An Act relative to healthy youth.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1           SECTION 1. Chapter 71 of the General Laws, as appearing in the 2008 Official Edition,  
2 is hereby amended by inserting after Section 32A the following:—

3           Section 32B. (1) For the purposes of this Act, the following terms shall have the  
4 following meanings:

5           “Age-appropriate” means topics, messages, and teaching methods suitable to particular  
6 ages or age groups of children and adolescents, based on developing cognitive, emotional, and  
7 behavioral capacity typical for the age or age group.

8

9           “Department” means the Department of Elementary and Secondary Education.

10           “Medically accurate” means supported by peer-reviewed research conducted in  
11 compliance with accepted scientific methods, and recognized as accurate and objective by

12 leading medical, psychological, psychiatric, and public health organizations and agencies, and,  
13 where relevant, published in peer-reviewed journals.

14 (2) Each school district or public school that offers sexual health education shall provide  
15 medically accurate, age-appropriate education.

16 Sexual health education under this section shall: teach the benefits of abstinence and  
17 delaying sexual activity; stress the importance of effectively using contraceptives and barrier  
18 methods to prevent unintended pregnancy and sexually transmitted infections, including  
19 HIV/AIDS; teach students the skills to effectively negotiate and implement safer sexual activity;  
20 help students develop the relationship and communication skills to form healthy, respectful  
21 relationships free of violence, coercion, and intimidation and make healthy decisions about  
22 relationships and sexuality; and be appropriate for students regardless of gender, race, disability  
23 status, or sexual orientation.

24 No speaker, program, curriculum, or materials used by a public school to provide  
25 instruction regarding sexual health shall conflict with the standards set out in this section, and  
26 information about abstinence may not be provided separate from information on contraceptives  
27 and disease prevention.

28 (3) Sexual health education must be consistent with the Massachusetts comprehensive  
29 health curriculum framework developed by the department.

30 The commissioner of education shall develop a list of sexual health education curricula  
31 that are consistent with this section and the comprehensive health curriculum framework. This  
32 list shall be intended to serve as a resource for schools, teachers, or any other organization or  
33 community group, and shall be updated annually and made available on the department web site.

34 Any school district or public school that utilizes these curricula in a manner consistent with  
35 section 32B(2) shall be presumed to be in compliance with this section.

36 (4) The department shall establish a procedure, to be described on its website, to enable  
37 any parent or guardian with a child enrolled in a school district, or any student enrolled in a  
38 school district, to bring to the attention of the department any sexual health curriculum or  
39 program which the individual believes is inconsistent with the requirements of this act. The  
40 commissioner shall assess any such curriculum or program and provide guidance and training to  
41 the school district to address identified inconsistencies and report back to the complaining  
42 individual within 60 days.

43 (5) Nothing in this section shall be construed to limit the ability of parents to exempt their  
44 children from instruction which primarily involves human sexual education or human sexuality  
45 issues under the provisions of section 32A of this chapter.

46 SECTION 2. Section 1I of Chapter 69 of the General Laws, as appearing in the 2008  
47 Official Edition, is hereby amended by inserting at the end thereof the following:—

48 Each school district and Commonwealth charter school shall file a report regarding  
49 sexual health education in the district with the department every year by a date and in a format  
50 determined by the board. Said report shall include, but not be limited to, the following data for  
51 each public school and Commonwealth charter school, by grade level:

- 52 (a) a description of any sexual health education curricula or programs offered;
- 53 (b) the approximate number of hours spent on sexual health education;
- 54 (c) the number of students receiving sexual health education; and

55           (d)     the number of students who opt-out of sexual health education under the  
56 provisions of section 32A of chapter 71.
