In the Year Two Thousand Thirteen

An Act to reduce paperwork within the department of elementary and secondary education.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. Chapter 15 of the General Laws, as appearing in the 2010 Official Edition,
2 is hereby amended by inserting after section 66, the following new section:-

3 SECTION 67. Section 1. The commissioner of Department of Elementary and Secondary
4 Education shall increase the efficiency of government through:

5 (1) Reducing the use of paper through maximizing the available uses of information
6 technology, including alternative information technologies to substitute for paper and increasing
7 the use of electronic methods for the maintenance, submission, or disclosure of information, to
8 improve data quality, agency efficiency and responsiveness to the public;

9 (2) Eliminating costly and wasteful government publications through the expanded use of
10 electronic methods for distribution of documentation throughout state government, where
11 feasible and appropriate;

12 (3) eliminating duplicative permitting and paperwork requirements through implementing
13 inter-agency file sharing technologies in order that electronically stored data can be viewed and
14 routed, where appropriate, by multiple agencies.

15 Section 2. The commissioner shall investigate any current statutory impediments for the
16 reduction of the use of paper by state government and any impediments both statutory and
17 technological, for more efficient electronic data storage and dissemination. The commissioner
18 shall submit his findings, along with any legislative recommendations to address those findings,

19 to the house and senate clerks, and the joint committee on education no later than August 31,
20 2013.

21 Section 3. The department of education shall , no later than July 1, 2014 and

23 required of public education administrators to assess whether requirements for filing paperwork
24 are still necessary and shall develop a single master reporting form to prevent duplicate
25 information from being reported more than once yearly per school district. Commencing July 1,
26 2014, notwithstanding any special or general law to the contrary, no public school district shall
27 be required to report the same information more than once yearly to any agency or department of
28 the commonwealth except to provide the master reporting form as requested.
