SEE HOUSE, NO. 1905 OF 2013-2014.]

## The Commonwealth of Massachusetts

\_\_\_\_\_  
In the One Hundred and Eighty-Ninth General Court  
(2015-2016)  
\_\_\_\_\_

An Act relative to emergency epinephrine pens in schools.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1           Chapter 71 of the General Laws, as appearing in the 2012 Official Edition, is hereby  
2 amended by adding the following section after Section 54B.

3           Section 54C. The Use of Emergency Epinephrine in Schools.

4           (a) Any person who is a school nurse or an employee of an accredited school, authorized  
5 by a prescriber and trained in the administration of epinephrine, who provides, administers, or  
6 assists in the administration of epinephrine to a student believed in good faith to be having an  
7 anaphylactic reaction, or is the prescriber of the epinephrine, shall not be liable for any civil  
8 damages for ordinary negligence in acts or omissions resulting from the rendering of such  
9 treatment.

(b) By the beginning of the 2015-2016 school year, local school boards and nonpublic accredited schools may adopt and implement policies for the possession and administration of epinephrine in every school, to be administered by a school nurse or an employee of the school board who is authorized and trained in the administration of epinephrine to any student believed to be having an anaphylactic reaction.

(c) The school district or nonpublic school may maintain at a school in a locked, secure and accessible location an epinephrine kit. An epinephrine kit may consist of one or more doses of epinephrine auto-injectors. A physician may prescribe epinephrine auto-injectors in the name of the school district or nonpublic school to be maintained for use when necessary.

(d) Pursuant to an order or standing protocol issued by the prescriber within the course of his professional practice, a school nurse, or any school board employee who is authorized and trained in the administration of epinephrine, may possess and administer epinephrine in emergency cases of anaphylactic shock.

(e) Epinephrine from an epinephrine kit shall be used only in emergency situations when the person administering the epinephrine reasonably believes that the signs and symptoms of an anaphylactic reaction are occurring and, if administered, at school, on school property or at a school-sponsored event.

(f) A school may not maintain an epinephrine kit unless the school has consulted a pharmacist licensed by the state board of pharmacy. The consultant pharmacist shall have supervisory responsibility for maintaining the epinephrine kit. The consultant pharmacist shall be responsible for developing procedures, proper control and accountability for the epinephrine kit. Periodic physical inventory of the epinephrine kit shall be required.
