Resolve establishing a commission to enhance competitiveness in plastics manufacturing.

1 **Resolved**, that a special commission is hereby established to study the availability of safe, cost-  
2 effective alternatives to bisphenol-A (BPA) in plastics manufacturing. The commission shall  
3 consist of five members as follows: the director of the office of technical assistance or his  
4 designee, the commissioner of the department of public health or his designee, the director of the  
5 Massachusetts office of business development or his designee, the director of the Massachusetts  
6 manufacturing extension partnership or his designee, and a representative of the toxics use  
7 reduction institute at the University of Massachusetts Lowell.

8       The commission shall sponsor an open exchange with plastics manufacturers in the  
9 Commonwealth and examine the costs and benefits of implementing available alternatives. The  
10 commission's study shall include, but not be limited to, the cost of implementing alternatives,  
11 the potential of directing existing financial incentives including state and federal grants and tax  
12 credits toward the implementation of safer alternative in plastics manufacturing, or the need for  
13 new incentives to be developed. The recommendations and findings shall be filed with the clerks

- 14 of the House and Senate, the chairs of the joint committee on the environment, natural resources
- 15 and agriculture and the chairs of the joint committee on public health no later than June 1, 2012.
