20 two year terms. In selecting a person from each of the said municipalities, preference shall be  
21 given to residents who are members of historic commissions or other nonprofit organizations  
22 concerned with the preservation and use of the former Blackstone canal or restoration of the  
23 Blackstone River and its tributaries.

24                   Section 2. The purpose of the commission shall be the restoration for public use  
25 and enjoyment of the Blackstone River and canal. Said commission is hereby authorized to  
26 develop plans for the establishment of a Blackstone river and canal heritage state park and  
27 Blackstone valley bikeway by acquisition of land, rights-of-way, existing structures and related  
28 facilities and land areas of the former Blackstone canal, located in the municipalities of  
29 Worcester, Blackstone, Millville, Uxbridge, Northbridge, Grafton, Sutton, and Millbury, as may  
30 become available to the commission from time to time by option, gift, purchase, lease or

50 to the commissioner of conservation and recreation regarding the establishment, ownership, and

63 said commission or executive committee, respectively. All matters shall be decided by a majority  
64 vote. The commission shall report annually, and at such other times it may choose, to the general  
65 court, the governor, and the chief elected official of each municipality named in this section on  
66 its activities and plans for a heritage state park.

67 Section 3. Not less than fourteen business days before the appropriate board or  
68 official of a member city or town, or a state agency, permits or approves an activity or action on  
69 land abutting the route of the Blackstone canal, or within one mile of the center line of said  
70 canal, the applicant for said activity or action shall give notice in writing to the commission  
71 through its chairman of said activity or action. Said commission may, at the discretion of the  
72 chairman, or of a majority of the executive committee, hold a public hearing on said activity or  
73 action to determine if the activity or action complements or adversely impacts on the Blackstone  
74 canal or the Blackstone river and canal heritage state park, and may make such recommendations  
75 as the commission may determine to be in the best interests of said canal or heritage state park.  
76 The commission may require that any preservation or improvement agreement reached between  
77 the applicant and the commission shall be recorded with the registry of deeds.

78 Failure to notify the commission in accordance with the provisions of this section shall  
79 cause such permit or approval to be deemed rescinded upon written notification from the  
80 commission to said appropriate permit-granting board, official, or agency. In the event that an  
81 applicant, having failed to show evidence that it notified the commission, shall have substantially  
82 completed work under said permit or approval, the commission may, after a public hearing,  
83 impose a fine in an amount not to exceed five percent of the total project costs, said fine to be  
84 paid to the treasurer of the Blackstone River Watershed Association, or its successor  
85 organization. For the purposes of this section, the term appropriate board or official shall
