19 produce an Index of Creative and Innovative Education in the Commonwealth's Public Schools.
20 The index shall rate every public school in the commonwealth on teaching, encouraging and
21 fostering creativity in students. The index would be based in part on the creative opportunities in
22 each school as measured by the availability of classes and before and after-school programs
23 offered by and through school districts in the commonwealth that provide creative opportunities
24 for students in the public schools of the commonwealth, including, but not limited to, arts
25 education, debate clubs, science fairs, theatre performances, concerts, film-making, and
26 independent research.

27 The commission may hold public hearings to assist in the collection and evaluation of
28 data and testimony.

29 The commission shall develop recommendations on what would be included in an Index
30 of Creative and Innovative Education in the Commonwealth's Public Schools, how such an
31 index would be produced and implemented, what funding or finance measures the
32 commonwealth would need to implement such an index and any recommendation for inter-
33 agency agreements, inter-municipal agreements, or other cooperative agreements that would be
34 required to foster creative and innovative education programs in the commonwealth's public
35 schools.

36 The commission shall complete a written report detailing the factors to be considered in
37 an Index of Creative and Innovative Education in the Commonwealth's Public Schools and any

38 financial measures that would be needed for implementation. The commission shall submit its

44 shall be provided by the department of elementary and secondary education in cooperation with
45 the Massachusetts Cultural Council.
