

HOUSE No. 3150

The Commonwealth of Massachusetts

PRESENTED BY:

Theodore C. Speliotis

To the Honorable Senate and House of Representatives of the Commonwealth of Massachusetts in General Court assembled:

The undersigned legislators and/or citizens respectfully petition for the adoption of the accompanying bill:

An Act to exempt the weight of idle reduction systems for commercial vehicles from maximum weight restrictions.

PETITION OF:

NAME:	DISTRICT/ADDRESS:	DATE ADDED:
<i>Theodore C. Speliotis</i>	<i>13th Essex</i>	<i>1/17/2013</i>

HOUSE No. 3150

By Mr. Speliotis of Danvers, a petition (accompanied by bill, House, No. 3150) of Theodore C. Speliotis for legislation to exempt the weight of idle reduction systems for commercial vehicles from maximum weight restrictions. Transportation.

[SIMILAR MATTER FILED IN PREVIOUS SESSION
SEE HOUSE, NO. 951 OF 2011-2012.]

The Commonwealth of Massachusetts

In the Year Two Thousand Thirteen

An Act to exempt the weight of idle reduction systems for commercial vehicles from maximum weight restrictions.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. Section 19A of Chapter 90 of the General Laws, as appearing in the 2010
2 Official Edition, is amended by inserting, in line 40, the following new paragraph:-

3 “Notwithstanding a provision of this section or any other section to the contrary, the
4 maximum gross vehicle weight limit, bridge formula limit and axle weight limit for any vehicle
5 or combination of vehicles equipped with an idle reduction system may be increased by a
6 quantity necessary to compensate for the additional weight of the idle reduction system as
7 provided for in 23 U.S.C. Section 127, as amended. In no case shall the additional weight
8 increase allowed by this subsection be greater than four hundred pounds. Upon request by an
9 appropriate law enforcement officer, the vehicle operator shall provide proof that the idle
10 reduction technology is fully functional at all times and that the gross weight increase is not used
11 for any purpose other than for the use of an idle reduction system. For purposes of this section,
12 an idle reduction system is any system that provides heating, cooling or electrical service to a
13 commercial vehicle cab for the purpose of reducing vehicle idling.”
