47 members are naturally linked by one or more of the following: (i) watersheds, airsheds, wetlands,
48 wildlife migration, or other common environmental interest or interests; (ii) demographic
49 similarities such as employment centers, cultural traditions, or historic events or interests; or (iii)

52 district may be a sub-district within an existing regional planning district created pursuant to
53 Sections 1-8 of Chapter 40B, subject to the consent of the applicable district planning
54 commission and all of the members of the regional housing planning district.

57 the municipal members of the district through the inter-municipal agreement, shall adopt a
58 regional comprehensive plan that establishes urban growth boundaries that designate areas
59 within the district that are best suited for compact patterns of residential, commercial and
60 industrial land uses. The regional comprehensive plan shall inventory all land within the urban
61 growth boundaries, project future land use needs over the next 20 years, designate sufficient land
62 within the urban growth boundaries to meet those needs, and develop zoning and environmental
63 regulations for adoption by the member municipalities to effectuate the regional comprehensive
64 plan. The regional comprehensive plan, through the designation of land for residential uses and
65 the creation of development zoning bylaws and regulations to govern said land, shall permit the
66 construction, as of right, of a sufficient quantity of low or moderate income housing units for
67 each member municipality to meet the 10% housing unit minimum threshold set forth in Section
68 20. Zoning bylaws and regulations adopted pursuant to a regional comprehensive plan may
69 provide for construction of said housing to be permitted subject to a site plan review process.

71 comply with this section every fifteen years. A municipality that elects not to enter into a
72 regional housing planning district agreement may adopt its own municipal comprehensive
73 housing plan. To be eligible for the benefits of this Section 20a, a municipal comprehensive

77 creation of a sufficient quantity of low or moderate income units to satisfy the 10% housing unit
78 minimum threshold, decisions made by the local board of appeals under Section 21 of Chapter

79 40B shall be deemed consistent with local needs for a period of two years from the effective date
80 of said zoning bylaws, which shall be renewed for additional two year terms if during the
81 preceding two years there has been an increase in the number of low or moderate income
82 housing units in the municipality equal to at least 1% of the municipality's total number of
83 housing units as determined by the last decennial census. New housing that is added to a
84 municipality's subsidized housing inventory may include housing created within another
85 municipality that is a member of the same regional housing planning district, and which is
86 subject to a housing credit allocation agreement as provided under subsection (4). .

87 (4) Municipalities that are members of a regional housing planning district that has
88 adopted a regional comprehensive plan may, by agreement, allocate new or substantially-
89 rehabilitated low or moderate income housing created in one municipality for inclusion on
90 another member's subsidized housing inventory for purposes of Section 20, provided that: (a) the
91 new or substantially-rehabilitated housing is consistent with the regional comprehensive plan; (b)
92 the housing is not included on more than one municipality's subsidized housing inventory; (c)
93 the allocation of housing is made pursuant to housing credit allocation agreement between the
94 municipalities; and (d) no more than fifty percent of the housing included within a municipality's

150 80% of the area median income as determined by the United States Department of Housing and
151 Urban Development. The director shall determine the amount of each award based on the
152 reasonably-anticipated pre-development costs, in the director's best judgment and reasonable
153 discretion. The director shall award disbursements equal to the full amount of the reasonably-
154 anticipated predevelopment costs of each proposal unless the applicant requests a smaller
155 disbursement. The director shall deny disbursements requests only under the following
156 circumstances: (i) there are not sufficient monies in the fund; (ii) the proposal does not meet the
157 conditions of this section; or (iii) the director determines that the proposal is not feasible or

168 of chapter 40B, provided however that monies may be disbursed for proposals located in

174 municipalities whose aggregate real property value, per capita, is less than the median real
175 property value per capita for the Commonwealth's 351 municipalities.
