

HOUSE No. 4590

The Commonwealth of Massachusetts

In the Year Two Thousand Ten

An Act relative to coverage and standards of treatment of persons with bleeding disorders..

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. Chapter 111 of the general laws is hereby amended by inserting after the
2 Section 6C the following section:—

3 Section 6C 1/2. This act shall be known as the Bleeding Disorders Treatment Standards
4 Act

5 (a) Declaration of policy and purposes.

6 The General Court finds and declares as follows:

7 (1) Hemophilia and von Willebrand disease are bleeding disorders affecting hundreds of
8 individuals in the Commonwealth. They are chronic, lifelong, incurable diseases.

9 (2) Without proper management, bleeding disorders like hemophilia and von Willebrand
10 disease can be crippling, life-constraining, and even fatal. In younger and older sufferers alike,
11 uncontrolled bleeding causes pain, destroys joints, and damages muscles and organs.

12 (3) Today, however, promptly administered therapies – clotting factors dispensed
13 through specialty pharmacies and given intravenously in the patient’s home – enable most
14 persons with bleeding disorders to avoid lifelong impairments and to lead normal, productive
15 lives free of pain and crippling arthritis.

16 (4) Access to and qualified administration of clotting therapies can be costly, but they
17 save lives, prevent disabilities, and produce cost-effective health outcomes. It is critical that the
18 care available to sufferers of bleeding disorders meet medically-endorsed treatment standards
19 and not be delayed or curtailed by short-sighted cost-reduction measures.

20 (5) The purpose of this act is to establish qualifications and standards for specialty
21 pharmacies from whom persons with bleeding disorders receive care, institute measures to detect
22 undiagnosed cases of von Willebrand disease, ensure access to comprehensive hemophilia
23 treatment facilities and specialized diagnostic labs, and guarantee coverage of needed services by
24 third party payors.

25 (b) Definitions.

26 The following words and phrases when used in this act shall have the meanings given to
27 them in this section unless the context clearly indicates otherwise:

28 "340B program." An outpatient pharmacy which is licensed by the Commonwealth to
29 dispense blood clotting products and which is conditionally or fully designated as a covered
30 entity under the Veterans Health Care Act of 1992 (Public Law 102-585, 106 Stat. 4943), which
31 enacted section 340B of the Public Health Service Act (58 Stat. 682, 42 U.S.C. § 256b).

32 "Ancillary infusion equipment and supplies." The equipment and supplies required in
33 order to infuse a blood clotting product into a human vein, including, but not limited to, syringes,
34 needles, sterile gauze and alcohol swabs, tourniquets, medical tape, sharps or equivalent
35 biohazard waste containers, and cold compression packs.

36 "Bleeding disorder." A medical condition characterized by a severe deficiency or
37 absence of one or more essential blood clotting proteins in the human blood, often called factors,
38 including all forms of hemophilia, von Willebrand disease, and other bleeding disorders which
39 result in uncontrollable bleeding or abnormal blood clotting.

40 "Blood clotting product." An intravenously administered medicine manufactured from
41 human plasma or recombinant biotechnology techniques that is approved for distribution by the
42 Food and Drug Administration and which is used for the treatment and prevention of
43 hemorrhagic episodes associated with bleeding disorders. The term includes, but is not limited
44 to:

45 (1) Factor VIIa, Factor VIII and Factor IX products.

46 (2) von Willebrand Factor products.

47 (3) Prothrombin complex concentrates.

48 (4) Activated prothrombin complex concentrates.

49 (5) Other products approved by the FDA for the treatment of bleeding disorders and
50 associated inhibitors.

51 "Clinical coagulation laboratory." A laboratory affiliated with a federally-funded
52 hemophilia treatment center which is able to diagnose bleeding disorders and perform
53 specialized coagulation studies of human blood for patients with bleeding disorders.

54 "Comprehensive hemophilia care center." A federally funded hemophilia treatment
55 center or any clinic formally affiliated with a federally funded hemophilia treatment center; or a
56 hospital-based clinic determined by the Department to (1) provide regular multidisciplinary team
57 care in the treatment and management of hemophilia and other bleeding disorders, and (2) satisfy
58 such other criteria as the Department may by regulation establish.

59 "Covered person." An individual who is entitled to receive health care benefits or
60 coverage from a health care insurer.

61 "Department." The Massachusetts Department of Public Health.

62 "Drug formulary." A schedule of prescription drugs or preferred therapeutic agents,
63 including blood clotting products, approved for use by a health care insurer or its agent, which
64 will be covered and dispensed through participating pharmacies.

65 "FDA." The United States Food and Drug Administration.

66 "Federally funded hemophilia treatment center." A hospital or hospital-based clinic that
67 receives funding support from the Centers for Disease Control of the U.S. Department of Health
68 and Human Services as part of a network of centers promoting the management, treatment, and
69 prevention of complications experienced by persons with hemophilia and other bleeding
70 disorders.

71 "Health care insurer." An entity that issues an individual or a group health insurance
72 policy or the state program of medical assistance administered by the Commonwealth pursuant
73 to the requirements of Title XIX of the Social Security Act, 42 U.S.C. §§ 1396, et seq.

74 "Health insurance policy."

75 (1) An individual or group health insurance policy, subscriber contract, certificate or
76 plan which covers medical or health care services by a health care facility or licensed health care
77 provider.

78 (2) The term does not include any of the following types of insurance, alone or in
79 combination with each other:

80 (i) Hospital indemnity.

81 (ii) Accident-only policies.

82 (iii) Specified disease policies.

83 (iv) Disability income policies.

84 (v) Dental plans.

85 (vi) Vision plans.

86 (vii) CHAMPUS supplement.

87 (viii) Long-term care policies.

88 (ix) Other limited benefit plans.

89 "Hemophilia." A bleeding disorder caused by a hereditary deficiency of the Factor VIII,
90 Factor IX or Factor XI blood clotting protein in human blood.

91 "Home nursing services." Specialized nursing care provided in the home setting to assist
92 a patient in the reconstitution and administration of blood clotting products.

93 "Invasive uterine surgical procedure." Any procedure performed by a physician licensed
94 in this Commonwealth that involves the insertion of a surgical instrument into the human uterus,
95 including, but not limited to, the performance of a hysterectomy or uterine ablation.

96 "Menorrhagia." Excessive uterine or menstrual bleeding.

97 "Participating pharmacy." A pharmacy which enters into an agreement with a health care
98 insurer to dispense blood clotting products and ancillary infusion equipment and supplies to
99 individuals with bleeding disorders.

100 "Pharmacy." A mail-order pharmacy, 340B program, or other dispensing pharmacy that
101 is licensed by the Commonwealth to dispense blood clotting products and ancillary infusion
102 equipment and supplies.

103 "Policy." A written document or contract that provides health care coverage and health
104 care benefits for a covered person.

105 "Prescription" or "prescription drug." A drug or a blood clotting product dispensed by
106 order of a health care provider with prescriptive authority under the laws of the Commonwealth.

107 "von Willebrand disease." A human bleeding disorder caused by a hereditary deficiency
108 or abnormality of the von Willebrand Factor in human blood.

109 (c) Coverage.

110 (1) Pharmacy services.---A health care insurer shall contract with any pharmacy that
111 provides blood clotting factors and that satisfies the pertinent standards of service set forth in
112 Section 5 of this act.

113 (2) Hemophilia treatment centers.—A health care insurer shall contract with any 340B
114 program affiliated with a federally funded hemophilia treatment center that furnishes blood
115 clotting products and that satisfies the standards of service set forth in Section 5 of this act for a
116 pharmacy. A health care insurer shall provide payment for (1) physician services at a hospital
117 with a comprehensive hemophilia care center and (2) clinical laboratory services at a hospital
118 with a comprehensive hemophilia care center when a covered person's treating physician
119 determines that the use of the hospital's clinical coagulation laboratory is medically necessary for
120 the screening, diagnosis, provisional diagnosis and treatment of bleeding disorders or suspected
121 bleeding disorders. The term medically necessary includes, but is not limited to, circumstances
122 deemed urgent by the treating physician.

123 (3) Blood clotting products.—

124 (i) A health care insurer shall provide payment for all FDA-approved brands of blood
125 clotting products in multiple assay ranges, low, medium and high, as applicable, including
126 products manufactured from human plasma and those manufactured with recombinant
127 biotechnology techniques.

128 (ii) A health care insurer shall provide payment for blood clotting products as prescribed
129 by the treating physician for in-patient care, out-patient care, and the home treatment of bleeding
130 disorders.

131 (iii) A health care insurer shall provide payment for ancillary infusion equipment and
132 supplies as prescribed by the treating physician in connection with prescriptions of blood clotting
133 products for a covered person.

134 (iv) If a health care insurer has a drug formulary, including a formulary relating to
135 specialty pharmaceutical therapies, all FDA-approved blood clotting products shall be included
136 in the formulary.

137 (v) No health care insurer shall require a participating pharmacy to make any substitution
138 for blood clotting products prescribed by a covered person's treating physician without the prior
139 approval of such physician.

140 (vi) If a health care insurer requires preapproval or preauthorization of a prescription for
141 blood clotting products prior to the dispensing of the same, preapproval or preauthorization shall
142 be completed within 24 hours or one business day, whichever is later. However, if the
143 circumstances are deemed urgent by the treating physician, then preapproval or preauthorization
144 shall be waived upon the request of the treating physician.

145 (d) von Willebrand disease screening.—A health care insurer shall provide payment for
146 the screening services required under Section 6 of this act, including, but not limited to, related
147 physician's fees and diagnostic laboratory services.

148 (e) Standards of services by participating pharmacies.

149 (1) Pharmacies shall be open and staffed at a minimum from 9 a.m. until 8 p.m., Eastern
150 Time, Monday through Friday, not including holidays. At all such times a pharmacist shall be
151 present and available to fill prescriptions for blood clotting products. At any time that the

152 pharmacy is not open, on-call arrangements shall be in place to secure the prompt services of a
153 pharmacist and delivery service in response to emergency demands for blood clotting products.

154 (2) Pharmacy staff shall have 24-hour access to multilingual interpreters.

155 (3) When dispensing blood clotting products to a covered person, pharmacies shall
156 furnish ancillary infusion equipment and supplies as prescribed by the treating physician.

157 (4) In addition to the foregoing, pharmacies shall:

158 (i) Supply blood clotting products as prescribed by the covered person's treating
159 physician and shall make no substitutions of blood clotting products without prior approval by
160 the treating physician.

161 (ii) Be able to supply any FDA-approved brands of blood clotting products in multiple
162 assay ranges, low, medium and high, as applicable, including products manufactured from
163 human plasma and those manufactured with recombinant biotechnology techniques.

164 (iii) Provide directly or through a reliable third-party agency home nursing services
165 whenever such services are prescribed and deemed necessary by the treating physician.

166 (iv) Upon receiving a prescription, correctly fill and deliver the prescribed blood clotting
167 products and ancillary infusion equipment and supplies to the covered person within 48 hours
168 from the time the order is placed for established patients.

169 (v) Upon consultation with the treating physician, have a plan in place to ensure that, in
170 case of emergent need, the patient shall have access to factor concentrate, equipment, and
171 supplies within 12 hours of expressed need, with a goal of three hours where logistically

172 possible. If the pharmacy is contacted about an emergency situation, the treating physician
173 should be notified.

174 (vi) Provide appropriate and necessary recordkeeping and documentation.

175 (vii) Provide administrative assistance for covered persons to obtain payment for blood
176 clotting products, ancillary infusion equipment and supplies, and home nursing services.

177 (viii) Explain patient deductibles, coinsurance payment responsibilities, and lifetime cap
178 limits clearly at the time the first order is placed, upon request, and annually when updating
179 insurance information or sooner if there has been a change in insurance.

180 (ix) Participate in the National Patient Notification System and provide patient
181 notification of recalls and withdrawals of blood clotting products and ancillary infusion
182 equipment and supplies as soon as practical.

183 (x) Provide sharps containers or the equivalent for the removal and disposal of medical
184 waste.

185 (xi) Be certified bi-annually by the Department to meet the standards established by this
186 section.

187 (f) List of pharmacies.--The Department shall compile and distribute, upon request, a list
188 of pharmacies that comply with this section.

189 (g) Medical screening.

190 (1) Required screening.--A physician licensed in this Commonwealth to provide
191 obstetrical and gynecological services shall request a medical screening for von Willebrand

192 disease and other bleeding disorders prior to advising an individual that an invasive uterine
193 surgical procedure is the most appropriate treatment for menorrhagia.

194 (2) Place of screening.--The medical screening referenced in subsection (a) shall be
195 performed at a clinical coagulation laboratory associated with a comprehensive hemophilia care
196 center.

197 (h) Regulations.

198 The department shall promulgate all rules and regulations necessary to effectuate the
199 purposes of this section

200 Section 2. Effective date.

201 This act shall take effect upon its passage.
