HOUSE No. 805

By Mr. Smizik of Brookline, a petition (accompanied by bill, House, No. 805) of Frank I. Smizik and others for legislation to establish a sustainable water resource fund to mitigate water shortages. Environment, Natural Resources and Agriculture.

The Commonwealth of Massachusetts

In the Year Two Thousand Thirteen

An Act to mitigate water resource impacts.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 Chapter 40 of the General Laws, as appearing in the 2010 Official Edition, is hereby
2 amended by inserting after section 39L the following section:-

3 Section 39M. Establishment of Sustainable Water Resource Fund.

4 Notwithstanding any general or special law to the contrary, a city, town, board of water
5 or sewer commissioners, officers performing like duties, or water or sewer district may collect a
6 reasonable fee to be used exclusively to offset and remedy impacts of water withdrawals,
7 sewerage, stormwater runoff, or impairment of recharge of groundwater on the natural
8 environment through depletion of ground or surface waters, and to sustain the quantity, quality
9 and ecological integrity of waters of the commonwealth. Such measures for water return, water
10 loss prevention, or to comply with federal, state, or local stormwater requirements, shall include
11 without limitation, local recharge of stormwater and wastewater, reuse of water, removal of
12 infiltration and inflow, water savings achieved by retrofitting existing development with low
13 impact development methods or water-saving devices, dam removal and land acquisition only
14 for 1) wellhead protection of a public water supply or 2) for siting a decentralized wastewater
15 treatment facility.

16 The fee, which may be based on retaining within the basin or saving at least one gallon,
17 but no more than ten gallons, for every gallon of increased water or sewer demand, or net
18 impairment of recharge shall be assessed in a fair and equitable manner, and separate uniform
19 fees may be established for residential and commercial uses.

20 All such fees shall be deposited in a separate account classified as a "Sustainable Water
21 Resource Fund." This Fund shall not be used for any purpose not provided in this section. The
22 Fund may also receive monies from public and private sources as gifts, grants, and donations to
23 further water conservation, water return or water loss prevention; from the federal government as
24 reimbursements, grants-in-aid or other receipts on account of water infrastructure improvements;
25 or fines, penalties or supplemental environmental projects. Any interest earned from whatever
26 source shall be credited to and become part of said Fund.
