98 inspection that complies with the requirements of 310 C.M.R. 15.302 and 15.303 has occurred

99 within the previous five years, or the previous seven years if the system has been pumped out by
100 a septage hauler at least once every three years since the prior certification, no license or license

114 15.304 within the previous five years; and provided, however, that if no such inspection that
115 complies with the requirements of 310 C.M.R. 15.302, 15.303, and 15.304 has occurred within
116 the previous five years, no application or renewal shall be issued unless and until such inspection
117 is conducted and said certification of compliance with the requirements of 310 C.M.R. 15.302,

146 premises has been inspected within the previous two years and is in compliance with all
147 applicable federal, state and local statutes, regulations and bylaws. For the purposes of this
148 paragraph, an inspection need not include an evaluation of infiltration and inflow, unless there is
149 observable sanitary sewer overflow or other reasonable evidence that infiltration or inflow
150 exists..

151 (c) If a manufactured housing community is unable to provide certification to a board of

153 or otherwise non-functional water, sewage disposal, or sewer infrastructure and facilities, the
154 board of health may, at its discretion, issue a conditional license for a term of up to one year if it
155 reasonably determines that (i) the lack of compliance with said paragraphs presents no
156 immediate threat to the health, safety, or welfare of the manufactured housing community
157 residents, and (ii) the applicant has taken or plans to take substantial steps to make repairs and
158 improvements to bring the system or systems into compliance to meet the certification

163 extend the conditional license for a term of up to one additional year, provided that a board of
164 health may not issue a conditional license for a total of more than two years. The board of health

165 may rescind any conditional license if it determines that the operator of the community has not
166 complied in full with the terms of its work and financing plans. Nothing in this subsection shall
167 be construed as requiring a board of health to issue a conditional license.

168

170 council action, and in a town with no town meeting by town council action, by adoption of
171 appropriate by-laws and ordinances to set such fees, the fee for each original or renewal
172 license for a manufactured housing community shall be ten dollars for each lot in the community,
173 whether occupied or vacant, of which eighty percent shall be deposited into the Manufactured
174 Housing Fund established in section 2CCCC of chapter twenty-nine, and twenty percent of the
175 licensing fees shall be deposited into the general fund of the municipality pursuant to section
176 fifty three of chapter forty four. Such board of health shall at once notify the department of
177 environmental protection of the granting or renewal of such a license for a manufactured housing
178 community, and said department shall have jurisdiction to inspect the premises so licensed to
179 determine that the sources of public water supply and the works for the disposition of the sewage
180 of such premises are sanitary and in compliance with all applicable state statutes and department
181 regulations. If upon inspection of any manufactured housing community the department finds
182 the sources of public water supply to be polluted or otherwise not in compliance with all
183 applicable state statutes and regulations, or finds the works for the disposition of the sewage to
184 be unsanitary or otherwise not in compliance with all applicable state statutes and regulations, or
185 finds both systems are not in compliance with said statutes and regulations, said department shall
186 forthwith notify such board of health and such licensee to that effect by registered mail and said

187 board of health shall forthwith prohibit the use of any public water supply found by said
188 department to be polluted. Unless such licensee shall, within thirty days following the giving of
189 such notice, correct the conditions at such premises to the satisfaction of both said department
190 and such board of health, the license so granted shall be suspended or revoked by such board of
191 health. Any license so suspended or revoked may be reinstated by such board of health when the
192 conditions at such premises, as to sources of public water supply and works for the disposition of
193 sewage, are satisfactory to said department and such board of health. The board of health of a
194 city or town may adopt, and from time to time alter or amend, rules and regulations to enforce
195 this section in such city or town.

196 (e) No licensing or inspection fees incurred under this section shall be passed on, directly
197 or indirectly, through a rent increase or otherwise, to any tenant, resident or occupant of the
198 community. Any improvements or repairs that address substandard, degraded, or otherwise
199 non-functional water or sewer infrastructure and facilities discovered or observed during
200 inspections conducted pursuant to paragraphs (iv) through (viii) of subsection (b) shall not be
201 construed as licensing or inspection fees, and may be passed onto residents as capital

203 said costs are otherwise met.
