254           (1)    The proposed project is located or will be located within the commonwealth;

255           (2)    If the controlling business has 1 or more existing facilities in the commonwealth,  
256 then the proposed project is an expansion of an existing facility and not merely the replacement  
257 of an existing facility, except in the case of a proposed project that will enable a controlling  
258 business to retain jobs in a gateway city as provided in subclause (ii) of clause (3) below, or

261 retain at least 50 permanent full-time jobs at a facility located in a gateway city, or in an adjacent  
262 city or town that is accessible by public transportation to residents of a gateway city, and such  
263 jobs otherwise would be relocated outside of the commonwealth;

264 (4) The controlling business shall commit to maintain new and retained jobs for a  
265 period of at least 5 years after the completion of the proposed project;

266 (5) The proposed project appears to be economically feasible, and the controlling  
267 business has the financial and other means to undertake and complete the proposed project,

268 (6) Unless the proposed project will be located in a gateway municipality, a duly  
269 authorized representative of the controlling business has certified to the EACC that the  
270 controlling business would not undertake the proposed project but for the EDIP tax credits and  
271 local tax incentives available to it under this chapter; and

272 (7) The proposed project complies with all applicable statutory requirements and with  
273 such other criteria that the EACC may from time to time prescribe by regulation, policy or  
274 guidance.

275 The EACC shall by regulation, policy or guidelines provide for the contents of an  
276 application for project certification, which may include a requirement that the controlling  
277 business provide written evidence to support the certification provided for in clause (6) of this  
278 subsection.

279 (c) A certified project shall retain its certification for the period specified by the  
280 EACC in its certification decision; provided, however, that such specified period shall be not less  
281 than 5 years from the date of certification nor more than 20 years from such date.

282           (d)     The secretary of housing and economic development and the secretary of  
283 administration and finance may from time to time jointly designate a proposed project as an  
284 extraordinary economic development opportunity if the secretaries jointly determine that the  
285 proposed project involves the construction or substantial rehabilitation of a new facility or  
286 expansion of an existing facility within the commonwealth that is not a replacement of an  
287 existing facility in the commonwealth, or involves the relocation of an existing business to the  
288 commonwealth from a facility located outside of the commonwealth, and the proposed project  
289 meets at least 1 of the following additional criteria:

290           (1)     The proposed project, if approved and constructed, will create at least 400 new  
291 jobs; or

292           (2)     The proposed project, if approved and constructed, will result in the creation of at  
293 least 200 new jobs in a gateway municipality or in an adjacent city or town that is accessible by  
294 public transportation to residents of a gateway municipality.

295           The secretary of housing and economic development shall promulgate such rules and  
296 regulations necessary to implement the provisions of this subsection. The decision by the  
297 secretaries to designate or not to designate a proposed project as an extraordinary economic  
298 development opportunity shall be a decision that is within the sole discretion of each of the  
299 secretaries, and may include such conditions as the secretaries shall in their discretion impose.  
300 Such decisions shall be final and shall not be subject to administrative appeal or judicial review  
301 under chapter 30A or give rise to any other cause of action or legal or equitable claim or remedy.

302           Section 3D.   (a)     The EACC may award to the controlling business of a certified  
303 project, or to its affiliate, tax credits available under subsection (g) of section 6 of chapter 62 or

304 section 38N of chapter 63. The amount of any such credits awarded, and the schedule on which  
305 such credits may be claimed, shall be determined by the EACC based on the following criteria:

306 (1) The degree to which the certified project is expected to increase employment  
307 opportunities for residents of the commonwealth, with consideration given to the number of new  
308 full-time jobs to be created, the number of full-time jobs to be retained, the salary or other  
309 compensation that will be paid to the employees, and the amount of new state income tax to be  
310 generated;

311 (2) The timeframe within which new jobs will be created and the commitment of the  
312 controlling business for how long they will be maintained, with preference given to certified  
313 projects in which a significant portion of the new jobs shall be created within 2 years;

314 (3) The amount of capital to be invested by the controlling business in the certified  
315 project;

316 (4) The degree to which the certified project is expected to generate net new  
317 economic activity within the commonwealth by generating substantial sales from outside of the  
318 commonwealth;

319 (5) The extent to which the certified project is expected to contribute to the economic  
320 revitalization of a gateway municipality or increase employment opportunities to residents of a  
321 gateway municipality;

322 (6) The economic need of the municipality or region in which the certified project is  
323 located, as determined by income levels, employment levels or educational attainment level; and

324           (7)     Commitments, if any, made by the controlling business to use Massachusetts  
325 firms, suppliers and vendors, or to retain women or minority-owned businesses, during the  
326 construction of the certified project.

327           The EACC shall have discretion as to how to weigh and apply these criteria. When  
328 making an award of tax credits pursuant to subsection (g) of section 6 of chapter 62 and section  
329 38N of chapter 63, the EACC may at its sole discretion limit the award to a specific dollar  
330 amount, may specify the schedule on which such credits may be claimed, and may limit or  
331 restrict the right of the controlling business to carry unused credits forward to future tax years.  
332 When a controlling business expects that new jobs will be created over a period of multiple  
333 years, the EACC award of tax credits may allocate and make such credits available to the  
334 taxpayer on a schedule that ensures credits are claimed on or after the date that the jobs are  
335 created.

336           (b)     A certified project that has been designated as an extraordinary economic  
337 development opportunity shall be eligible, at the discretion of the secretary of housing and  
338 economic development and the secretary of administration and finance, for the alternative EDIP  
339 tax credit provided for in paragraph (3) of subsection (g) of section 6 of chapter 62 and  
340 subsection (b) of section 38N of chapter 63. The EACC shall not make an award of alternative  
341 EDIP tax credits unless the award of such credits is expressly authorized by the secretaries in  
342 their decision to designate a certified project as an extraordinary economic development  
343 opportunity. A controlling business that receives an award of alternative EDIP tax credits shall  
344 not be eligible to receive any other EDIP tax credits for the same certified project.

345           (c)     The EACC may grant refundable credits to a certified project; provided that the  
346 EACC shall not authorize more than \$5,000,000 in refundable credits for any single calendar  
347 year. Refundable credits awarded to a certified project that has been designated as an  
348 extraordinary economic development opportunity shall not be counted against the cap set forth in  
349 this subsection.

350           (d)     The total amount of credits that may be authorized by the EACC under this  
351 section for any single calendar year shall not exceed \$30,000,000, to be calculated in accordance  
352 with the relevant provisions of subsection (g) of section 6 of chapter 62 and section 38N of  
353 chapter 63. Notwithstanding the cap set forth in the preceding sentence, the EACC may  
354 authorize credits in excess of the annual cap of \$30,000,000 for a certified project that is  
355 designated as an extraordinary economic development opportunity; provided that the total  
356 amount awarded shall not exceed \$50,000,000 in a calendar year. The EACC may authorize an  
357 award of credits to a controlling business that spans multiple years so long as the total amount of  
358 credits due to be taken in any single calendar year does not exceed the applicable cap.

359           (e)     MOBD shall require the recipient of tax credits awarded pursuant to this section  
360 to execute an EDIP contract after the EACC awards tax credits under this section.

361           (f)     The decision by the EACC to certify or deny certification to a proposed project  
362 pursuant to section 3C, and the decision by the EACC to award or deny tax credits to the  
363 controlling business of a certified project pursuant to this section, including without limitation  
364 the amount of such award, and any conditions or limitations on such award, shall be decisions  
365 that are within the sole discretion of the EACC. Such decisions by the EACC shall be final and

366 shall not be subject to administrative appeal or judicial review under chapter 30A or give rise to  
367 any other cause of action or legal or equitable claim or remedy.

368           Section 3E.   (a)   A municipality may offer a local tax incentive to the owner or  
369 controlling business of a certified project, or to the owner of a real estate project, if the  
370 municipality determines such project is consistent with the municipality's economic  
371 development objectives and is likely to increase or retain employment opportunities for residents  
372 of the municipality.

373           (b)   Tax increment financing may be offered by a municipality in accordance with  
374 section 59 of chapter 40 to the controlling business of a certified project, or to any person or  
375 entity undertaking a real estate project, or to any person or entity expanding a facility in an area  
376 designated by the EACC as a TIF-eligible area. The EACC may designate an area as a TIF-  
377 eligible area if it finds, upon petition from the municipality, that there is a strong likelihood that  
378 any of the following will occur within the area in question within a specific and reasonably  
379 proximate period of time: (i) a significant influx or growth in business activity; (ii) the creation  
380 of a significant number of new jobs and not merely a replacement or relocation of current jobs  
381 within the commonwealth; or (iii) a private project or investment that will contribute  
382 significantly to the resiliency of the local economy.

383           If a municipality offers tax increment financing to the owner of a certified project, the  
384 municipal project endorsement for said certified project shall include a fully executed copy of the  
385 tax increment financing agreement adopted in accordance with section 59 of chapter 40. Any tax  
386 increment financing agreement shall be approved by the EACC before it shall be valid and  
387 enforceable. The EACC may approve such tax increment financing agreement pursuant to

388 regulations adopted by the EACC. Any such approval shall include a finding, reflected in the  
389 EACC's minutes, that the tax increment financing agreement complies with said section 59 of  
390 said chapter 40 and will further the public purpose of encouraging increased industrial and  
391 commercial activity in the commonwealth.

392 (c) A municipality may offer a special tax assessment to the controlling business of a  
393 certified project, or to a person or entity undertaking a real estate project, or to a person or entity  
394 proposing to retain permanent full-time jobs at a facility that otherwise would be at risk of  
395 relocating outside of the commonwealth. Any special tax assessment shall be set forth in a  
396 written agreement between the municipality and the property owner. Such agreement shall set  
397 forth the amount of the tax reduction and the period of time over which such reduction shall be in  
398 effect, which shall be not fewer than 5 years or more than 20 years. Every special tax assessment  
399 approved by the EACC shall provide for a reduction of the real property tax that otherwise would  
400 be due based on a percentage reduction in the tax that otherwise would be due based on the full  
401 assessed value of the affected property. The special tax assessment shall provide for tax  
402 reduction at least equal to the following:

403 (1) in the first year, the tax reduction shall be at least 50 per cent of the tax that would  
404 be due based on the full assessed value of the affected property;

405 (2) in the second and third years, the tax reduction shall be at least 25 per cent of the  
406 tax that would be due based on the full assessed value of the affected property;

407 (3) in the fourth and fifth years, the tax reduction shall be at least 5 per cent of the tax  
408 that would be due based on the full assessed value of the affected property.

409           The municipality may at its discretion provide for greater real property tax reductions  
410 than provided in clauses (1) to (3) above.

411           The written agreement required by the first paragraph of this subsection shall be  
412 approved by the EACC before it shall be valid and enforceable. The EACC may approve such  
413 special tax assessments pursuant to rules or regulations adopted by the EACC if the EACC  
414 determines that: (i) the municipality has made a formal determination that the property owner is  
415 either undertaking a project or making other investment that will contribute to economic  
416 revitalization of the municipality and will significantly increase employment opportunities for  
417 residents of the municipality, or is retaining permanent full-time employees that otherwise would  
418 be relocated to a facility outside the commonwealth; (ii) the special tax assessment is reasonably  
419 necessary to enable the owner's investment in the project or to retain the jobs that otherwise  
420 would be relocated; and (iii) the total amount of local tax foregone is reasonably proportionate to  
421 the public benefits resulting from the special tax assessment. Any such approval shall include a  
422 finding, reflected in the EACC's minutes, that the special tax assessment complies with the  
423 requirements of this section.

424           (d)     Any tax increment financing agreement or special tax assessment approved by the  
425 EACC may not be amended without the approval of the EACC.

426           Section 3F.     (a)     No later than 2 years after the initial certification of a project by  
427 the EACC, and annually thereafter, the controlling business or affiliate awarded EDIP tax credits  
428 shall file with MOBD a report, signed by an authorized representative of the controlling business  
429 or affiliate, certifying whether the controlling business or affiliate has achieved the job creation

430 projections, job retention projections and other material obligations or representations set forth in  
431 the EDIP contract.

432 (b) In the event that MOBD shall find that a controlling business or an affiliate is in  
433 material non-compliance with a representation made to the EACC in its application for project  
434 certification or the obligations set forth in an EDIP contract, MOBD may recommend to the  
435 EACC that it revoke the project certification. Prior to making such recommendation, MOBD  
436 shall provide written notice to the controlling business stating the basis for the recommended  
437 revocation and offering the controlling business an opportunity for a hearing at which the  
438 controlling business may contest the basis for the recommendation or establish mitigating  
439 circumstances which may be relevant to the recommendation.

440 (c) The EACC may revoke a project certification if it determines that a controlling  
441 business or affiliate is in material non-compliance with a representation made in its application  
442 for project certification or the obligations set forth in an EDIP contract. The EACC shall have  
443 the discretion to determine whether material non-compliance shall result in revocation of a  
444 project certification, taking into account:

445 (1) the conduct of the controlling business subsequent to the project certification;

446 (2) the extent to which the material non-compliance is the result of unforeseen  
447 conditions that are outside the control of the controlling business;

448 (3) the potential impact on the municipality in which the certified project is located;  
449 and

450 (4) such other considerations as the EACC shall establish by regulation or policy.

451           Where the EACC determines that material non-compliance is due to factors outside the  
452 control of the controlling business, the EACC may elect to provide the controlling business with  
453 reasonable opportunity to cure the material non-compliance. If the EACC revokes a project's  
454 certification, it shall determine the proportion of compliance with job creation requirements  
455 applicable to the certified project, and shall report the proportion of compliance to the controlling  
456 business and to the department of revenue.

457           (d)     Revocation of a project certification shall take effect on the first day of the tax  
458 year in which the material non-compliance occurred, as determined by the EACC. If the EACC  
459 revokes a project certification, then: (i) all EDIP tax credits available to the controlling business  
460 shall be recaptured in accordance with subsection (g) of section 6 of chapter 62 and subsection  
461 (i) of section 38N of chapter 63; and (ii) the local tax incentive, if any, shall terminate unless the  
462 written agreements between the municipality and the controlling business provide otherwise. In  
463 the event of such termination, the municipality may, at its discretion, preserve the local tax  
464 incentive by amending the written agreement with the controlling business in the same manner as  
465 the municipality approved it, and submitting such amendment to the EACC for approval in  
466 accordance with this section.

467           (e)     If a controlling business has claimed tax credits awarded under this chapter prior  
468 to the date on which the EACC makes a determination to revoke project certification, then the  
469 recapture provisions of subsection (g) of section 6 of chapter 62 and subsection (i) of section  
470 38N of chapter 63 shall apply. If a controlling business has benefited from a local tax incentive  
471 under this chapter prior to the revocation of a project certification, then notwithstanding any  
472 provision of the general laws to the contrary, the municipality that offered the local tax incentive  
473 may recapture the value of the tax not paid by making a special assessment on the controlling

474 business in the tax year that follows the EACC's decision to revoke project certification. The  
475 assessment, payment and collection of the special assessment shall be governed by procedures  
476 provided for the taxation of omitted property under section 75 of chapter 59 notwithstanding the  
477 time period set forth in said chapter 59 for which omitted property assessments may be imposed  
478 for each of the fiscal years included in the special assessment.

479           Section 3G. (a)           The EACC may designate 1 or more areas of the commonwealth as  
480 an economic target area or economic opportunity area in connection with an application from a  
481 municipality seeking such designation under the federal empowerment zones and enterprise  
482 communities program, so called, or other local, state or federal programs that contemplate such  
483 designations. Designations of new economic target areas, if any, shall be made in accordance  
484 with the criteria set forth in subsection (b). Designations of new economic opportunity areas, if  
485 any, shall be made at the discretion of the EACC in accordance with regulations to be  
486 promulgated by the EACC, or rules or policies adopted by the EACC.

488 the commonwealth comprised of 3 or more contiguous census tracts or 1 or more contiguous  
489 municipalities, provided that the area proposed for designation meets 1 of the following criteria:

490           (1)           the proposed economic target area has an unemployment rate that exceeds the  
491 statewide average by at least 25 per cent;

492           (2)           if the proposed economic target area is located in a metropolitan area, then at least  
493 51 per cent of the households in the proposed economic target area have incomes that are below  
494 80 per cent of the median income for households in the metropolitan area;

495           (3)     if the proposed economic target area is not located in a metropolitan area, then at  
496     least 51 per cent of the households in the proposed economic target area have incomes that are  
497     below 80 per cent of the median income for households in the commonwealth;

498           (4)     the proposed economic target area has a poverty rate which is at least 20 per cent  
499     higher than the average poverty rate for the commonwealth;

500           (5)     the area proposed for designation has heightened economic need due to: (i) an  
501     industrial or military base closure; (ii) the presence of underutilized maritime or electric  
502     generation facilities; or (iii) a commercial vacancy rate exceeding 20 per cent; or

503           (6)     the area proposed for designation has exceptional potential for economic  
504     development as a result of: (i) the proposed redevelopment of blighted real estate or abandoned  
505     buildings totaling at least 1,000,000 square feet; (ii) the proposed establishment of a regional  
506     technology center of 3,000,000 or more square feet; or (iii) the proposed development of a Class  
507     I renewable energy generating facility.

508           (c)     Any municipality which contains an economic opportunity may make application  
509     to the foreign trade zone board in accordance with 19 U.S.C. sections 81(a) to 81(u), inclusive,  
510     for a grant to said city or town for the privilege of establishing, operating and maintaining a  
511     foreign trade zone within its economic opportunity area. Upon petition from a city or town, the  
512     EACC may authorize any other city or town to make application to said foreign trade zone board  
513     for a grant to said city or town for the privilege of establishing, operating and maintaining a  
514     foreign trade zone.

940 shall not be subject to any municipal environmental or health ordinances, bylaws or regulations  
941 that exceed applicable requirements of state law or regulation, unless the department of

943 more restrictive local standards, or the imposition of such standards would not render infeasible

944 the development contemplated under the comprehensive housing plan, housing production plan  
945 or housing production summary submitted as part of the application for such district.

946 (8) A proposed smart growth zoning district or starter home zoning district shall not

961 (12) Housing density in any proposed district shall not over burden infrastructure as it  
962 exists or may be practicably upgraded in light of anticipated density and other uses to be retained  
963 in the district.

965 or by-law shall define the manner of review by the approving authority in accordance with

971 standards that are subject to modification or waiver may include, but shall not be limited to;  
972 height, setbacks, lot coverage, parking ratios and locations and roadway design standards.  
973 Modified requirements may be applied as of right throughout all or a portion of the smart growth

978 conservation restriction as defined in section 31 of chapter 184 or such other means as may be  
979 created by state law. The amount of such open space shall not be included as developable land  
980 area within the smart growth zoning district or starter home zoning district. Open space may  
981 include an amount of land equal to up to 10 per cent of what would otherwise be the developable  
982 land area if the developable land would be less than 50 acres, and 20 per cent of what would  
983 otherwise be the developable land area if the developable land area would be 50 acres or more.

984           (c) The zoning for a proposed smart growth zoning district may provide for mixed  
985 use development.

986 (d) A smart growth zoning district or starter home zoning district may encompass an  
987 existing historic district or districts. A city or town, with the approval of the department, may  
988 establish a historic district in an approved smart growth zoning district or starter home zoning  
989 district in accordance with chapter 40C, so long as the establishment of the historic district meets  
990 the requirements for such a historic district and does not render the city or town noncompliant  
991 with this chapter, as determined by the department. The historic districts may be coterminous or  
992 non-coterminous with the smart growth zoning district or starter home zoning district. Within  
993 any such historic district, the provisions and requirements of the historic district may apply to  
994 existing and proposed buildings.

995 (e) A city or town may require more affordability than required by this chapter, both  
996 in the percentage of units that must be affordable, and in the levels of income for which the  
997 affordable units must be accessible, provided, however, that affordability thresholds shall not  
998 unduly restrict opportunities for development.

999 (f) With respect to a city or town with a population of fewer than 10,000 persons, as  
1000 determined by the most recent federal decennial census, for hardship shown, the department  
1001 may, pursuant to regulations adopted under this chapter, approve zoning for a smart growth  
1002 zoning district with lower densities than provided in this chapter, if the city or town satisfies the  
1003 other requirements set forth in this section; provided, however, that such approval shall not be  
1004 withdrawn solely because, in a future census, the population of the city or town exceeds 10,000  
1005 persons.

1006 (g) Any amendment or repeal of a zoning ordinance or by-law affecting an approved  
1007 smart growth zoning district or starter home zoning district shall not be effective without the

1008 written approval by the department. Each amendment or repeal shall be submitted to the  
1009 department with an evaluation of the effect on the city or town's comprehensive housing plan or  
1010 housing production plan, if any. Amendments shall be approved only to the extent that the  
1011 district remains in compliance with this chapter. If the department does not respond to a  
1012 complete request for approval of an amendment or repeal within 60 days of receipt, the request  
1013 shall be deemed approved.

1014 (h) Nothing in this chapter shall affect a city or town's authority to amend its zoning  
1015 ordinances or by-laws under chapter 40A, so long as the changes do not affect the smart growth  
1016 zoning district or starter home zoning district.

1017 Section 7. (a) On or before October 1 of each year after the year of approval of a district  
1018 by the department, the department shall send a smart growth zoning district certificate of

1028 only denied plans for projects in a manner consistent with its smart growth zoning district

1029 ordinance or by-law or starter home zoning district ordinance or by-law, as applicable, the city or  
1030 town's comprehensive housing plan, housing production plan, or the housing production  
1031 summary submitted with the city or town's initial application for approval by the department, as  
1032 applicable, and this chapter.

1033 (b) If the department is unable to certify compliance, the department shall hold a  
1034 public hearing subject to chapter 30A. If the department concludes that the city or town is in  
1035 material noncompliance with the requirements set forth in this section, the department may  
1036 revoke certification. A revocation of certification shall be recorded with the registry of deeds or  
1037 land court registry district for the county or district within which the city or town is located,  
1038 indexed in the grantor index under the name of the city or town. Any revocation of certification  
1039 or other sanctions imposed by the department shall not affect the validity of the smart growth  
1040 zoning ordinance or by-law or starter home zoning district ordinance or by-law, as applicable, or  
1041 the application of such ordinance or by-law to land, development or proposed development  
1042 within the smart growth zoning district.

1044 town's application for a letter of eligibility, either an existing comprehensive housing plan, an  
1045 existing housing production plan, or a housing production summary. The plan or summary shall  
1046 include an estimate of the projected number of units of new construction that could be built in  
1047 the proposed smart growth zoning district or starter home zoning district. If a city or town has  
1048 already completed a comprehensive housing plan or housing production plan, the city or town  
1049 shall submit with its application to the department a description of how the proposed smart  
1050 growth zoning district or starter home zoning district relates to and will further the goals of its

1051 comprehensive housing plan or housing production plan, as well as an estimate of the projected  
1052 number of units of new construction that could be built within the district.

1063	501 or more	\$600,000

1064 Subject to any conditions imposed by the department as a condition of approving a smart  
1065 growth zoning district or starter home zoning district, the zoning incentive payment shall be  
1066 payable upon confirmation of approval of the district by the department. The projected number  
1067 of units shall be based upon the zoning adopted in the smart growth zoning district or starter

1069 housing production plan, if any, or the housing production summary submitted in accordance  
1070 with Section 8.

1071           (b)     The commonwealth shall pay from the trust fund a one-time density bonus  
1072 payment to each city or town with an approved smart growth zoning district and a one-time

1097 character of building types, streetscapes and other city or town features traditionally found in  
1098 densely settled areas of the city or town or in the region of the city or town.

1099 A design standard shall not be adopted if it will add unreasonable costs to residential or  
1100 mixed-use developments. A design standard shall not unreasonably impair the economic  
1101 feasibility of proposed projects. The department may disapprove a request for the determination  
1102 of eligibility for a smart growth zoning district or starter home zoning district on account of a  
1103 design standard adding such unreasonable costs or unreasonably impairing such feasibility.

1238 an amount equal to 50 per cent of such liability in any taxable year; provided, however, that the  
1239 50 per cent limitation shall not apply where the credit is refundable under paragraph (7). The  
1240 amount of the credit shall be determined by the EACC in accordance with criteria set forth in  
1241 section 3D of chapter 23A and such other criteria or guidelines as the council shall from time to

1248 by this chapter on the owner or lessee of a certified project that has been designated as an

1252 credit is refundable under paragraph (7). The amount of the alternative EDIP tax credit shall be  
1253 equal to a percentage of gross wages of the new permanent full-time employees employed by the  
1254 controlling business at the certified project as reportable on employee Forms W-2 wage and tax  
1255 statements. Such percentage shall be determined by the EACC but shall in no event exceed 5 per  
1256 cent of such gross wages. An alternative EDIP tax credit allowed under this section shall reduce  
1257 the liability of the taxpayer under this chapter for the taxable year in which the new permanent  
1258 full-time employee is first employed by the taxpayer and any subsequent years authorized by the  
1259 EACC. An alternative EDIP tax credit allowed under this section may be taken only after the  
1260 taxpayer executes an EDIP contract as set forth in section 3D of chapter 23A.

1266 section or said section 38N of said chapter 63; (ii) nonrefundable credits granted during the year

1268 nonrefundable credits are estimated by the commissioner to offset tax liabilities during the year;  
1269 and (iii) carryforwards of credits from prior years under this section or said section 38N of said  
1270 chapter 63, to the extent that such credit carryforwards, if any, are estimated by the  
1271 commissioner to offset tax liabilities during the year. Any portion of the annual cap not awarded  
1272 by the EACC in a calendar year shall not be applied to awards in a subsequent year.

1273 Notwithstanding the cap set forth in the preceding paragraph, the EACC may authorize  
1274 credits in excess of the annual cap of \$30,000,000 for a project that is designated as an  
1275 extraordinary economic development opportunity; provided that the total amount awarded shall  
1276 not exceed \$50,000,000 in a calendar year.

1277 The EACC shall provide the commissioner with any documentation that the  
1278 commissioner deems necessary to confirm compliance with the annual cap and the commissioner  
1279 shall provide a report confirming such compliance to the secretary of administration and finance

1284 year to year, of those credits which exceed the tax liability imposed by this chapter for the  
1285 taxable year; provided, however, that in no event shall the taxpayer apply the credit to the tax  
1286 liability imposed by this chapter for any taxable year beginning more than 5 years after the

1287 certified project ceases to qualify as such under chapter 23A. Notwithstanding the foregoing, the  
1288 EACC may limit or restrict carryover of credits as set forth section 3D of said chapter 23A.

1289 (6) For purposes of this subsection, the commissioner may aggregate the activities of  
1290 all entities, whether or not incorporated, under common control as defined in 26 U.S.C. section  
1291 41(f).

1292 (7) The commissioner shall promulgate rules and regulations necessary to implement  
1293 this subsection including, but not limited to, provisions to prevent the generation of multiple  
1294 credits with respect to the same property.

1295 (8) If a credit allowed under paragraph (2) or paragraph (3) is designated by the  
1296 EACC as a refundable credit, the credit shall first be applied against the tax liability of the  
1297 taxpayer imposed by this chapter, and 100 per cent of the balance of such credit may, at the  
1298 option of the taxpayer and to the extent authorized by the EACC, be refundable to the taxpayer.  
1299 The EACC shall in each case specify the timing of such refund, which may be for the taxable  
1300 year in which all or a portion of the certified project is placed in service, or the taxable year  
1301 subsequent to the year in which the required jobs are created. If such credit balance is refunded  
1302 to the taxpayer, the credit carryover provisions of paragraph (5) shall not apply.

1303 (9) If the EACC revokes the certification of a project as provided in section 3F of  
1304 chapter 23A, then a portion of the tax credits otherwise allowed by this section and claimed by  
1305 the taxpayer prior to the date on which EACC makes the determination to revoke project  
1306 certification must be added back as additional tax due and shall be reported as such on the return  
1307 of the taxpayer for the taxable period in which the EACC makes the determination to revoke  
1308 project certification. The amount of credits subject to recapture shall be proportionate to the

1309 taxpayer's compliance with the job creation requirements applicable to the certified project. The  
1310 taxpayer's proportion of compliance shall be determined by the EACC as part of its revocation  
1311 process and shall be reported to the taxpayer and the department of revenue at the time  
1312 certification is revoked.

1313 (10) If a certified project is sold or otherwise disposed of, tax credits allowed under  
1314 this subsection may be transferred to the purchaser of the certified project; provided, that the  
1315 EDIP contract is assigned to and assumed by the purchaser of the certified project, and such  
1316 assignment and assumption is approved in writing by the EACC.

1317 (11) Nothing in this subsection shall limit the authority of the commissioner to make
