To accommodate timing discrepancies between the receipt of revenue and related expenditures, the comptroller may certify for payment amounts not to exceed the most recent revenue estimates as certified by the secretary of health and human services to be transferred, credited or deposited under this section. Money remaining in the fund at the end of a fiscal year shall not revert to the General Fund.

(3)(A) In addition, to the payments set forth above, the secretary of health and human services shall expend up to \$15,000,000, subject to the availability of federal financial participation of not less than \$7,500,000, in payments to qualifying acute hospital providers or to care organizations for their payments to hospitals participating in their respective provider networks, subject to the terms and conditions of a payment agreement with the executive office of health and human services; provided, however, that the payments shall be in addition to the sum of: (i) the amount of reimbursement otherwise provided for and payable in each contract year to those hospitals under contracts executed pursuant to the request for applications issued periodically by the executive office of health and human services for the procurement of acute hospital services under the MassHealth program; and (ii) the portion, as determined by the secretary, of payments made under the contracts executed between care organizations and the executive office of health and human services which are projected to be needed by the care

The fund shall consist of money from public and private sources, including gifts, grants and donations, interest earned on such money, any other money authorized by the general court and specifically designated to be credited to the fund and any funds provided from other sources. Money in the fund shall be used to provide annual financial support, consistent with the terms of this section, to eligible acute care hospitals. The secretary, as trustee, shall administer the fund and shall make expenditures from the fund consistent with this section.

- (c) The secretary shall annually direct payments from the fund to eligible acute care hospitals. - (d) In directing payments, the secretary shall allocate payments to eligible acute care hospitals based on the proportion of each eligible acute care hospital's total gross patient service revenue to the combined gross patient service revenue of all eligible acute care hospitals in the prior hospital rate year; provided, however, that payments shall be adjusted to allocate proportionally greater payments to eligible acute care hospitals with relative prices that fall farthest below 120 per cent of the statewide median price. The secretary shall establish by regulation a formula to allocate payments pursuant to this subsection.
- (e) The secretary may require as a condition of receiving payment from the fund that an eligible acute care hospital agree to an independent financial and operational audit to recommend steps to increase sustainability and efficiency of the acute care hospital.
- (f) The executive office of health and human services shall promulgate regulations necessary to carry out this section.

(g) Not later than 30 days after payments are allocated to eligible acute care hospitals under this section, the secretary for health and human services shall file a report with the joint committee on health care finance and the house and senate committees on ways and means detailing the allocation and recipient of each payment.

After identifying the factors contributing to price variation, the commission shall recommend steps to reduce provider price variation and shall recommend the maximum reasonable adjustment to a commercial insurer's median rate for individual or groupings of services for each acceptable factor. To conduct its review and analysis, the commission may contract with an outside organization with expertise in the analysis of health care financing and provider payment methodologies. The center for health information and analysis and the health policy commission shall provide the commission and any contracted outside organization, to the extent possible, relevant data and analysis necessary for the evaluation; provided, however, that such data shall be confidential and shall not be a public record under clause Twenty-sixth of section 7 of chapter 4 of the General Laws.

The commission shall hold its first meeting not later than September 15, 2016 and shall meet not less frequently than monthly thereafter.
