**The Commonwealth of Massachusetts**

**In the Year Two Thousand Eleven**

An Act relative to reducing damage caused by the current foreclosure crisis in the historic districts of Massachusetts.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1           WHEREAS, the many Massachusetts urban neighborhoods recognized as Historic  
2 Districts in Massachusetts were successful middle class communities when they were initially  
3 developer; and

4           WHEREAS, after World War II residents and homeowners in many of these Historic  
5 District communities were victimized by red-lining by banking institutions and racial steering by  
6 some unscrupulous real estate agents, and real estate values in the community were depressed,  
7 causing housing abandonment and demolition of many historic homes; and

8           WHEREAS, in response to this decline residents worked many years to protect these  
9 Historic Districts from destruction and to obtain recognition of the communities value as Historic  
10 Districts; and

11           WHEREAS, since designation as Historic Districts homeowners and citizens in the  
12 officially recognized Historic Districts in Massachusetts have worked successfully to encourage  
13 families to stay in and move to the community and to invest in restoration of the historic homes  
14 there; and

15           WHEREAS, as a result of the investments and other efforts of many new and old  
16 residents and homeowners in the Historic Districts the community's real estate values stabilized  
17 and increased in relation to other communities within cities, and these Districts have come to be  
18 seen as assets the their larger urban communities; but then

19           WHEREAS, since 2007 the increase of foreclosures in the said Historic Districts in  
20 Massachusetts have increased as a result of the large number of so-called "Sub-prime" mortgage  
21 loans made in the course of the past several years were defaulted on by buyers abused by  
22 unscrupulous banks and lending companies; and

23           WHEREAS, these foreclosures have resulted in a large number of real estate auctions  
24 within the said District, while at the same time conditions in the lending market have been  
25 disrupted resulting in a reduced number of families being able to access financing for home  
26 purchase; and

27           WHEREAS, credible studies and reports have documented that the large number of  
28 foreclosures and auctions in the said Historic Districts have resulted in reduced sales prices and  
29 an increase in the number of vacant and vandalized houses, and have undermined the value of all  
30 houses in the District and made financing for purchase and restoration of the historic homes in  
31 Historic District impossible to access for most families;

32 WHEREAS, many new foreclosure auctions are planned by banks and their agents and  
33 these market conditions show every indication of continuing for the foreseeable future;

34 THEREFORE, the time has arrived for the Massachusetts Legislature to provide the  
35 Historic District Communities and the Cities and Towns of Massachusetts with the tools to  
36 protect and build on the many accomplishments of the decades following recognition of these  
37 Districts as official Historic Districts, without damaging the legitimate interests of banks and  
38 other financial institutions which have invested in mortgages and other financial interests related  
39 to real estate within the said Historic District:
