An Act improving recycling in the Commonwealth.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1           SECTION 1. PURPOSE: An economically sound and environmentally progressive solid

6 effective solid waste management recovery systems in the Commonwealth including expanded  
7 access to and participation in comprehensive recycling programs at home, in public places, and  
8 in commercial settings; better recycling promotion and education efforts; incentives for  
9 households and businesses to recycle more of their solid waste; and development of  
10 comprehensive litter prevention and control programs.
