An Act relative to creating a community based flexible supports Oversight Commission.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1           Whereas, The Department of Mental Health shall establish a Community Based Flexible  
2       Supports (CBFS) Oversight Commission. The Commission shall oversee all matters that relate to  
3       CBFS concerning behavioral health, detoxification, homeless mentally ill, hospital discharge,  
4       community tenure, provider contracts, and all other matters related to CBFS. The Commission  
5       will provide inclusive and transparent oversight through genuine partnership and collaboration  
6       with a diverse group of stakeholders, including meaningful participation by consumers, family  
7       members of adults and children, legal and program advocates, providers, other state agencies,  
8       mental health professionals and professional organizations, legislators, representation from  
9       employee unions and members of racial, cultural and linguistic minority groups.

10           The CBFS commission will encourage public/private partnerships to pursue every  
11       opportunity to maximize available revenue sources, including but not limited to federal grants  
12       and maximization and capture of federal Medicaid match dollars, and these revenue sources will  
13       be reinvested in CBFS.

Be it enacted by the Senate and House of Representatives in General Court assembled,
