13   The commission shall have the power to adopt its own rules and elect such officers as may be

(b) The governor shall appoint a state house curator from among candidates recommended by the commission. The curator shall be qualified by training and experience in historic preservation and art collections management, care and conservation. The curator shall report to the commission and be responsible for the administrative and professional duties associated with both the day to day oversight of the state house art and artifact collection and all aspects of the historic preservation of the state house and its grounds. The curator shall be classified in accordance with section 45 of chapter 30 and the salary shall be determined in accordance with section 46C of chapter 30.

(c) The commission shall maintain care and custody of all works of art and historical artifacts in the state house art collection, including those inside the state house, on its grounds, on display and in storage. The commission shall oversee their care according to the codes of ethics and standards for practice established by the American Association of Museums and the American Institute for Conservation of Historic and Artistic Works, as the codes and standards may be amended from time to time.

The commission shall oversee the handling and display of works of art and historical artifacts in public areas and private offices, provided, however, that said commission shall not place in or remove from any space in the state house assigned to the general court any such works of art or historical artifact without the approval of the committees on rules of the 2 branches, acting concurrently.

(d) The commission shall serve as an advisor to the governor and legislature on all artistic matters at the state house, including the historic preservation of the building.

(e) The commission shall direct the process of acquisitions to the state house art collection, from review of all plans to final approval of completed art works. (f) The commission shall review and approve any plan or design relative to the creation, acquisition, construction, erection, or remodeling of any work of art at the state house. The commission shall consult with sponsors or donors to revise and refine such plans and designs as may be necessary. The commission shall give its final approval only upon the arrival of the work of art at the state house. If the commission gives such final approval, it shall file its recommendation of acceptance with the governor within 30 days, along with such suggestions and recommendations as it may deem proper.

(g) The commission may receive grants, gifts, bequests, and other contributions for the maintenance, restoration and acquisition of works of art and historical artifacts.
