An Act PROVIDING EDUCATIONAL INFORMATION ABOUT PREMATURE INFANTS' RISKS AND HEALTHCARE NEEDS..

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1 SECTION 1. Chapter 111 of the General Laws is hereby amended by inserting after  
2 section 67C the following section: -

3 Section 67C ½

4 (1) The department shall prepare written educational publications containing information  
5 about the possible complications, proper care and support associated with newborn infants who  
6 are born premature at less than 37 weeks gestational age. The written information shall at a  
7 minimum include the following:

8 The unique health issues affecting infants born premature, such as: increased risk of  
9 developmental problems; nutritional challenges; infection; chronic lung disease  
10 (bronchopulmonary dysplasia); vision and hearing impairment; breathing problems; feeding;  
11 maintaining body temperature; jaundice; hyperactivity; infant mortality as well as long-term  
12 complications associated with growth and nutrition; respiratory problems; fine motor skills;  
13 reading; writing; mathematics and speaking.

14           The proper care needs of premature infants, developmental screenings and monitoring  
15 and healthcare services available to premature infants through the Medicaid program and other  
16 public or private health programs.

17           Methods, vaccines and other preventative measures to protect premature infants from  
18 infectious diseases, including viral respiratory infections.

19           The emotional and financial burdens and other challenges that parents and family  
20 members of premature infants experience and information about community resources available  
21 to support them.

22           (2) The publications shall be written in clear language to educate parents of premature  
23 infants across a variety of socioeconomic statuses. The department may consult with community  
24 organizations that focus on premature infants or pediatric healthcare. The department shall  
25 update the publications every two years.

26           (3) The Department shall distribute these publications to children’s health providers,  
27 maternal care providers, hospitals, public health departments and medical organizations and  
28 encourage those organizations to provide the publications to parents or guardians of premature  
29 infants.
