An Act reducing special education referrals and costs..

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1           SECTION 1. Chapter 71B of the General Laws, as appearing in the 2010 Official  
2 Edition, is hereby amended by adding after Section 5C the following new Section:-

3           Section 5D. (a) There is hereby established, subject to appropriation, a pre-special  
4 education referral reimbursement program. Said program shall reimburse municipalities for one  
5 half of the eligible instructional costs associated with the reduction of special education referrals  
6 for problems with reading/literacy through the implementation of Reading Recovery. Said  
7 reimbursements shall be in addition to amounts distributed pursuant to chapter 70 of the General  
8 Laws and shall not be included in the calculation of base aid, as defined in said chapter 70, for  
9 any subsequent fiscal year.

10           (b) For the purposes of this section, the following words shall have the following  
11 meanings:—

12           “Reading Recovery”, a one to one, scientific research-based, short term (12-20  
13 weeks), pre-special education referral early literacy intervention delivered by a certified Reading

Recovery teacher to children at risk of failing to learn to read and write in first grade. Children are selected for service based on performance in six literacy assessments published in Clay's An Observation Survey of Early Literacy Achievement. Reading Recovery teachers must be certified as having completed a year-long accredited university-based Reading Recovery program.

"Instructional costs", costs directly attributable to providing students with one to one intervention services of a Reading Recovery teacher for not more than twenty weeks. Such costs shall include as salary of educational personnel, salary of related services personnel, costs for specialized books, materials or equipment. Instructional costs shall not include transportation costs, administrative or overhead costs, the costs of adapting classrooms or materials that are used by more than one student, the costs of fringe benefits of personnel employed by the school district. Instructional costs for the purposes of this reimbursement program also shall not include the salary of personnel providing educational services when such services are not specially designed instruction for the student in Reading Recovery.

(c) Instructional costs eligible for reimbursement under the program shall be reported by a school district to the department in a form and manner as prescribed by the commissioner. The department shall review the report and approve those per pupil instructional costs that are eligible for reimbursement pursuant to the program within 30 days of submission. Based upon the approved costs, the department shall calculate the reimbursement due a municipality.

(d) Districts shall notify the department within 30 days of any change in previously approved instructional costs, including but not limited to changes in a student's enrollment status in Reading Recovery.

(e) In preparing a budget recommendation for the subsequent fiscal year for consideration by the local appropriating authority, a school district shall project Reading Recovery costs and enrollments, including per pupil instructional costs eligible for reimbursement under this program. The school committee's budget recommendation shall exclude any such instructional costs eligible for reimbursement under this program. Upon receipt of reimbursements paid under this program by the municipal treasurer, in the case of local school districts, or the regional district treasurer in the case of regional school districts, such amounts shall be recorded by the municipality or district as additional appropriations to the school committee, without any further action being required on the part of the local appropriating authority.

(f) Reimbursements shall be made based on the previous year's per-pupil instructional costs, as pursuant to subsection (c), in compliance with department of education audits and procedures. Reimbursements shall be made in 4 quarterly payments to coincide with the distribution of funds made available pursuant to said chapter 70. Each quarterly payment shall be equal to 25 per cent of the estimated reimbursements for the previous year's submissions, subject to appropriation.
