539 Section 3C. (a) A controlling business may petition the EACC to certify a proposed
540 project that will create new permanent full-time employees within the commonwealth. Each
541 proposed project submitted by a controlling business to the EACC for review and certification
542 shall include: (i) a detailed description of the proposed project; (ii) a representation by the
543 controlling business regarding the amount of capital investment to be made, the number of new

546 result from the construction of the proposed project; (iv) a municipal project endorsement; and
547 (vi) any other information that the EACC shall require by regulation, policy or guidance.

548 (b) Upon receipt of a completed project proposal and municipal project endorsement, the
549 EACC may certify the proposed project, deny certification of the proposed project or certify the
550 proposed project with conditions. In order to certify a proposed project, with or without
551 conditions, the EACC shall make the following required findings based on the project proposal,
552 the municipal project endorsement and any additional investigation that the EACC shall make
553 and incorporate in its minutes: (i) the proposed project is located or will be located within the
554 commonwealth;

555 (ii) (A) if the controlling business has at least 1 existing facility in the commonwealth,
556 then the proposed project shall be an expansion of an existing facility and not merely the
557 replacement of an existing facility except in the case of a proposed project that will enable a
558 controlling business to retain jobs in a gateway city as provided in subclause (2) of clause (B) ;
559 or (B) the proposed project will either: (1) enable the controlling business to hire new permanent
560 full-time employees in the commonwealth; or (2) enable the controlling business to retain at least
561 50 permanent full-time jobs at a facility located in a gateway city or in an adjacent city or town

562 that is accessible by public transportation to residents of a gateway city and such jobs otherwise
563 would be relocated outside of the commonwealth; (iii) the controlling business has committed to
564 maintaining new and retained jobs for a period of at least 5 years after the completion of the
565 proposed project; (iv) the proposed project appears to be economically feasible and the
566 controlling business has the financial and other means to undertake and complete the proposed
567 project; (v) unless the proposed project will be located in a gateway municipality, a duly
568 authorized representative of the controlling business has certified to the EACC that the
569 controlling business would not have undertaken the proposed project but for the EDIP tax credits
570 and local tax incentives available to it pursuant to this chapter; and (vi) the proposed project
571 complies with all applicable statutory requirements and with any other criteria that the EACC
572 may prescribe by regulation, policy or guidance.

573 The EACC shall, by regulation, policy or guidance, provide for the contents of an
574 application for project certification which may include a requirement that the controlling
575 business provide written evidence to support the certification provided for in clause (v).

576 (c) A certified project shall retain its certification for the period specified by the EACC
577 in its certification decision; provided, however, that such specified period shall be not less than 5
578 years or more than 20 years from the date of certification.

579 Section 3D. (a) The EACC may award to the controlling business of a certified project or
580 to its affiliate tax credits available pursuant to subsection (g) of section 6 of chapter 62 or
581 pursuant to section 38N of chapter 63. The amount of any such credits awarded and the schedule
582 on which those credits may be claimed shall be determined by the EACC based on: (i) the degree
583 to which the certified project is expected to increase employment opportunities for residents of

584 the commonwealth, with consideration given to the number of new full-time jobs to be created,
585 the number of full-time jobs to be retained, the salary or other compensation that will be paid to
586 the employees and the amount of new state income tax to be generated; (ii) the timeframe within
587 which new jobs will be created and the commitment of the controlling business for how long
588 they will be maintained, with preference given to certified projects in which a significant portion
589 of the new jobs shall be created within 2 years; (iii) the amount of capital to be invested by the
590 controlling business in the certified project; (iv) the degree to which the certified project is
591 expected to generate net new economic activity within the commonwealth by generating
592 substantial sales from outside of the commonwealth; (v) the extent to which the certified project
593 is expected to contribute to the economic revitalization of a gateway municipality or increase
594 employment opportunities to residents of a gateway municipality; (vi) the economic need of the
595 municipality or region in which the certified project is to be located as determined by income
596 levels, employment levels or educational attainment levels; and (vii) commitments, if any, made
597 by the controlling business to use Massachusetts firms, suppliers and vendors or to retain women
598 or minority-owned businesses during the construction of the certified project.

599 The EACC shall have discretion as to how to weigh and apply these criteria. When
600 making an award of tax credits pursuant to subsection (g) of section 6 of chapter 62 or pursuant
601 to section 38N of chapter 63, the EACC may, at its sole discretion: (i) limit the award to a
602 specific dollar amount; (ii) specify the schedule on which the tax credits may be claimed; and
603 (iii) limit or restrict the right of the controlling business to carry unused tax credits forward to
604 subsequent tax years. When a controlling business expects that new jobs will be created over a
605 period of multiple years, the EACC, in awarding tax credits, may allocate and make such credits

606 available to the taxpayer on a schedule that ensures that the tax credits are claimed on or after the
607 date that the jobs are created.

608 (b) The EACC may grant refundable tax credits to a certified project; provided, however,
609 that the EACC shall not authorize more than \$5,000,000 in refundable tax credits for any single
610 calendar year.

611 (c) The total amount of tax credits that may be authorized by the EACC under this
612 section for any calendar year shall not exceed \$30,000,000 which shall be calculated in
613 accordance with the relevant provisions of subsection (g) of section 6 of chapter 62 and section
614 38N of chapter 63. The EACC may authorize an award of tax credits to a controlling business
615 that spans multiple years if the total amount of credits due to be taken in any single calendar year
616 does not exceed the applicable cap.

617 (d) The MOBD shall require the recipient of tax credits awarded pursuant to this section
618 to execute an EDIP contract after the EACC awards tax credits under this section.

619 (e) The decision by the EACC to certify or deny certification of a proposed project
620 pursuant to section 3C and the decision by the EACC to award or deny tax credits to the
621 controlling business of a certified project pursuant to this section, including without limitation
622 the amount of such award, and any conditions or limitations on such award, shall be decisions
623 that are within the sole discretion of the EACC. Such decisions by the EACC shall be final and
624 shall not be subject to administrative appeal or judicial review pursuant to chapter 30A or give
625 rise to any other cause of action or legal or equitable claim or remedy.

626 Section 3E. (a) A municipality may offer a local tax incentive to the owner or controlling
627 business of a certified project, or to the owner of a real estate project, if the municipality

628 determines that the project is consistent with the municipality's economic development
629 objectives and is likely to increase or retain employment opportunities for residents of the
630 municipality.

631 (b) Tax increment financing may be offered by a municipality in accordance with section
632 59 of chapter 40 to the controlling business of a certified project, or to any person or entity
633 undertaking a real estate project or to any person or entity expanding a facility in an area
634 designated by the EACC as a TIF-eligible area. The EACC may designate an area as a TIF-
635 eligible area if it finds, upon petition from the municipality, that there is a strong likelihood that
636 any of the following will occur within the area in question within a specific and reasonably
637 proximate period of time: (i) a significant influx or growth in business activity; (ii) the creation
638 of a significant number of new jobs and not merely a replacement or relocation of current jobs
639 within the commonwealth; or (iii) a private project or investment that will contribute
640 significantly to the resiliency of the local economy.

641 If a municipality offers tax increment financing to the owner of a certified project, the
642 municipal project endorsement for the certified project shall include a fully executed copy of the
643 tax increment financing agreement adopted pursuant to said section 59 of said chapter 40. Any
644 tax increment financing agreement shall be approved by the EACC before it shall be valid and
645 enforceable. The EACC may approve a tax increment financing agreement pursuant to
646 regulations adopted by the EACC. Any approval shall include a finding, reflected in the EACC's
647 minutes, that the tax increment financing agreement complies with said section 59 of said
648 chapter 40 and will further the public purpose of encouraging increased industrial and
649 commercial activity in the commonwealth.

650 (c) A municipality may offer a special tax assessment to the controlling business of a
651 certified project, to a person or entity undertaking a real estate project or to a person or entity
652 proposing to retain permanent full-time jobs at a facility that otherwise would be at risk of
653 relocating outside of the commonwealth. Any special tax assessment shall be set forth in a
654 written agreement between the municipality and the property owner. The agreement shall include
655 the amount of the tax reduction and the period of time over which such reduction shall be in
656 effect, which shall be for not less than 5 years or not more than 20 years. Every special tax
657 assessment approved by the EACC shall provide for a reduction of the real property tax that
658 otherwise would be due. The reduction shall be based upon a percentage reduction in the tax that
659 otherwise would be due on the full assessed value of the affected property. The special tax
660 assessment shall provide for tax reduction at least equal to the following: (i) in the first year, the
661 tax reduction shall be not less than 50 per cent of the tax that would be due based on the full
662 assessed value of the affected property; (ii) in the second and third years, the tax reduction shall
663 be not less than 25 per cent of the tax that would be due based on the full assessed value of the
664 affected property; and (iii) in the fourth and fifth years, the tax reduction shall be not less than 5
665 per cent of the tax that would be due based on the full assessed value of the affected property.

666 The municipality may at its discretion provide for greater real property tax reductions
667 than provided in clauses (i) to (iii).

668 A written agreement for a special tax assessment pursuant to this subsection shall be
669 approved by the EACC before it is valid and enforceable. The EACC may approve special tax
670 assessments pursuant to rules and regulations adopted by the EACC if the EACC determines
671 that: (i) the municipality has made a formal determination that the property owner is either
672 undertaking a project or making other investment that will contribute to economic revitalization

673 of the municipality and will significantly increase employment opportunities for residents of the
674 municipality or is retaining permanent full-time employees that otherwise would be relocated to
675 a facility outside of the commonwealth; (ii) the special tax assessment is reasonably necessary to
676 enable the owner's investment in the project or to retain the jobs that otherwise would be
677 relocated; and (iii) the total amount of local tax foregone is reasonably proportionate to the
678 public benefits resulting from the special tax assessment. Any such approval shall include a
679 finding, reflected in the EACC's minutes, that the special tax assessment complies with the
680 requirements of this section.

681 (d) Any tax increment financing agreement or special tax assessment approved by the
682 EACC shall not be amended without the approval of the EACC.

683 Section 3F. (a) Not later than 2 years after the initial certification of a project by the
684 EACC, and annually thereafter, the controlling business or affiliate awarded EDIP tax credits
685 shall file a report with MOBD, signed by an authorized representative of the controlling business
686 or affiliate, certifying whether the controlling business or affiliate has achieved the job creation
687 projections, job retention projections and other material obligations or representations set forth in
688 the EDIP contract.

689 (b) In the event that MOBD finds that a controlling business or an affiliate is in material
690 noncompliance with a representation made to the EACC in its application for project
691 certification or the obligations set forth in an EDIP contract, MOBD may recommend to the
692 EACC that it revoke the project certification. Prior to making a recommendation, MOBD shall
693 provide written notice to the controlling business stating the basis for the recommended
694 revocation and offering the controlling business an opportunity for a hearing at which the

695 controlling business may contest the basis for the recommendation or establish mitigating
696 circumstances which may be relevant to the recommendation.

697 (c) The EACC may revoke a project certification if it determines that a controlling
698 business or affiliate is in material noncompliance with a representation made in its application
699 for project certification or the obligations set forth in an EDIP contract. The EACC shall have the
700 discretion to determine whether material noncompliance shall result in revocation of a project
701 certification, taking into account: (i) the conduct of the controlling business subsequent to the
702 project certification; (ii) the extent to which the material noncompliance is the result of
703 unforeseen conditions that are outside the control of the controlling business; (iii) the potential
704 impact on the municipality in which the certified project is located; and (iv) other considerations
705 as the EACC shall establish by regulation or policy.

706 Where the EACC determines that material noncompliance is due to factors outside the
707 control of the controlling business, the EACC may elect to provide the controlling business with
708 reasonable opportunity to cure the material noncompliance. If the EACC revokes a project's
709 certification, it shall determine the proportion of compliance with job creation requirements
710 applicable to the certified project, and shall report the proportion of compliance to the controlling
711 business and to the department of revenue.

712 (d) Revocation of a project certification shall take effect on the first day of the tax year in
713 which the material noncompliance occurred, as determined by the EACC. If the EACC revokes a

715 recaptured in accordance with subsection (g) of section 6 of chapter 62 and subsection (i) of
716 section 38N of chapter 63; and (ii) the local tax incentive, if any, shall terminate unless the

717 written agreements between the municipality and the controlling business provide otherwise. In
718 the event of such termination, the municipality may, at its discretion, preserve the local tax
719 incentive by amending the written agreement with the controlling business in the same manner as
720 the municipality approved it and submitting such amendment to the EACC for approval in
721 accordance with this section.

722 (e) If a controlling business has claimed tax credits awarded under this chapter prior to
723 the date on which the EACC makes a determination to revoke project certification, then the
724 recapture provisions of subsection (g) of section 6 of chapter 62 and subsection (i) of section
725 38N of chapter 63 shall apply. If a controlling business has benefited from a local tax incentive
726 under this chapter prior to the revocation of a project certification, then notwithstanding any
727 general law to the contrary, the municipality that offered the local tax incentive may recapture
728 the value of the tax not paid by making a special assessment on the controlling business in the
729 tax year that follows the EACC's decision to revoke project certification. The assessment,
730 payment and collection of the special assessment shall be governed by procedures provided for
731 the taxation of omitted property pursuant to section 75 of chapter 59 notwithstanding the time
732 period set forth in said chapter 59 for which omitted property assessments may be imposed for
733 each of the fiscal years included in the special assessment.

735 economic opportunity area in connection with an application from a municipality seeking the

738 economic target areas, if any, shall be made in accordance with the criteria in subsection (b).
739 Designations of new economic opportunity areas, if any, shall be made at the discretion of the

740 EACC in accordance with regulations to be promulgated by the EACC, or rules or policies
741 adopted by the EACC.

1159 section 3. In determining whether a signature is authentic, the clerk shall apply the same standard
1160 used when certifying signatures for a petition to place a referendum on a local or state ballot.

1161 (c) Not more than 45 days after the public hearing, a municipal governing body, in its
1162 sole discretion, may, by vote of the city council with approval of the mayor in a city and by vote
1163 of the board of selectmen in a town, declare the district organized and describe the boundaries
1164 and service area of the district; provided, however, that in a town with a population of not more
1165 than 10,000, the district shall not be declared organized without a vote by the board of selectmen
1166 and a town meeting. The declaration shall include authorization to municipal staff to enter into
1167 an agreement with the CBD corporation with respect to operations and funding consistent with
1168 the approved initial management plan. Upon such declaration, the CBD may commence
1169 operations.

1170 (d) Notice of the declaration of the organization of the CBD shall be mailed or delivered

1181 Section 5. (a) Each CBD corporation shall have a not for profit board of directors that
1182 shall oversee its operations to insure the implementation of the initial management plan and any
1183 management plan. At least 51 per cent of the board shall be composed of property owners or
1184 their designees, and the remaining members may be a balanced group of stakeholders
1185 representing the community, including residents, municipal government, business tenants and

1189 and filed with the municipal governing body.

1190 (c) The CBD corporation shall comply with the public charity reporting requirements of
1191 section 8F of chapter 12.

1192 Section 6. All real property located within a proposed CBD shall be considered in the fee
1193 formula for supplemental services and programs as outlined in the initial management plan. The
1194 CBD corporation, at its sole discretion, may grant a financial hardship waiver to any property
1195 owner, pursuant to the waiver criteria established within the CBD. A waiver is not intended to be

1196 permanent and shall be requested and granted on an annual basis, and shall be based upon
1197 temporary, extraordinary circumstances. The CBD corporation may also, at its discretion,
1198 approve in-kind contributions or services in addition to, or in lieu of, fees upon execution of a
1199 memorandum of agreement with a property owner.

1200 Section 7. Upon formal approval of a CBD, the municipal governing body shall adopt the
1201 district fee structure for the financing of items submitted in the initial management plan for the
1202 CBD; provided, however, that the total fees assessed in any 1 year may not exceed 1/2 of 1 per
1203 cent of the sum of the assessed valuation of the real property owned by participating members in
1204 the CBD district.

1205 The basis of a district fee may be determined by a formula utilizing at least 1 or a
1206 combination of the following methodologies:

1207 (i) different levels for varying classifications of real property;

1208 (ii) benefit zones;

1209 (iii) assessed valuation;

1210 (iv) building or parcel square footage;

1211 (v) street frontage; or

1212 (vi) any other formula which meets the objectives of the CBD.

1213 The CBD, through its management plan, shall have the option to limit or cap the
1214 maximum annual fee derived from individual properties or the total annual revenue generated by
1215 the CBD.

1216 The initial management plan may also propose a “phase-in” period of not more than 3
1217 years, with assessments increasing over the stated period. The formula for determining the
1218 district fee structure shall be set forth in the original petition as required by section 3.

1219 The CBD may change the formula or the assessment level set forth in the initial
1220 management plan or management plan by 2/3 vote of its board of directors, ratified by vote of
1221 the property owners who are required to pay more than 50 per cent of the assessments. Within 30
1222 days after amendment of the formula or assessment level, the CBD shall file notice of the
1223 changes with the municipal governing body, the undersecretary of housing and community
1224 development and the secretary of housing and economic development.

1225 In addition to receiving funds from the district fee, the CBD corporation may receive
1226 grants, donations, revenues generated from parking fees, CBD activities or gifts on behalf of the
1227 CBD.

1228 Section 8. The collector or treasurer of the municipality may collect district fees in
1229 designated CBDs and disburse the funds to the CBD corporation. In addition to the items
1230 identified in section 3A of chapter 60, the collector or treasurer may include notices for district
1231 fees in the envelope or electronic message in which a property bill is sent.

1232 District fees collected shall be used solely to fund items to further the goals identified and
1233 approved in the initial management plan for the CBD.

1234 The collector or treasurer shall disburse fee revenues to the CBD corporation not later
1235 than 30 days after the collection of such fees, together with any interest earned on those fees.

1236 Following establishment of the CBD, all fees billed by or on behalf of the CBD and
1237 unpaid after 30 days from the date of billing shall become a lien on the property, which shall
1238 have priority over all other liens except municipal liens and mortgages of record prior to the
1239 recording of a notice of lien, if notice of the lien is duly recorded by the CBD corporation in the
1240 appropriate registry of deeds or land court registry district.

1241 Section 9. At any time after the establishment of a CBD pursuant to this chapter, the
1242 district boundaries upon which the establishment was based may, upon the recommendation of
1243 the CBD corporation, be amended by the municipal governing body after compliance with the
1244 procedures set forth in this section.

1245 The CBD corporation shall prepare a petition, consistent with the criteria described in
1246 section 3; provided, however, that if the petition concerns an amendment to expand the district,
1247 the petition shall be accompanied by signatures of the property owners who are required to pay
1248 more than 50 per cent of the assessments in the expanded area. If the petition concerns an
1249 amendment to reduce the size of the district, it shall be accompanied by signatures of the
1250 property owners who are required to pay more than 50 per cent of the assessments levied in the
1251 existing district. The municipal governing body shall hold a public hearing not more than 60
1252 days after its receipt of a petition to amend the district boundaries. In the case of an expansion
1253 petition, written notification of the hearing shall be sent to each property owner within the
1254 proposed expansion area of the CBD not more than 30 days before the hearing, by mailing notice
1255 to the address listed in the property tax records. In the case of a reduction petition, the notice
1256 shall be sent to each property owner in the existing district. For either an expansion or reduction
1257 petition, notification of the hearing shall also be published for 2 consecutive weeks in a
1258 newspaper of general circulation in the area with the last publication being not more than 14 days

1259 before the hearing and shall be listed on the municipality's website. For an expansion petition,
1260 the public notice shall contain the proposed expanded boundaries of the CBD, the fee level, a
1261 summary of supplemental programs and services, and where the property owner may obtain a
1262 full copy of the management plan. For a reduction petition, the public notice shall contain the
1263 proposed reduced boundaries of the CBD and any changes in the fee level, supplemental
1264 programs and services or other material aspects of the management plan that will occur as a
1265 result of the boundary change. Not more than 30 days after the hearing, and upon determination
1266 by the city or town clerk, or designee, that the petition has met the necessary criteria, the
1267 municipal governing body, in its sole discretion, may by a vote declare the district boundaries
1268 amended.

1269 Upon the adoption of an amendment to the district boundaries which increases the size of
1270 the district, owners of property to be added to the district shall be notified of the new boundaries
1271 of the district in accordance with section 4.

1272 Section 10. A CBD may be dissolved by petition to the municipal governing body and a
1273 subsequent decision by that governing body to authorize dissolution.

1274 A petition to dissolve a CBD shall contain the signatures of the property owners who are
1275 required to pay more than 50 per cent of the assessments levied in the district; provided,
1276 however, that the amount of the assessment attributable to property owned by the same property
1277 owner that is in excess of 20 per cent of the amount of all assessments proposed shall not be
1278 included in the calculation.

1279 The municipal governing body shall hold a public hearing not more than 30 days after its
1280 receipt of a petition on the issue of dissolution.

1281 After a public hearing, the municipal governing body may declare the CBD dissolved;
1282 provided, however, that no CBD shall be dissolved until it has satisfied or paid in full all of its
1283 outstanding indebtedness, obligations and liabilities; until funds are on deposit and available
1284 therefore or until a repayment schedule has been formulated and municipally approved. Upon
1285 dissolution, the CBD shall not incur any new or increased financial obligations.

1286 Any liabilities, either current or future, incurred as a result of action to accomplish the
1287 purposes of the management plan shall not be an obligation of the municipality. Liabilities shall
1288 be paid for entirely from revenue gained from the project or facilities authorized, or from the fees
1289 on the properties in the CBD.

1290 Upon the dissolution of a CBD, any remaining revenues derived from the sale of assets
1291 acquired with fees collected shall be refunded to the property owners in the CBD by applying the
1292 same formula used to calculate the fee in the fiscal year in which the CBD is dissolved.

1293 Nothing in this section shall prevent the filing of a subsequent petition for a similar
1294 community benefit district.

1295 Section 11. A CBD may include noncontiguous geographic areas within the municipality.
1296 If the petition proposes such a district, each noncontiguous area shall separately qualify by
1297 meeting the signature threshold in section 3. Once the clerk has determined that the
1298 establishment criteria have been met, the municipality shall consider whether the CBD as a
1299 whole should be approved. A petition to reduce or dissolve a CBD with noncontiguous areas
1300 shall be signed by property owners representing at least 50 per cent of the assessments in the
1301 CBD as a whole. A petition to expand such a CBD shall be signed by property owners
1302 representing 50 per cent of the assessments in the expanded area only. A CBD that includes

1303 noncontiguous areas may set services, programs and fees to take into account the differing
1304 circumstances of each area.

1305 Section 12. A CBD may be located in more than 1 municipality if the petition in each
1306 municipality separately complies with this chapter. Petitioners shall state in each petition
1307 whether they will proceed with establishment if the other municipality or municipalities involved
1308 do not approve the proposed CBD. A petition to reduce a CBD located in more than 1
1309 municipality shall be signed by property owners with 50 per cent of the assessments in that
1310 municipality’s portion of the district. A petition to expand such a CBD shall be signed by
1311 property owners representing 50 per cent of the assessments in the expanded area only. A
1312 petition to dissolve the entire CBD located in more than 1 municipality shall be signed by
1313 property owners representing 50 per cent of the assessments in each municipality. A CBD
1314 located in more than 1 municipality may set services, programs and fees to take into account the

1412 or starter home zoning district;

1413 (b) identify and describe the developable land area within the proposed smart growth
1414 zoning district or starter home zoning district;

1415 (c) as to smart growth zoning districts only, identify and describe other residential
1416 development opportunities for infill housing and the residential re-use of existing buildings and
1417 underutilized buildings within already developed areas;

1418 (d) include any comprehensive housing plan or housing production plan previously
1419 adopted by the city town or, if the city or town has no comprehensive housing plan or housing
1420 production plan, a housing production summary, as set forth in section 8;

1421 (e) include a copy of the proposed smart growth district or starter home zoning
1422 district ordinance or by-law;

1423 (f) by narrative and exhibits, establish the elements set forth in section 6.

1424 Section 6. (a) A proposed smart growth zoning district or starter home zoning district
1425 shall satisfy the following minimum requirements:

1426 (1) Each proposed district shall be located in an eligible location.

1427 (2) The zoning for each proposed smart growth zoning district shall provide for
1428 residential use to permit a mix of housing for families, individuals, persons with special needs
1429 and the elderly.

1430 (3) Housing density in a proposed smart growth district shall be at least: 20 units per
1431 acre for multi-family housing on the developable land area, 8 units per acre for single-family
1432 homes on the developable land area, and 12 units per acre for 2 and 3 family buildings on the
1433 developable land area. Housing density in a proposed starter home district shall satisfy the
1434 following criteria: (a) the density shall be no less than 4 units per acre of developable land area;
1435 (b) the development shall emphasize smart growth principles of development, such as cluster
1436 development and other forms of development providing for common open space usable for
1437 passive or active recreational activities, or the use of low-impact development techniques; and
1438 (c) at least 50 per cent of the starter homes to be developed in a proposed starter home district,
1439 excluding accessory dwelling units, must contain 3 or more bedrooms.

1440 (4) The zoning ordinance or by-law for each proposed smart growth zoning district
1441 shall provide that not less than 20 per cent of the residential units constructed in projects of more
1442 than 12 units shall be affordable housing and shall contain mechanisms to ensure that not less
1443 than 20 per cent of the total residential units constructed in each proposed district shall be
1444 affordable housing.

1445 (5) The zoning ordinance or by-law for each proposed starter home zoning district
1446 shall provide that, as a condition of the increased density permitted in a starter home zoning
1447 district, not less than 20 per cent of the residential units created as starter homes shall be

1448 affordable to and occupied by individuals and families whose annual income is less than 100 per
1449 cent of the area median income as determined by the United States Department of Housing and
1450 Urban Development, and shall contain mechanisms to ensure that the required percentage of the
1451 total residential units constructed in each proposed starter home district shall meet such
1452 affordability requirements, including an affordable housing restriction, as defined in section 31
1453 of chapter 184, that has a term of not less than 30 years.

1454 (6) A proposed smart growth zoning district shall permit infill housing on existing
1455 vacant lots and shall allow the provision of additional housing units in existing buildings,
1456 consistent with neighborhood building and use patterns, building codes and fire and safety codes.

1457 (7) A proposed smart growth zoning district or starter home zoning district shall not
1458 be subject to limitation of the issuance of building permits for residential uses or a local
1459 moratorium on the issuance of such permits. In addition, a proposed starter home zoning district
1460 shall not be subject to any municipal environmental or health ordinances, bylaws or regulations
1461 that exceed applicable requirements of state law or regulation, unless the department of
1462 environmental protection has determined that specific local conditions warrant imposition of
1463 more restrictive local standards, or the imposition of such standards would not render infeasible
1464 the development contemplated under the comprehensive housing plan, housing production plan
1465 or housing production summary submitted as part of the application for such district.

1466 (8) A proposed smart growth zoning district or starter home zoning district shall not
1467 impose restrictions on age or any other occupancy restrictions on the district as a whole. This
1468 shall not preclude the development of specific projects within a smart growth zoning district that
1469 may be exclusively for the elderly, the disabled or for assisted living. Not less than 25 per cent of

1470 the housing units in such a project within a smart growth zoning district shall be affordable
1471 housing, as defined in section 2.

1472 (9) Housing in a smart growth zoning district or starter home zoning district shall
1473 comply with federal, state and local fair housing laws.

1474 (10) A proposed smart growth zoning district or starter home zoning district may not
1475 exceed 15 per cent of the total land area in the city or town. Upon request, the department may
1476 approve a larger land area if such approval serves the goals and objectives of this chapter.

1477 (11) The aggregate land area of all approved smart growth zoning districts and starter
1478 home zoning districts in the city or town may not exceed 25 per cent of the total land area in the
1479 city or town. The department may approve a larger combined land area if the department
1480 determines that such approval serves the goals and objectives of this chapter.

1481 (12) Housing density in any proposed district shall not over burden infrastructure as it
1482 exists or may be practicably upgraded in light of anticipated density and other uses to be retained
1483 in the district.

1484 (13) A proposed smart growth zoning district or starter home zoning district ordinance
1485 or by-law shall define the manner of review by the approving authority in accordance with
1486 section 11 and shall specify the procedure for such review in accordance with regulations of the
1487 department.

1488 (b) A city or town may modify or eliminate the dimensional standards contained in
1489 the underlying zoning in the smart growth zoning district or starter home zoning district
1490 ordinance or by-law in order to support desired densities, mix of uses and physical character. The

1491 standards that are subject to modification or waiver may include, but shall not be limited to;
1492 height, setbacks, lot coverage, parking ratios and locations and roadway design standards.
1493 Modified requirements may be applied as of right throughout all or a portion of the smart growth
1494 zoning district or starter home zoning district, or on a project specific basis through the smart
1495 growth zoning district or starter home zoning district plan review process as provided in the
1496 ordinance or by-law. A city or town may designate certain areas within a smart growth zoning
1497 district or starter home zoning district as dedicated perpetual open space through the use of a
1498 conservation restriction as defined in section 31 of chapter 184 or such other means as may be
1499 created by state law. The amount of such open space shall not be included as developable land
1500 area within the smart growth zoning district or starter home zoning district. Open space may
1501 include an amount of land equal to up to 10 per cent of what would otherwise be the developable
1502 land area if the developable land would be less than 50 acres, and 20 per cent of what would
1503 otherwise be the developable land area if the developable land area would be 50 acres or more.

1504 (c) The zoning for a proposed smart growth zoning district may provide for mixed
1505 use development.

1506 (d) A smart growth zoning district or starter home zoning district may encompass an
1507 existing historic district or districts. A city or town, with the approval of the department, may
1508 establish a historic district in an approved smart growth zoning district or starter home zoning
1509 district in accordance with chapter 40C, so long as the establishment of the historic district meets
1510 the requirements for such a historic district and does not render the city or town noncompliant
1511 with this chapter, as determined by the department. The historic districts may be coterminous or
1512 non-coterminous with the smart growth zoning district or starter home zoning district. Within

1513 any such historic district, the provisions and requirements of the historic district may apply to
1514 existing and proposed buildings.

1515 (e) A city or town may require more affordability than required by this chapter, both
1516 in the percentage of units that must be affordable, and in the levels of income for which the
1517 affordable units must be accessible, provided, however, that affordability thresholds shall not
1518 unduly restrict opportunities for development.

1519 (f) With respect to a city or town with a population of fewer than 10,000 persons, as
1520 determined by the most recent federal decennial census, for hardship shown, the department
1521 may, pursuant to regulations adopted under this chapter, approve zoning for a smart growth
1522 zoning district with lower densities than provided in this chapter, if the city or town satisfies the
1523 other requirements set forth in this section; provided, however, that such approval shall not be
1524 withdrawn solely because, in a future census, the population of the city or town exceeds 10,000
1525 persons.

1526 (g) Any amendment or repeal of a zoning ordinance or by-law affecting an approved
1527 smart growth zoning district or starter home zoning district shall not be effective without the
1528 written approval by the department. Each amendment or repeal shall be submitted to the
1529 department with an evaluation of the effect on the city or town's comprehensive housing plan or
1530 housing production plan, if any. Amendments shall be approved only to the extent that the
1531 district remains in compliance with this chapter. If the department does not respond to a
1532 complete request for approval of an amendment or repeal within 60 days of receipt, the request
1533 shall be deemed approved.

1534 (h) Nothing in this chapter shall affect a city or town's authority to amend its zoning
1535 ordinances or by-laws under chapter 40A, so long as the changes do not affect the smart growth
1536 zoning district or starter home zoning district.

1537 Section 7. (a) On or before October 1 of each year after the year of approval of a district
1538 by the department, the department shall send a smart growth zoning district certificate of
1539 compliance or starter home zoning district certificate of compliance, as applicable, to each city or
1540 town with an approved district. In order to receive such a certificate, the city or town shall verify
1541 within the time specified by the department that:

1542 (1) the city or town has adopted and approved a smart growth zoning district or a
1543 starter home zoning district, as applicable;

1544 (2) the certification has not been revoked by the department;

1545 (3) the district is being developed in a manner that reasonably complies with the
1546 applicable minimum requirements set forth in section 6 for housing density and affordability;

1547 (4) the approving authority has not unreasonably denied plans for projects, or has
1548 only denied plans for projects in a manner consistent with its smart growth zoning district
1549 ordinance or by-law or starter home zoning district ordinance or by-law, as applicable, the city or
1550 town's comprehensive housing plan, housing production plan, or the housing production
1551 summary submitted with the city or town's initial application for approval by the department, as
1552 applicable, and this chapter.

1553 (b) If the department is unable to certify compliance, the department shall hold a
1554 public hearing subject to chapter 30A. If the department concludes that the city or town is in

1555 material noncompliance with the requirements set forth in this section, the department may
1556 revoke certification. A revocation of certification shall be recorded with the registry of deeds or
1557 land court registry district for the county or district within which the city or town is located,
1558 indexed in the grantor index under the name of the city or town. Any revocation of certification
1559 or other sanctions imposed by the department shall not affect the validity of the smart growth
1560 zoning ordinance or by-law or starter home zoning district ordinance or by-law, as applicable, or
1561 the application of such ordinance or by-law to land, development or proposed development
1562 within the smart growth zoning district.

1563 Section 8. A city or town shall submit to the department, concurrently with the city or
1564 town’s application for a letter of eligibility, either an existing comprehensive housing plan, an
1565 existing housing production plan, or a housing production summary. The plan or summary shall
1566 include an estimate of the projected number of units of new construction that could be built in
1567 the proposed smart growth zoning district or starter home zoning district. If a city or town has
1568 already completed a comprehensive housing plan or housing production plan, the city or town
1569 shall submit with its application to the department a description of how the proposed smart
1570 growth zoning district or starter home zoning district relates to and will further the goals of its
1571 comprehensive housing plan or housing production plan, as well as an estimate of the projected
1572 number of units of new construction that could be built within the district.

1573 Section 9. Each city or town with an approved smart growth zoning district or starter
1574 home zoning district shall be entitled to payments pursuant to this section.

1575 (a) The commonwealth shall pay from the trust fund a zoning incentive payment,
1576 according to the following schedule:

1577	Projected Units of	
1578	New Construction	Payment
1579	Up to 20	\$10,000
1580	21 to 100	\$75,000
1581	101 to 200	\$200,000
1582	201 to 500	\$350,000
1583	501 or more	\$600,000

1584 Subject to any conditions imposed by the department as a condition of approving a smart
1585 growth zoning district or starter home zoning district, the zoning incentive payment shall be
1586 payable upon confirmation of approval of the district by the department. The projected number
1587 of units shall be based upon the zoning adopted in the smart growth zoning district or starter
1588 home zoning district, and consistent with either the city or town's comprehensive housing plan or
1589 housing production plan, if any, or the housing production summary submitted in accordance
1590 with section 8.

1591 (b) The commonwealth shall pay from the trust fund a one-time density bonus
1592 payment to each city or town with an approved smart growth zoning district and a one-time
1593 production bonus payment to each city or town with an approved starter home zoning district.
1594 This payment shall be \$3,000 for each housing unit of new construction created in the smart
1595 growth zoning district and \$3,000 for each housing unit of new construction created in the starter
1596 home zoning district. The amount due shall be paid on a unit-by-unit basis in accordance with

1597 department regulations, upon submission by a city or town of proof of issuance of a building
1598 permit for a particular housing unit or units within the district.

1599 (c) The executive office of environmental affairs, the executive office of
1600 transportation, the department of housing and community development and the secretary of
1601 administration and finance shall, when awarding discretionary funds, use a methodology of
1602 awarding such funds that favors cities or towns with approved smart growth zoning districts or
1603 starter home zoning districts and other approved zoning policies or initiatives that encourage
1604 increased affordable housing production in the commonwealth including, but not limited to,
1605 inclusionary zoning.

1606 Section 10. A city or town may adopt, in accordance with the regulations of the
1607 department, design standards applicable to projects undergoing review by the approving
1608 authority, to ensure that the physical character of development within the smart growth zoning
1609 district or starter home zoning district is complementary to adjacent buildings and structures and
1610 is consistent with the city or town's comprehensive housing plan or housing production plan, if
1611 any, and any applicable master plan or plans for the city or town. Such standards may address the
1612 scale and proportions of buildings, the alignment, the width and grade of streets and sidewalks,
1613 the type and location of infrastructure, the location of building and garage entrances, off-street
1614 parking, the protection of significant natural site features, the location and design of on-site open
1615 spaces, exterior signs and buffering in relation to adjacent properties. In a smart growth zoning
1616 district, the standards shall provide for high-density quality development consistent with the
1617 character of building types, streetscapes and other city or town features traditionally found in
1618 densely settled areas of the city or town or in the region of the city or town.

1619 A design standard shall not be adopted if it will add unreasonable costs to residential or
1620 mixed-use developments. A design standard shall not unreasonably impair the economic
1621 feasibility of proposed projects. The department may disapprove a request for the determination
1622 of eligibility for a smart growth zoning district or starter home zoning district on account of a
1623 design standard adding such unreasonable costs or unreasonably impairing such feasibility.
