-profit  
71 organizations, or automobile or driving organizations seeking to distribute or make program  
72 materials available to interested persons.

73 (h) The registrar shall notify the executive office of public safety regarding the  
74 implementation of the yellow dot program so that all emergency responders are informed about  
75 the program.

76 (i) The Massachusetts Department of Transportation may accept donations and grants  
77 from any source, including eligible federal safety funds, to pay the expenses the department of  
78 transportation incurs in the development and implementation of the yellow dot motor vehicle  
79 medical information program.
