SECTION 23. Clause (d) of paragraph (4) of said section 3E of said chapter 23A, as so appearing, is hereby amended by striking out the second paragraph and inserting in place thereof the following paragraph:-

An EOA shall retain its designation for at least 5 years and not more than 20 years from the date it is so designated, as determined by the EACC, unless such designation is revoked prior to the expiration of the specified period; provided, however, that the EACC shall not specify a duration in excess of that requested in the municipal application. Only the EACC may revoke the designation of an EOA and only upon the following grounds: (a) upon the petition of the municipality which requested the designation which petition satisfies the authorization requirements for a municipal application and which petition shall be granted as a matter of course; or (b) if the EACC determines, based on its own investigation, that plans and commitments incorporated with the municipal application for such designation are materially at variance with the conduct of the municipality subsequent to the designation and such variance is found to frustrate the public purpose which such designation was intended to advance. Any such revocation of an EOA designation shall only be applied prospectively to deny certification to any projects located or to be located in such EOA and not certified prior to such revocation and shall not apply to, nor revoke any benefits due to or which may become due to, any certified project already in existence in the EOA including, but not limited to, any benefits included in any plans and commitments incorporated with the municipal application for such designation; provided, however, that in no event shall a certified project receive any benefits arising from its status as a certified project for a period of longer than that specified by the EACC in its certification designation, including any renewals thereof, or 20 years, whichever period is of shorter duration.

No designation of an area as an EOA shall be renewed or extended except pursuant to paragraphs (1) to (4), inclusive.

SECTION 24. Said section 3E of said chapter 23A, as so appearing, is hereby further amended by adding the following paragraph:-

(6) Upon application from a city or town, the EACC may from time to time designate any area of a city or town as an area presenting exceptional opportunities for increased economic development. In making such designation, the EACC shall consider whether there is a strong likelihood that any of the following will occur within the area in question within a specific and reasonably proximate period of time:

(i) a significant influx or growth in business activity;

(ii) the creation of a significant number of new jobs and not merely a replacement or relocation of current jobs within the commonwealth; or

(iii) a private project or investment that will contribute significantly to the resiliency of the local economy.
SECTION 25. Said chapter 23A is hereby further amended by striking out section 3F, as so appearing, and inserting in place thereof the following section:

Section 3F. (a)(1) The EACC may from time to time designate a project as a certified expansion project, a certified enhanced expansion project, a certified job creation project or a certified manufacturing retention project and take all actions necessary or appropriate thereto, upon:

(i) receipt of a project proposal therefor requesting such designation from the controlling business;

(ii) receipt of a municipal project endorsement which shall include the following findings based on the information submitted with the project proposal and such additional investigation as the municipality shall make:

(A) the project proposal complies with the definition of a project proposal set forth in section 3A;

(B) in the case of an expansion project proposal, the expansion project is consistent with and can reasonably be expected to benefit from the municipality’s plans relative to the project EOA, if applicable;

(C) together with all other projects previously certified and located in the same municipality, will not overburden the municipality’s supporting resources including, but not limited to, those set forth in clause (f) of paragraph (2) of section 3E;

(D) the project proposal includes a workable plan, with precise goals and objectives, by which the controlling business proposes to realize the increased employment objectives for the project and the business’ plan to employ aggressive affirmative action goals, objectives and identification and recruitment techniques and, in the case of an expansion project, the plan for increased employment from among residents of the expansion project ETA, if applicable;

(E) the project proposal contains documentation regarding an agreement, if any, between the controlling business and area banking institutions by which the controlling business agrees to establish accounts in those banks and those banks agree to commit a specified percentage of the funds deposited in the accounts for loans made to businesses located within the expansion project area pursuant to the small business capital access program established pursuant to section 57 of chapter 23A;

(F) the project as described in the proposal, together with the municipal resources committed to the project, will, if certified, have a reasonable chance of increasing or retaining employment opportunities as advanced in the proposal; and
(G) in the case of an expansion project, any municipality in which the
expansion project is located or shall be located has offered to enter into a tax increment financing
agreement meeting the requirements of subsection (f) or (g) or to provide a special tax
assessment meeting the requirements of said subsection (g);

(iii) receipt with the municipal project endorsement of a request by the
municipality for a designation of the project as a certified project for a specified number of years
which shall be not less than 5 years nor more than 20 years; and

(iv) the following findings are made by the EACC, based on the project proposal,
documents submitted therewith, the municipal project endorsement, and such additional
investigation as the EACC shall make and incorporate in its minutes, that:

(A) the project proposal complies with the definition of a project proposal
set forth in section 3A, with all other applicable statutory requirements and with such other
criteria that EACC may prescribe; and

(B) the project as described in the proposal, and as further described in the
written determination of the municipality made pursuant to clause (ii) will, if certified, have a
reasonable chance of increasing or retaining employment opportunities for residents of the ETA
or municipality, as applicable; and

(2) Notwithstanding sections 3 to 3H, inclusive, no certified expansion project shall be
required to be located within an ETA or an EOA; provided, however, that an expansion project
proposal shall be accompanied by a municipal project endorsement that meets the requirements
of clause (ii) of subsection (a).

(b) A certified project shall retain its certification for the period specified by the EACC in
its certification decision; provided, however, that such specified period shall be not less than 5
years from the date of certification nor more than: (i) 20 years from such date; or (ii) the number
of years requested by the municipality approving the project proposal, whichever is lesser, unless
such certification is revoked prior to the expiration of the specified period. The certification of a
project shall be revoked only by the EACC and only upon: (1) the petition of the municipality
that approved the project proposal, if applicable, if the petition satisfies the authorization
requirements for a municipal application or the petition of the director of economic development;
and (2) the independent investigation and determination of the EACC that representations made
by the controlling business in its project proposal are materially at variance with the conduct of
the controlling business subsequent to the certification and such variance is found to frustrate the
public purpose that such certification was intended to advance; provided, however, that for an
expansion project where the actual number of permanent full-time employees employed by the
controlling business at the project is less than 50 per cent of the number of such permanent full-
time employees projected in the project proposal, this shall be deemed a material variance for the
purpose of a revocation determination. Upon such a revocation, all tax credits available to the
controlling business as a result of project certification shall be revoked and forfeited for the year
in which revocation occurred and all subsequent years, and the commonwealth, and the
municipality, in the case of a certified expansion project, shall have causes of action against the
controlling business for the value of any economic benefit received by the controlling business
prior or subsequent to such revocation.

Revocation shall take effect on the first day of the tax year in which the material variance
occurred, as determined by the EACC.

The revocation of a project certification shall not revoke any benefits due to the project
that relate to years prior to the year in which the revocation determination has been made unless
the controlling business has not proceeded with the certified project or unless EACC determines
that the controlling business made a material misrepresentation in its project proposal, or failed
to act in good faith to create and maintain the jobs described in its project proposal. In any such
case, both the commonwealth and the municipality shall have causes of action against the
controlling business for the value of any economic benefits received subsequent to the date on
which the material misrepresentation was made. The commissioner of revenue may, consistent
with this paragraph, disallow or recapture any credits, exemptions or other tax benefits allowed
by the original certification under this section. The department of revenue shall issue regulations
to recapture the value of any credits, exemptions or other tax benefits allowed by the certification
under this section.

Annually, not later than the first Wednesday in December, the EACC shall file a report
detailing its findings of the review of all certified projects that it evaluated in the prior fiscal year
to the commissioner of revenue, to the senate and house chairs of the joint committee on revenue
and the senate and house chairs of the joint committee on economic development and emerging
technologies.

(c) The EACC shall evaluate and either grant or deny a project proposal within 90 days
after its project proposal date and failure to do so by the EACC shall result in approval of the
project for a term of 5 years. Approval of a project under this section shall not constitute an
approval by the EACC of any tax incentives provided for under chapters 62 and 63.

(d) The EACC may award to a certified project tax credits available under subsection (g)
of section 6 of chapter 62 and section 38N of chapter 63. The amount and duration of any such
credits awarded shall be based on the following factors:

(i) for expansion projects:

(A) the degree to which the project is expected to generate net new
economic activity within the commonwealth by generating substantial sales from outside of the
commonwealth, or otherwise;
(B) the degree to which the project is expected to increase employment opportunities for residents of the project ETA, if applicable, and of the commonwealth; and 

(C) the economic need of the project ETA as measured by the income and employment levels of the ETA, if applicable;

(ii) for enhanced expansion projects:

(A) the degree to which the project is expected to generate net economic activity within the commonwealth by generating substantial sales from outside of the commonwealth, or otherwise; and

(B) the degree to which the project is expected to increase employment opportunities for residents of the commonwealth;

(iii) for manufacturing retention projects:

(A) the degree to which the project is expected to generate economic activity within the commonwealth by generating substantial sales from outside of the commonwealth, or otherwise; and

(B) the degree to which the project is expected to retain or increase manufacturing employment opportunities for residents in the project gateway municipality and the commonwealth.

(iv) for job creation projects:

(A) the degree to which the project is expected to generate net economic activity within the commonwealth by generating substantial sales from outside of the commonwealth, or otherwise;

(B) the degree to which the project is expected to increase employment opportunities for residents of the commonwealth; and

(C) the degree to which the project qualifies for certification as an expansion project, an enhanced expansion project or a manufacturing retention project, with the expectation that the EACC will certify a proposed project as a job creation project only if the proposed project does not otherwise qualify for certification.

(e) The EACC may limit any incentive or credit available to a project pursuant to subsection (g) of section 6 of chapter 62 and section 38N of chapter 63 to a specific dollar amount or time duration or in any other manner deemed appropriate by EACC, including limits or restrictions on the right of the controlling business to carry unused credits forward to future tax years.
(f) If a municipal project endorsement includes an offer by a municipality to provide the certified project with tax increment financing, said binding written offer shall contain a tax increment financing agreement adopted in accordance with section 59 of chapter 40. The EACC may approve such tax increment financing plan pursuant to regulations adopted by the EACC. Any such approval shall include a finding, reflected in the EACC’s minutes, that the tax increment financing plan complies with said section 59 of chapter 40 and will further the public purpose of encouraging increased industrial and commercial activity in the commonwealth.

(g)(1) If a municipal project endorsement includes an offer by the municipality to provide the certified project with a special tax assessment, the municipal project endorsement shall include a binding written offer setting forth the following assessment schedule for each parcel of real property in and on which is located and which is otherwise a part of a certified project:

(i) in the first year, an assessment of 0 per cent of the actual assessed valuation of the parcel; provided, however, that such assessment shall be granted for the year designated in the binding written offer;

(ii) in the second year, an assessment of up to 25 per cent of the actual assessed valuation of the parcel;

(iii) in the third year, an assessment of up to 50 per cent of the actual assessed valuation of the parcel;

(iv) in the fourth year, an assessment of up to 75 per cent of the actual assessed valuation of the parcel; and

(v) in subsequent years, assessment of up to 100 per cent of the actual assessed valuation of the parcel.

(2) For the purposes of this subsection, the “municipality’s fiscal year” shall refer to a period of 365 days beginning, in the first instance, with the calendar year in which the assessed property is purchased or acquired by the controlling business or the calendar year in which the assessed property becomes part of a certified project, whichever last occurs; provided, however, that no such written offer from a municipality shall be considered to be binding as aforesaid until it is authorized.

(3) Notwithstanding any provision of this section to the contrary, a municipality may offer a special tax assessment to a controlling business without a certified project if: (i) the municipality makes a formal determination that the controlling business is making an investment that will contribute to economic revitalization of the municipality and will significantly increase employment opportunities for residents of the municipality; (ii) the municipality applies to the EACC for approval of the special tax assessment; and (iii) the EACC makes a formal finding, based on information presented by the municipality and incorporated into its minutes, that the
special tax assessment is reasonably necessary to enable the controlling business’s investment
and will further the public purpose of encouraging increased industrial and commercial activity
in the commonwealth.

SECTION 33. Said chapter 23G is hereby further amended by adding the following
section:-

Section 46. (a) There shall be established and set up on the books of the commonwealth
a Transformative Development Fund within the Massachusetts Development Finance Agency.
In carrying out its duties under this section, the agency may utilize the fund as provided in this
section to make equity investments and provide technical assistance to revitalize and support
residential, commercial, industrial and institutional development, or any combination thereof,
and to provide financial assistance to promote collaborative workspaces in gateway
municipalities. The fund shall be administered and managed by a fund director who shall be
appointed by the executive director of the agency. The agency may adopt guidelines necessary to
implement the program. The fund may coordinate with other agencies and instrumentalities of
the commonwealth to effectuate this section.

(b) The liabilities and obligations of the fund shall not extend beyond the monies which
are deposited in the fund and shall not constitute a debt or pledge of the faith and credit of the
commonwealth or any political subdivision of the commonwealth.

(c) Monies in or received for the fund may be deposited with and invested by any
institution designated by the treasurer of the agency at the sole discretion of the treasurer and
paid as the fund director shall direct. Any return on investment received by the fund as a result of
the deposits and the agency’s equity investments shall be deposited and held for the use and
benefit of the fund. The treasurer may make payments from the deposit accounts for use under
this section. The agency may be reimbursed annually from the fund for all reasonable and
necessary direct costs and expenses incurred with its administration, management and operation of the fund, including reasonable staff time, out-of-pocket expenses and administrative costs.

(d) The fund may apply for and accept subventions, grants, loans, advances and contributions from any source of money, property, labor or other things of value to be held, used and applied in furtherance of this section.

(e) The agency shall use the fund to make equity investments in property that the agency has determined has the potential to constitute transformative development in a gateway municipality. With respect to any property acquired by the fund, the agency may pledge its ownership interest, physical assets held by the ownership entity or any portion of the anticipated gross revenue resulting from the equity investments of the fund to secure loans related to development of the property. The agency may not cross-collateralize the fund’s investments in the property.

(f) The fund director shall allocate a portion of the original capitalization of the fund, not to exceed 20 per cent, to provide technical assistance to revitalize and support development in gateway municipalities by utilizing any of the following methods of providing technical assistance: (i) grants to support the hiring of professional staff or professional services by a gateway municipality or any instrumentality of the gateway municipality; (ii) reimbursement for professional staff employed by the agency and embedded in a gateway municipality; (iii) grants to pay for third-party professional services managed by the agency; and (iv) any other variation on the provision of technical assistance consistent with this section.

(g) At its discretion, the agency may allocate the fund’s technical assistance through a competitive process using criteria that include, without limitation, the existence of a long-term economic development strategy, commitment to effective use of the agency’s technical assistance by the municipality and other local partners and the potential for transformative development in the gateway municipality.

(h) The fund director shall allocate a portion of the original capitalization of the fund to support the development in gateway municipalities of collaborative workspaces to spur innovative and creative business growth and economic activity and assist with the redevelopment of underutilized buildings. The program shall: (i) promote the creation of collaborative workspaces by providing financial assistance for capital investments in underutilized buildings; (ii) foster collaboration and linkages among innovative and creative enterprises by providing central locations for such businesses or individuals to work in an environment designed to promote sharing of resources, experience and expertise; (iii) support partnerships among municipalities, property owners and businesses to establish collaborative workspaces; and (iv) require a collaborative workspace to provide shared space which promotes the interaction, socialization and coordination among tenants through the clustering of multiple businesses or individuals within the collaborative workspace. The agency shall, through grants, contracts or
loans, administer the program for the purpose of facilitating a collaborative and co-working space to address a regional market demand for affordable work environments that support communication, information sharing and networking opportunities.

(i) Loans or grants made under this program may be made to property owners or collaborative workspace operators for building improvements which shall be utilized by the collaborative workspace participants provided that the use of the fund results in corresponding private investment that matches or exceeds the grants from the fund. In the case of a grant, any participating property owner or collaborative workspace operator shall at least match the investment of the fund. In the case of a loan, the agency shall reasonably anticipate that its loan will leverage additional private investment in the property.

(j) The agency shall solicit applications for financial assistance that promote collaborative workspaces through a request for proposals. The agency shall establish criteria for the submission of applications; provided, however, that the applications shall include, but need not be limited to: (i) a description of the parties involved in the project, including the professional expertise and qualifications of the principals; (ii) a description of the scope of work that shall be undertaken by each party involved in the project; (iii) the proposed budget, including verification of funding from other sources; (iv) a statement of the project objective, including specific information on how the project shall promote the use of the space as collaborative and shared space; (v) a statement that sets forth the implementation plan, the facilities and resources available or needed for the project and the proposed commencement and termination dates of the project; (vi) a description of the expected significance of the project, including a description of the market demand for the type of workspace proposed in the region that the space shall be located and the number of businesses or individuals that shall be served as a result of the project; and (vii) any other information that the agency shall consider necessary. The agency shall also establish guidelines for the review and approval of applications that include preferences for proposals that: (A) redevelop at least 10,000 square feet in existing properties located in the downtown area of a gateway municipality; (ii) dedicate at least 25 per cent of accessible space to collaborative use; and (iii) support a cluster of at least 15 separate occupants.

(k) The agency shall enter into an agreement with each collaborative workspace operator that receives a grant or loan or enters into a contract under this section regarding: (i) performance measures and indicators that shall be used to evaluate the performance of the collaborative workspace operator in carrying out the activities described in the application; and (ii) any other indicators determined to be necessary to evaluate the performance of the eligible entity. Each collaborative workspace operator shall submit an annual report for the agency’s review for the duration of the collaborative workspace operation. The agency shall enter into an agreement with each property owner that receives a grant or loan or enters into a contract under this section regarding the use of funds and the time frame for the use of funds.
(l) The agency shall identify and maintain a list of redevelopment projects within gateway municipalities with the greatest potential to provide substantial local economic growth, job creation, neighborhood revitalization or abandoned and underutilized property reuse. In its investigation, the agency shall prioritize redevelopment projects that may commence promptly after identification. The agency shall outline the economic opportunities at the project sites, describe marketable site uses and describe the benefits of investing in the redevelopment project. The agency shall also describe current impediments facing each identified redevelopment project and outline particular policies and programs in place that provide technical assistance, financing options, permitting aid or any other incentives to pursue redevelopment options.

(m) The agency shall, in coordination with the executive office of housing and economic development, submit an annual report to the clerks of the senate and house of representatives who shall forward the report to the house and senate committees on ways and means, the joint committee on economic development and emerging technologies and the joint committee on labor and workforce development by December 31. The amount of the credit shall be 3 per cent of the cost or other basis for federal income tax purposes of qualifying property acquired, constructed, reconstructed or erected during the taxable year after deduction therefrom of any federally authorized tax credit taken with respect to the property. “Qualifying property” shall be tangible personal property and other tangible property, including buildings and structural components of buildings: (i) acquired by purchase as defined in 26 U.S.C. § 179(d), as amended and in effect for the taxable year; (ii) used solely in agriculture, farming or fishing; (iii) not taxable pursuant to chapter 60A; (iv) used by the taxpayer in the commonwealth; (v) situated in the commonwealth on the last day of the taxable year; and (vi) depreciable under 26 U.S.C. § 167 and with a useful life of at least 4 years.

(2) A taxpayer primarily engaged in agriculture or farming, as defined in said section 1A of said chapter 128, on land zoned pursuant to said section 3 of said chapter 40A or in commercial fishing, which shall include only those landing a minimum of 5,000 pounds of fish per year and possessing either a state or federal fishing permit shall be allowed a credit as provided in this paragraph against the tax liability imposed by this chapter. The amount of the credit shall be 3 per cent of the lessor’s adjusted basis in qualifying property for federal income tax purposes at the beginning of the lease term, multiplied by a fraction, the numerator of which shall be the number of days of the taxable year during which the lessee leases the qualifying property and the denominator of which shall be the number of days in the useful life of the property. “Useful life” shall be the same as that used by the lessor for depreciation purposes when computing federal income tax liability. “Operating lease” shall be any contract or agreement to lease or rent or for a license to use qualifying property. “Qualifying property” shall
be tangible personal property and other personal property, including buildings and structural components of buildings: (i) leased, and not a purchase as defined under 26 U.S.C. § 179(d), as amended and in effect for the taxable year; (ii) used solely in agriculture, farming or fishing; (iii) not taxable under chapter 60A; (iv) used by the lessee in the commonwealth; (v) situated in the commonwealth throughout the entire lease term; and (vi) depreciable by the lessor under 26 U.S.C. § 167 and with a useful life of at least 4 years. The credit shall not be available to a lessee if the lessor has previously received a credit with respect to the leased tangible personal property.

(3) The commissioner shall by regulation require documentation of the lessor and lessee to substantiate a credit claimed pursuant to paragraph (2).

(4) A taxpayer shall not receive a credit under paragraphs (1) or (2) with respect to tangible personal property and other tangible property, including buildings and structural components of buildings, which it leases as a lessor. For the purposes of this paragraph, a contract or agreement to lease or rent or for a license to use such property shall be considered a lease. This paragraph shall not apply to equine-based businesses where care and boarding of horses is a function of the agricultural activity.

(5) With respect to property that is disposed of or ceases to be in qualified use prior to the end of the taxable year in which the credit is to be taken, the amount of the credit shall be that portion of the credit provided for in paragraphs (1) or (2) which represents the ratio which the months of qualified use bear to the months of useful life. If property on which credit has been taken is disposed of or ceases to be in qualified use prior to the end of its useful life, the difference between the credit taken and the credit allowed for actual use must be added back as additional taxes due in the year of disposition; provided, however, that if the property is disposed of or ceases to be in qualified use after it has been in qualified use for more than 12 consecutive years, it shall not be necessary to add back the credit as provided in this subsection. The amount of credit allowed for actual use shall be determined by multiplying the original credit by the ratio which the months of qualified use bear to the months of useful life. For the purposes of this subsection, “useful life of property” shall be the same as that used by the individual for depreciation purposes.

(6) A taxpayer entitled to a credit for any taxable year in accordance with paragraphs (1) to (5), inclusive, may carry over and apply to its tax liability imposed by this chapter for any 1 or more of the next succeeding 3 taxable years the portion, as reduced from year to year, of its credit which exceeds its tax liability imposed by this chapter for the taxable year.

The notice shall contain, at a minimum: (A) a unique identification number; (B) a clear explanation that such notice provides only an initial certification, with final certification as an eligible theater production conditional upon further review; and (C) a clear explanation that the notice does not grant or convey any benefit, including, but not limited to, the tax credit authorized by this subsection.

(9)(i) Upon completion of an eligible theater production which has received an initial certification pursuant to paragraph (9), an applicant shall properly prepare, sign and submit to the office a final application for an eligible theater production certificate. The final application shall, at a minimum, contain a cost report and an accountant’s certification, which shall be a certification of the accuracy of all information included in the cost report, signed by an individual authorized to engage in the practice of public accountancy in the commonwealth. (ii) The commissioner shall review the office’s awarding of an eligible theater production certificate pursuant to clause (i). Upon approval of said certificate, the commissioner shall certify those production and performance expenditures for which the applicant may receive the tax credit pursuant to this subsection, and calculate the amount of said credit. either the initial certification process or final certification process are materially at variance with
the conduct of the applicant following certification pursuant to paragraph (8) or (9).

(ii) Revocation shall take effect on the first day of the taxable year in which the
office determines that a material variance commenced. The commissioner shall, as of the
effective date of the revocation, disallow any credit allowed pursuant to this subsection. The
amount of any credit improperly provided shall be added back as additional taxes due in the year
in which the credit was first allowed; provided, however, that in the event that the credit has been
transferred pursuant to paragraph (7), the additional taxes shall be assessed against the original
applicant for, and recipient of, the credit and shall not be assessed against any transferee.

SECTION 54. Chapter 63 of the General Laws is hereby amended by striking out section
38M, as so appearing, and inserting in place thereof the following section:-

Section 38M. (a)(1) A business corporation shall be allowed a credit against its excise
due under this chapter equal to the sum of 10 per cent of the excess, if any, of the qualified
research expenses for the taxable year over the base amount and 15 per cent of the basic research
payments determined under subsection (e)(1)(A) of section 41 of the federal Internal Revenue
Code.

(2) Other than as provided in paragraph (3), “qualified research expenses”, “basic
research payment”, “credit year” and any other term affecting the calculation of the credit shall,
unless the context otherwise requires, have the same meanings as under said section 41 of said
Code as amended and in effect on August 12, 1991; provided, however, that the terms shall only
apply to expenditures for research conducted in the commonwealth.
For the purposes of this subsection, the “base amount” shall be the product of: (i) the average annual gross receipts of the taxpayer for the 4 taxable years preceding the credit year; and (ii) a fixed-base ratio and the “fixed base ratio” shall be the percentage which the average aggregate qualified research expenses for the taxpayer for the third and fourth taxable years preceding the credit year is of the annual average gross receipts for those years; provided, however, that the fixed base ratio shall not exceed 16 per cent.

In determining the amount of the credit allowable under this section, the commissioner of revenue may aggregate the activities of all corporations that are members of a controlled group of corporations as defined by subsection (f)(1)(A) of said section 41 of said Code. The commissioner also may aggregate the activities of all entities, whether or not incorporated, that are under common control as defined by subsection (f)(1)(B) of said section 41 of said Code.

(b) A business corporation may choose to have the credit determined under this subsection rather than under subsection (a). At the election of the taxpayer for calendar years 2015, 2016 and 2017, the amount of the taxpayer's credit shall be equal to 5 per cent of the taxpayer's qualified research expenses for the taxable year that exceeds 50 per cent of the taxpayer's average qualified research expenses for the 3 taxable years preceding the taxable year for which the credit is being determined. At the election of the taxpayer for calendar years 2018, 2019 and 2020, the amount of the taxpayer’s credit shall be equal to 7 ½ per cent of the taxpayer’s average qualified research expenses for the 3 taxable years preceding the taxable year for which the credit is being determined. Beginning in calendar year 2021, the amount of the taxpayer’s credit shall be equal to 10 per cent. If the taxpayer did not have qualified research expenses in any 1 of the 3 taxable years preceding the taxable year for which the credit is being determined, the amount of the credit is equal to 5 per cent of the taxpayer's qualified research expense for the taxable year. Under this subsection, “qualified research expenses” and any other terms affecting the calculation of the credit shall, unless the context otherwise requires, have the same meanings as under said section 41 of said Code as amended and in effect on January 1, 2014; provided, however, that the terms shall only apply to expenditures for research conducted in the commonwealth.

(c) For the purposes of section 30, the deduction from gross income that may be taken with respect to any expenditures qualifying for a credit under said section 41 of said Code as amended and in effect on August 12, 1991 shall be based upon its cost less the credit allowable under this section; provided, however, that subsection (c) of section 280C of said Code shall not apply.

(d) The credit allowed under this section for any taxable year shall not reduce the excise to less than the amount due under subsection (b) of section 39, section 67 and under any act in addition thereto.
(e) The credit allowed under this section shall be limited to 100% per cent of a corporation’s first $25,000 of excise, as determined before the allowance of any credits, plus 75 per cent of the corporation’s excise, as so determined in excess of $25,000. The commissioner shall promulgate regulations similar to those authorized under subsection (c)(2)(B) of section 38 of said Code for the purposes of apportioning the $25,000 amount among members of a controlled group. Nothing in this section shall alter section 32C as it affects other credits under this chapter.

(f) For a corporation filing a combined return of income under section 32B, a credit generated by an individual member corporation under this section shall first be applied against the excise attributable to the corporation under section 39 subject to the limitations of subsections (d) and (e). An member corporation with an excess research and development credit may apply its excess credit against the excise of another group member to the extent that the other member corporation may use additional credits under the limitations of said subsections (d) and (e). Unused and unexpired credits generated by a member corporation shall be carried over from year to year by the individual corporation that generated the credit. Nothing in this section shall alter paragraph (h) of section 31A.

(g) Any corporation entitled to a credit under this section for any taxable year may carry over and apply to its excise for any 1 or more of the next succeeding 15 taxable years the portion, as reduced from year to year, of its credit which exceeds its excise for the taxable year. Any corporation may carry over and apply to its excise for any subsequent taxable year the portion of those credits, as reduced from year to year, which were not allowed by subsection (e).

(h) The commissioner shall promulgate regulations as necessary to implement this section.

(i) This section shall apply to expenditures incurred on or after January 1, 1991; provided, however, that, in the case of any taxable year which begins before January 1, 1991 and ends before December 31, 1991, the base amount and the qualified organization base period amount with respect to the taxable year shall be the amount that bears the same ratio to the base amount and the qualified organization base period amount for the year, determined without regard to this paragraph, as the number of days in the taxable year on or after January 1, 1991 bears to the total number of days in that taxable year.

(j)(1) The credit allowed by this section, at the election of the taxpayer in accordance with regulations promulgated by the commissioner, may be applied separately with respect to the: (i) qualified research expenses and gross receipts of the taxpayer attributable to defense-related activities; and (ii) qualified research expenses and gross receipts of the taxpayer attributable to other activities.

(2) For the purposes of this subsection, “defense-related activities” shall mean any activity carried out in the commonwealth that relates to the business of researching, developing
and producing for sale, pursuant to a contract or subcontract thereof: (i) any arm, ammunition or

credit may, at the option of the taxpayer and to the extent authorized pursuant to the life sciences
tax incentive program established in subsection (d) of section 5 of chapter 23I, be refundable to
the taxpayer for the taxable year. If the credit balance is refunded to the taxpayer, the credit

for which an initial theater production certification is being sought, the qualified production
facility in which the production will be presented and any plans to present the production in New

application and determine whether the production: (i) will be presented in a qualified production
facility; (ii) is a pre-Broadway, pre-Off Broadway or Broadway tour launch production; and (iii)
meets any other criteria the office may reasonably require for an initial theater production
certification.

section.

(i) (1) Upon completion of an eligible theater production which has received an

application shall, at a minimum, contain a cost report and an accountant’s certification, which
shall be a certification of the accuracy of all information included in the cost report, signed by an

(2) The commissioner shall review the office’s awarding of an eligible production
certificate pursuant to paragraph (1). Upon approval of said certificate, the commissioner shall

shall then issue to the applicant: (i) an eligible theater production certificate, and (ii) a certificate
stating the amount of the tax credit allowed pursuant to this section, each of which shall
reference the unique identification number issued pursuant to subsection (i). The commissioner
may rely, without independent investigation, upon the accountant’s certification for the purposes

amount of said credit.

independent investigation and determination that representations made by an applicant in either
the initial certification process or final certification process are materially at variance with the
conduct of the applicant following certification pursuant to subsection (h) or (i).

(2) Revocation shall take effect on the first day of the taxable year in which the office
determines that a material variance commenced. The commissioner shall, as of the effective date
of the revocation, disallow any credit allowed pursuant to this subsection. The amount of any
credit improperly provided shall be added back as additional taxes due in the year in which the
credit was first allowed; provided, however, that in the event that the credit has been transferred
pursuant to subsection (g), the additional taxes shall be assessed against the original applicant
for, and recipient of, the credit and shall not be assessed against any transferee.

regulations in accordance with, and necessary for the administration of, this subsection, which
shall include regulations to recapture the value of any tax credit allowed.

If the whole or a portion of the land submitted under this chapter is registered land under said chapter 185, the recording of a master deed shall be a sufficient ground for withdrawal of the registered land from said chapter 185.

SECTION 82. Chapter 185 of the General Laws is hereby amended by striking out section 52, as so appearing, and inserting in place thereof the following section:-

Section 52. The obtaining of a judgment of registration and the entry of a certificate of title shall be regarded as an agreement running with the land and binding upon the plaintiff and the plaintiff’s successors in title that the land shall be and forever remain registered land and subject to this chapter unless withdrawn under this section or section 16 of chapter 183A and except as provided in section 26.

If all of a parcel of land, the title to which is registered under this chapter, is acquired by the commonwealth, any agency, department, board, commission or authority of the commonwealth, any political subdivision of the commonwealth or any authority of any political subdivision of the commonwealth, the acquisition shall be a sufficient ground for withdrawal of the registered land from this chapter. The land shall be withdrawn upon the filing of a complaint with the court by the public entity that has acquired the registered land and the approval of the complaint by the court.

All of the owners of the fee simple estate in all of a parcel of land, the title to which has been registered under this chapter, may voluntarily withdraw the registered land from this chapter by filing a notice of voluntary withdrawal endorsed by a justice of the land court as provided in this section in the registry district of the land court where the land lies. The notice of voluntary withdrawal shall be noted on the memorandum of encumbrances for the certificate of title. Upon the filing of the notice, the land shall be withdrawn from this chapter and shall become unregistered land. The court shall appoint 1 of the examiners of title, who shall report to the court the identity of the current record owners and all mortgagees and lessees with interests of record in the land. Unless, after notice is given to the mortgagees and lessees of record, an outstanding objection has been filed by a mortgagee or lessee of record, a justice of the land court shall approve the application and shall endorse the plaintiff’s notice of voluntary withdrawal if: (i) the registered land constitutes less than all of the total area of a single parcel or of 2 or more contiguous parcels in common ownership; (ii) the registered land consists of less than 10 per cent of the portion of the land area to which an original certificate of title pertains and the rest of the land area to which that certificate pertains was conveyed under this chapter since the original registration; (iii) the owners of the registered land have submitted the land or satisfy the court that the owners shall submit the land to chapter 183A or 183B or shall create interests in the land to which said chapter 183B is applicable under section 3 of chapter 760 of the acts of 1987 or satisfy the court that the owners shall create those interests; (iv) the owners of the registered land establish that the registered land is improved with an occupied building not used or occupied as or in connection with, and not designed or intended for use or occupancy as or in connection with, a 1-to-4 family residential dwelling; or (v) the court finds that the owners of the registered land have demonstrated other good cause for withdrawal under this section including, but not limited to, economic hardship by reason of the land being registered which may include the burdens and expenses of further dividing the registered land into lots for separate conveyance. Notwithstanding any outstanding objection, the application may be approved unless the court determines there is good cause for the objection.

The justices of the land court shall establish rules and practices, including an appropriate filing fee for the application, as are necessary to implement this section.
