340 For projects in urbanized areas with a population of over 200,000 the metropolitan  
341 planning organization shall provide a letter of concurrence. In order to be eligible of financial  
342 assistance applications shall be approved by the review committee prior board certification.

343 Section 6. Loan and Lease Terms.

344 The secretary of administration and finance shall prepare and present to the board  
345 guidelines regarding the appropriate financial terms and conditions for qualified projects  
346 proposed to be financed under the program. The board shall determine the form and content of  
347 any borrower obligation, including the term and rate or rates of interest. Notwithstanding the  
348 foregoing, loans and leases financed through the application of federal monies pursuant to 23  
349 USC section 129, or Section 350 of the NHS Act:

350 (a) shall bear interest at or below market rates, as determined by the board, or otherwise  
351 as may be specified therein;

352 (b) shall have a repayment term of not longer than 30 years from the date of the first  
353 payment, as required by clause (c) of this section;

354 (c) shall be subject to repayment commencing not later than five years after the qualified  
355 project financed with the proceeds of such loan has been completed or, in the case of a highway  
356 project, the facility has opened to traffic;

357 (d) may be subordinated to any other debt incurred to finance the qualified project,  
358 except any other loans made by the commonwealth or any other public agency thereof; and

359 (e) shall be made only after all federal environmental requirements applicable to the  
360 qualified project have been complied with.

361 Notwithstanding any provision of this chapter to the contrary, the board may waive any  
362 of the requirements contained in this section if such waiver would not cause the loan or the  
363 program to violate the requirements of ISTEA or the NHS Act or any other applicable federal or  
364 commonwealth requirement.

365 Section 7. Establishment of Fund; Accounts.

366           There shall be established and set up on the books of the commonwealth a separate fund,  
367 to be known as the Transportation Infrastructure Revolving Fund, and within such fund a  
368 highway account, a state contribution account, a transit account and a rail account. Additional  
369 accounts or sub-accounts may be established by the state treasurer at the direction of the board.  
370 Amounts required under Section 1620 of SAFETEA-LU or any other federal law or program to  
371 be deposited in the highway account shall be so deposited and shall not be commingled with any  
372 other amounts on deposit in the fund. Amounts required under Section 1620 of SAFETEA-LU  
373 or any other federal law program to be deposited in the transit account shall be so deposited and  
374 shall not be commingled with any other amounts on deposit in the fund. Amounts required  
375 under Section 1620 of SAFETEA-LU or any other federal law program to be deposited in the rail  
376 account shall be so deposited and not be commingled with any other amounts on deposit in the  
377 fund. Any amounts required under any law of the commonwealth to be deposited in the state  
378 contribution account shall be so deposited and shall not be commingled with any other amounts  
379 on deposit in the fund. Any monies held in the fund shall be used solely as provided in this  
380 chapter, subject to applicable federal requirements. The state treasurer shall be treasurer-  
381 custodian of the fund and shall have the custody of its monies and securities.

382           Section 8. Issuance of Bonds.

383           (a) At the request of the board, the state treasurer shall issue bonds on behalf of the trust  
384 to finance or refinance any cost of a qualified project or provide other financial assistance, the  
385 proceeds of which bonds are to be deposited in the fund. Bonds may be issued in such manner  
386 and on such terms and conditions as the board, after consultation with the state treasurer may  
387 determine in accordance with the provisions of this section and, to the extent not inconsistent  
388 with the provisions hereof, the provisions of any other general or special law, including without  
389 limitation, the provisions of chapter 29, applicable to bonds or notes of the commonwealth,  
390 subject to any applicable federal requirements.

391           (b) Bonds may be secured by a trust agreement entered into by the trust and the state  
392 treasurer, which trust agreement may pledge or assign, in whole or in part, any loan agreements  
393 or borrower obligations, and all or any part of monies credited to the fund, subject to applicable  
394 federal requirements, and any funds or accounts established under a trust agreement and any  
395 contract or other rights to receive the same, whether then existing or coming into existence and  
396 whether then held or thereafter acquired, and the proceeds thereof.

397           (c) At the request of the board, the state treasurer shall also issue refunding bonds on  
398 behalf of the trust for the purpose of paying any bonds issued pursuant to this section at or prior  
399 to maturity. Refunding bonds may be issued at any time or prior to the maturity or redemption  
400 or purchase of the refunded bonds. The issuance of any such refunding bonds shall not be  
401 subject to the provisions of section 53A of chapter 29. Refunding bonds may be issued in  
402 sufficient amounts to pay or provide for payment of the principal of the bonds being refunded,  
403 together with any redemption premium thereon, any interest or discount accrued or to accrue to

404 the date of payment, costs of issuance and other expenses and reserves reasonably necessary to  
405 achieve the refunding.

406 (d) The state treasurer is further authorized, with the concurrence of the board, to enter  
407 into additional security, insurance or other forms of credit enhancement which may be secured  
408 on a parity basis with the bonds or on a subordinate basis. A pledge in any such trust agreement  
409 or credit enhancement agreement shall be valid and binding from the time such pledge shall be  
410 made without any physical delivery or further act, and the lien of such pledge shall be valid and  
411 binding as against all parties having claims of any kind in tort, contract or otherwise, irrespective  
412 of whether such parties have notice thereof. Any such pledge shall be perfected by filing of the  
413 trust agreement or credit enhancement agreement in the records of the state treasurer and no  
414 filing need be made under any other provision of law. Any such trust agreement or credit  
415 enhancement agreement may establish provisions defining defaults and establishing remedies  
416 and other matters relating to the rights and security of the holders of the bonds or other secured  
417 parties, including without limitation, provisions relating to the establishment of reserves, the  
418 issuance of additional or refunding bonds, whether or not secured on a parity basis, the  
419 application of receipts, monies or funds pledged pursuant to such agreement, hereinafter referred  
420 to as "pledged funds", and other matters deemed necessary or desirable by the board or state  
421 treasurer for the security of such bonds, and may also regulate the custody, investment and  
422 application of monies.

423 (e) Any bonds issued under this section shall be special obligations of the  
424 commonwealth payable solely from revenues credited to the fund. Notwithstanding the  
425 provisions of any general or special law to the contrary, such bonds shall not be general  
426 obligations of the commonwealth.

427 (f) Any such bonds shall be deemed to be investment securities under applicable laws,  
428 shall be securities in which any public officer, fiduciary, insurance company, financial institution  
429 or investment company may properly invest funds and shall be securities which may be  
430 deposited with any public custodian for any purpose for which the deposit of bonds is authorized  
431 by law. Any such bonds, their transfer and the income therefrom, including profit on the sale  
432 thereof, shall at all times be exempt from taxation by and within the commonwealth.

433 (g) In order to increase the marketability of any bonds issued pursuant to this section,  
434 and in consideration of the acceptance of payment of any such bonds, the commonwealth  
435 covenants with the purchasers and all subsequent holders and transferees of any such bonds that  
436 while any such bond shall remain outstanding, and so long as the principal of or interest on any  
437 such bond shall remain unpaid, (i) revenues allocable to the fund shall not be diverted from the  
438 purposes identified herein, and (ii) no pledged funds shall be diverted from the fund, except as  
439 expressly permitted or authorized by the terms of any trust agreement relating to the bonds.

440 Section 9. Monies Appropriated by the Commonwealth to be Paid to Fund by State  
441 Treasurer; Agreements Establishing Payment Procedures.

442 Upon request of the board, the state treasurer shall deposit in the fund any monies  
443 appropriated by the commonwealth for the program or the fund or any account therein, including  
444 any commonwealth funds required to be deposited in the fund pursuant to 23 USC section 101,  
445 et seq., 49 USC section 5301, et seq., ISTEPA, the NHS Act, any successor acts or  
446 reauthorizations of those acts, or any other federal law or program. The state treasurer and the  
447 trust may enter into agreements establishing procedures for payment of amounts appropriated by  
448 the commonwealth for the program or the fund. An agreement may include such covenants and  
449 undertakings of the commonwealth, the trust, the secretary of administration and finance and the  
450 secretary of transportation as the parties thereto may deem necessary or desirable, subject to  
451 applicable federal requirements, including without limitation, provision for payments by the  
452 commonwealth with respect to federal grants or other monies or the execution and delivery of  
453 loan agreements by the trust. Notwithstanding any law to the contrary, unless otherwise  
454 specified therein, any act duly enacted by a vote, taken by the yeas and nays of two-thirds of  
455 each house of the general court present and voting thereon, and approved by the governor,  
456 authorizing the state treasurer to issue bonds or notes of the commonwealth or otherwise  
457 authorizing the commonwealth to borrow money for the purposes of providing monies to meet  
458 any appropriation for purposes of the program or the fund shall be deemed to authorize the state  
459 treasurer, with the approval of the governor, to enter into an agreement with the trust pledging  
460 the full faith and credit of the commonwealth to a schedule of payments to the fund of the  
461 amounts therein appropriated, including, without limitation, the amount, time and manner of  
462 such payments. The agreements of the commonwealth and the rights of the trust thereunder may  
463 be assigned and pledged as security for bonds issued pursuant to section 8. Notwithstanding any  
464 general or special law to the contrary, in the discretion of the state treasurer, with the approval of  
465 the governor, payments to the trust of amounts authorized pursuant to the issuance of bonds by  
466 the commonwealth, as provided in this section, may be met by the deposit in the fund of bonds of  
467 the commonwealth which are so authorized to meet such appropriation. Bonds so deposited may  
468 be assigned and pledged as security for bonds issued pursuant to section 8 and may mature or be  
469 redeemable on such dates and in such amounts, may bear interest at such rate or rates or be  
470 deposited in the fund at such discount or premium, may bear such limitations on negotiation or  
471 resale by the trust, and may bear such other terms and conditions as the state treasurer shall  
472 determine to be in the best interests of the commonwealth; provided, however, that the effective  
473 yield on such bonds shall not exceed the greater of the effective yield on the bonds secured  
474 thereby and the effective yield on comparable bonds not so deposited in the fund, as determined  
475 by the state treasurer after consultation with the secretary of administration and finance. For  
476 purposes of section 49 of chapter 29, the net proceeds of bonds deposited in the fund as  
477 instruments the principal amount of which increases during the life of such instrument shall be  
478 deemed to be the present value of the amount payable thereon at maturity discounted to the date  
479 of deposit at the yield on such bonds.

480 Section 10. Loans to Qualified Borrowers to Finance Qualified Projects.

481 (a) Any qualified borrower may apply to the trust for a loan to assist in financing the cost  
482 of a qualified project. At the option of the trust, and subject to applicable federal requirements,  
483 loans may be made as secured loans or as unsecured general obligations of a qualified borrower.  
484 Each loan shall be made pursuant to a loan agreement between the trust and the qualified  
485 borrower acting by and through the officer or officers, board, committee or other body  
486 authorized by law, or otherwise its chief executive officer.

487 (b) A qualified borrower may receive, apply, pledge, assign and grant security interests  
488 in project revenues, and, in the case of a governmental unit, its general revenues to secure its  
489 obligations under loan agreements and borrower obligations as provided in this chapter and may  
490 fix, revise, charge and collect fees, rates, rents, assessments and other charges of general or  
491 special application for the operation or services of any qualified project, the system of which it is  
492 a part and any other revenue producing facilities from which the qualified borrower derives  
493 project revenues to meet its obligations under any loan agreement or borrower obligation, or  
494 otherwise to provide for the construction, maintenance and operation of a qualified project.

495 (c) For entering into a loan and establishing the authorized terms and conditions thereof  
496 and for issuing any governmental obligations, a governmental unit shall be deemed to have the  
497 powers expressly granted to governmental units in this chapter and the powers granted to that  
498 governmental unit in any bond act applicable to it specifically or as a member of a class of  
499 governmental instrumentalities. Liberal construction shall be given in support of the broadest  
500 interpretation of government unit powers derived from either this chapter or any bond act,  
501 provided that nothing in this chapter shall be construed as affecting the manner of voting and  
502 other procedures relating to, or otherwise required by any bond act for, the authorization of  
503 indebtedness of any governmental unit by the governing body thereof or any limitations on  
504 indebtedness of governmental units.

505 (d) The secretary of administration and finance shall review and evaluate, on a  
506 semiannual basis, the compliance by qualified borrowers with the terms of the applicable loan  
507 agreements with the trust and shall report to the board the results of such review and evaluation.  
508 The secretary of administration and finance shall promptly recommend enforcement, collection  
509 or other actions to be taken with respect to any qualified borrower that is in default under a loan  
510 agreement, which actions shall thereafter be taken only with the approval of the board.

511 Section 11. Powers and Privileges of Governmental Units.

512 (a) In order to provide for the collection and enforcement of fees, rates, rents,  
513 assessments and other charges for the operation of any qualified project, the system of which it is  
514 a part and any other revenue producing facilities from which the governmental unit derives  
515 project revenues, in addition to any other authority provided by law or any applicable bond act,

516 governmental units are hereby granted all the powers and privileges granted to them by law with  
517 respect to any similar fee, rate, rent, assessment or other charge.

518 (b) Any governmental unit may enter into agreements with the trust regarding the  
519 operation of a pricing system for the services provided by any qualified project and any other  
520 revenue producing facilities from which the governmental unit derives project revenues. Such  
521 agreements may include, without limitation, provisions defining the costs of such services, the  
522 qualified project and such other facilities, and covenants or agreements and other charges for  
523 such costs and the maintenance of such pricing system at levels sufficient to pay or provide for  
524 all such costs and any payments due the trust under any loan agreement or governmental  
525 obligations.

526 (c) In addition to other remedies of the trust under any loan agreement, if any  
527 governmental unit shall fail to pay to the trust when due and after demand any principal, interest  
528 or other charges payable under a loan agreement, the board may certify to the state treasurer the  
529 amount owing to the trust by said governmental unit. The state treasurer shall promptly pay over  
530 to the trust for deposit in the fund without further appropriation any local aid distributions  
531 otherwise certified to the state treasurer as payable to the governmental unit. Payment by the  
532 state treasurer under this section shall continue to be made until any deficiency in the  
533 governmental unit's payment to the trust shall have been offset by the payments from the state  
534 treasurer. Any amount paid to the trust by the state treasurer under this section which is later  
535 determined, upon audit, to be in excess of the actual amount due the trust shall, upon demand of  
536 the governmental unit or city or town, be repaid from the fund to the state treasurer.

537 (d) The trust may also recover from a governmental unit in an action in superior court  
538 any amount due to the fund together with any other actual damages the trust or the fund shall  
539 have sustained from the failure or refusal of the governmental unit to make payments owing to  
540 the fund.

## 541 Section 12. Borrower Obligations.

542 (a) Subject to the provisions of section 5, governmental obligations issued by a  
543 governmental unit shall be dated, may bear interest at such rate or rates, including rates variable  
544 from time to time subject to such minimum or maximum rate, if any, as may be determined by  
545 such index or other method of determination provided in the applicable loan agreement, shall  
546 mature in such amount or amounts and at such time or times, not later than the maximum dates,  
547 if any, provided herein, and may be made redeemable, in whole or in part, before maturity at the  
548 option of the governmental unit or at the option of the trust at such price or prices and under such  
549 terms and conditions as may be fixed in the loan agreement prior to the issuance of the  
550 governmental obligations. The governmental obligations may be issued as serial bonds or term  
551 bonds or any combination thereof with such provisions, if any, for sinking funds for the payment  
552 of bonds as the governmental unit and the trust may agree. Governmental obligations may be in

553 such form, payable to the bearer thereof or the registered owner, be certificated or uncertificated,  
554 be in such denominations, payable at such place or places, within or without the commonwealth,  
555 and otherwise bear such terms and conditions, not inconsistent with this chapter and the  
556 applicable bond act, as provided in the applicable loan agreement or as the trust and the  
557 governmental unit shall otherwise agree. Governmental obligations may be issued in principal  
558 amount equal to the loan evidenced thereby or at such discount as the board and the  
559 governmental unit shall agree. Subject to the provisions of section 5, borrower obligations other  
560 than governmental obligations shall be dated, may bear interest at such rate or rates, including  
561 rates variable from time to time subject to such minimum or maximum rate, if any, as may be  
562 determined by such index or other method of determination provided in the applicable loan  
563 agreement, shall mature in such amount or amounts and at such time or times, not later than the  
564 maximum dates, if any, provided herein, and may be made prepayable, in whole or in part,  
565 before maturity at the option of the qualified borrower or at the option of the trust at such price  
566 or prices and under such terms and conditions as may be fixed in the loan agreement prior to the  
567 issue of the borrower obligations.

568 (b) Subject to the provisions of sections 5 and 6, borrower obligations shall be payable  
569 within a period not exceeding the greater of the period, if any, specified in any applicable bond  
570 act or the useful life of the qualified project financed by such obligations, as determined by the  
571 trust, or, if incurred to finance more than one project, the average useful life of such projects.  
572 Except as otherwise provided in this chapter, borrower obligations shall be payable by such  
573 installments of principal, annual or otherwise, as will extinguish the same at maturity, such  
574 installments to be in such amounts and payable on such dates as the trust and the qualified  
575 borrower shall agree.

576 (c) Notwithstanding the provisions of section 17 of chapter 44 to the contrary, if a  
577 governmental unit has authorized a loan in accordance with this chapter and the issuance of  
578 governmental obligations under any bond act, the governmental unit may, subject to the loan  
579 agreement and with the approval of the trust, issue notes to the trust or any other person in  
580 anticipation of the receipt of the proceeds of the loan. The issuance of such notes shall be  
581 governed by the provisions of this chapter relating to the issuance of governmental obligations  
582 other than such notes, to the extent applicable, provided the maturity date of such notes shall not  
583 exceed three years from the date of issue of such notes or the expected date of completion of the  
584 project financed thereby, as determined by the trust, if later. Notes issued for less than the  
585 maximum maturity date may be renewed by the issuance of other notes maturing no later than  
586 the maximum maturity date.

587 (d) A governmental unit may issue governmental obligations to refund or pay at maturity  
588 or earlier redemption any governmental obligations outstanding under any loan agreement or to  
589 refund or pay any other debt of the governmental unit issued to finance the qualified project to  
590 which such loan agreement pertains. Governmental obligations for refunding may be issued in  
591 sufficient amounts to pay or provide for the principal of the obligations refunded, any

592 redemption premium thereon, any interest accrued and to accrue to the date of payment of such  
593 obligations, the costs of issuance of such refunding obligations and any reserves required by the  
594 applicable loan agreement. An issuance of refunding governmental obligations, the amount and  
595 dates of maturity or maturities and other details thereof, the security therefore and the rights,  
596 duties and obligations of the governmental unit with respect thereto shall be governed by the  
597 provisions of this chapter relating to the issuance of governmental obligations other than  
598 refunding obligations as the same may be applicable.

599 (e) Except as otherwise provided in section 13, applicable law, or by agreement between  
600 the trust and a governmental unit, all governmental obligations shall be general obligations of the  
601 governmental unit issuing the same for which its full faith and credit are pledged and for the  
602 payment of which all taxable property in the governmental unit shall be subject to ad valorem  
603 taxation without limitation as to rate or amount except as otherwise provided by law.

604 Section 13. Borrower Obligations Issued as Limited Obligations Payable Solely from  
605 Project Revenues.

606 Notwithstanding any general or special law to the contrary, when authorized by a two-  
607 thirds vote as defined in section 1 of chapter 44 or by such other vote as is authorized by the  
608 applicable law or when authorized in accordance with the applicable provisions of any charter or  
609 bylaws of any qualified borrower other than a governmental unit, borrower obligations may be  
610 issued as limited obligations payable solely from project revenues pledged to their payment in  
611 accordance with section 14. Unless otherwise provided in the applicable loan agreement,  
612 borrower obligations issued in accordance with this section shall not be general obligations of the  
613 qualified borrower or a pledge of its full faith and credit and, in the case of a governmental unit,  
614 notwithstanding any general or special law to the contrary, the amount of principal and premium,  
615 if any, of and interest on such obligations shall not be included in the computation of any limit  
616 on the indebtedness of such governmental unit or on the total taxes assessable by such  
617 governmental unit in any year or on any assessment, levy or other charge made by such  
618 governmental unit on any other political subdivision or instrumentality of the commonwealth.  
619 Any borrower obligation issued in accordance with this section shall recite on its face that it is a  
620 limited obligation payable solely from project revenues pledged to its payment.

621 Section 14. Security Agreements Securing Borrower Obligations; Pledges of General  
622 Revenues or Project Revenues.

623 (a) Notwithstanding any general or special law to the contrary, when authorized by a two-  
624 thirds vote as defined in section 1 of chapter 44 or by such other vote as is authorized by  
625 applicable law, any governmental obligations may be secured by one or more security  
626 agreements between the governmental unit and a corporate trustee, which may be a trust  
627 company or bank having the powers of a trust company within or without the commonwealth, or  
628 directly between the trust and the governmental unit. A borrower obligation, other than a

629 governmental obligation, may be secured by one or more security agreements between the trust  
630 and the qualified borrower. Any security agreements entered into pursuant to this paragraph  
631 shall be in such form and shall be executed as provided in the applicable loan agreement or as  
632 otherwise agreed to between the trust and the qualified borrower.

633 (b) Any security agreement directly or indirectly securing governmental obligations,  
634 other than governmental obligations issued in accordance with section 13 may pledge or assign,  
635 and create security interests in all or any part of the general revenues of the governmental unit.  
636 Any security agreement securing borrower obligations issued in accordance with said section 13  
637 may pledge or assign, and create security interests in, all or any part of the project revenues of  
638 the qualified borrower, but, in the case of a governmental unit, shall not otherwise pledge or  
639 assign any other general revenues of the governmental unit unless otherwise authorized by the  
640 applicable law. Any security agreement may contain such provisions for protecting and  
641 enforcing the rights, security and remedies of the trust, or other holders of the borrower  
642 obligations, as may be determined by the trust and the qualified borrower, including, without  
643 limitation, (1) provisions defining defaults and providing for remedies, including the acceleration  
644 of maturities and, (a) in the case of borrower obligations issued under said section 13, the  
645 appointment of a receiver of the project financed thereby and the system of which it is a part, and  
646 (b) in case of governmental units, the use of a local aid intercept mechanism; and (2) covenants  
647 setting forth the duties of, and limitations on, the qualified borrower in relation to the custody,  
648 safeguarding, investment and application of monies, including general revenues and project  
649 revenues, the issue of additional and refunding borrower obligations and other bonds, notes or  
650 obligations on a parity basis or superior thereto, the establishment of reserves, the establishment  
651 of sinking funds for the payment of borrower obligations, and the use of surplus proceeds. A  
652 security agreement securing borrower obligations issued in accordance with said section 13 also  
653 may include covenants and provisions not in violation of law regarding the acquisition,  
654 construction, operation and carrying out of the qualified project financed by such obligations, the  
655 system of which it is a part and any other revenue-producing facilities from which the qualified  
656 borrower may pledge or assign any of its project revenues, as appropriate, as security for  
657 payments made thereon.

658 (c) Any pledge of general revenues or project revenues made by a qualified borrower  
659 shall be valid and binding and shall be deemed continuously perfected for the purpose of chapter  
660 106 and any other law from the time made. The general revenues, project revenues, monies,  
661 rights and proceeds so pledged and then held or thereafter acquired or received by the qualified  
662 borrower shall immediately be subject to the lien of such pledge without any physical delivery or  
663 segregation thereof or further act, and the lien of such pledge shall be valid and binding against  
664 all parties having claims of any kind in tort, contract or otherwise, regardless of whether such  
665 parties have notice thereof. Neither the security agreement nor any other agreement by which a  
666 pledge is created need be filed or recorded except in the records of the governmental unit and no  
667 filing need be made under the provisions of said chapter 106.

668 (d) In the case of a governmental unit, a pledge of general revenues or project revenues  
669 in according with this chapter shall constitute a sufficient appropriation thereof for the purposes  
670 of any provisions for appropriation for so long as such pledge shall be in effect and,  
671 notwithstanding any general or special law to the contrary, such revenues shall be applied as  
672 required by the pledge and the security agreement evidencing the same without further  
673 appropriation.

674 Section 15. Guarantees; Other Credit Enhancement.

675 (a) The trust may provide guarantees or other forms of credit enhancement to qualified  
676 borrowers on terms and conditions established by the board.

677 (b) The trust may charge and collect premiums or other fees for the guarantees or other  
678 credit enhancement provided pursuant to this chapter, including fees for services performed in  
679 connection with the approval and processing of the guarantees or other credit enhancement  
680 provided pursuant to this chapter.

681 Section 16. Termination of the Program; Remaining Assets and Liabilities.
