An Act relative to improving student achievement.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1           SECTION 1. Section 1J of chapter 69 of the General Laws, as appearing in the 2012  
2   Official Edition, is hereby amended by striking out subsection (a) and inserting in place thereof  
3   the following 2 subsections:-

4           (a) Prior to October 1, the commissioner of elementary and secondary education may, on  
5   the basis of student performance data collected pursuant to section 1I, a school or district review  
6   performed under section 55A of chapter 15, or regulations adopted by the board of elementary  
7   and secondary education, designate 1 or more schools in a school district other than a Horace  
8   Mann charter school as a challenge, underperforming or chronically underperforming school.  
9   The board shall adopt regulations establishing standards for the commissioner to make such  
10   designations on the basis of data collected pursuant to section 1I or information from a school or  
11   district review performed under section 55A of chapter 15. Upon the release of the proposed  
12   regulations, the board shall file a copy thereof with the clerks of the house of representatives and

the senate who shall forward the regulations to the joint committee on education. Within 30 days of the filing, the committee may hold a public hearing and issue a report on the regulations and file the report with the board. The board, pursuant to applicable law, may adopt final regulations making revisions to the proposed regulations as it deems appropriate after consideration of the report and shall forthwith file a copy of the regulations with the chairpersons of the joint committee on education and, not earlier than 30 days from the filing, the board shall file the final regulations with the state secretary. Schools that score in the lowest 20 per cent statewide among schools serving common grade levels on a single measure developed by the department that takes into account student performance data and, beginning on July 1, 2011, improvement in student academic performance, shall be deemed eligible for designation as a challenge, underperforming or chronically underperforming school, provided that any school designated as a challenge school shall be drawn from those schools most likely to be designated as underperforming. Not more than 4 per cent of the total number of public schools may be designated as a challenge, underperforming or chronically underperforming school at any given time. All districts with one or more schools designated as underperforming or chronically underperforming shall, within 120 days of having a school so designated, adopt a personnel evaluation system consistent with the guidelines and regulations promulgated by the board pursuant to section 1B and section 38 of chapter 71 subject to approval by the commissioner. If, after bargaining in good faith for 30 days in fulfillment of any requirements for bargaining under an existing district agreement, the parties are unable to reach an agreement for the adoption of such an evaluation system, the school committee shall adopt the model contract agreement developed by the department, or an alternative system subject to the approval of the commissioner.

36 In adopting regulations allowing the commissioner to designate a school as a challenge,  
37 underperforming or chronically underperforming school, the board shall ensure that such  
38 regulations take into account multiple indicators of school quality in making such designations,  
39 including, but not limited to: student attendance rates, dismissal rates and exclusion rates,  
40 promotion rates, graduation rates or the lack of demonstrated significant improvement for 2 or  
41 more consecutive years in core academic subjects, either in the aggregate or among subgroups of  
42 students, including designations based on special education, low-income, English language  
43 proficiency and racial or ethnic classifications.

44 Before a school is designated chronically underperforming by the commissioner, a school  
45 must be designated underperforming and fail to improve.

46 A challenge, underperforming or chronically underperforming school described in the  
47 following subsections shall operate in accordance with laws regulating other public schools,  
48 except as such provisions may conflict with this section or any turnaround plans created  
49 thereunder. A student who is enrolled in a school at the time it is designated as a challenge,  
50 underperforming or chronically underperforming school shall be able to remain enrolled in the  
51 school while remaining a resident of the district if the student chooses to do so.

52 (a $\frac{1}{2}$ )(1) Within 15 days of the commissioner designating a school as a challenge school in  
53 accordance with the regulations developed pursuant to this section, the school committee and the  
54 local teachers union shall meet to negotiate a waiver agreement, if necessary, that identifies any  
55 provisions of the collective bargaining agreement that would be subject to a waiver upon a two-  
56 thirds vote of the teachers working at least 50 per cent of the time in the designated challenge  
57 school. Such waivers shall be designed to permit the implementation of a turnaround plan

developed pursuant to this subsection which may include provisions that are inconsistent with the existing collective bargaining agreement. Such negotiations shall be completed within 30 days of the commissioner designating a school as a challenge school, and shall not be subject to impasse provisions under section 9 of chapter 150E or unilateral implementation after impasse pursuant to chapter 150E. If the school committee and the union fail to reach an agreement, the process provided in this subsection shall be terminated and the commissioner may designate the school as underperforming pursuant to subsection (a).

Within 15 days of the completion of the waiver negotiation process, the superintendent shall convene a local stakeholder group for the purpose of developing a turnaround plan for the school. The local stakeholder group shall include: (i) the superintendent, or a designee; (ii) the chair of the school committee, or a designee; (iii) the president of the local teachers' union, or a designee; (iv) an administrator from the school, who may be the principal, chosen by the superintendent; (v) 2 educators chosen by the faculty of the school, 1 of whom shall be a classroom teacher and 1 of whom shall be a certified non-teaching professional from the school; and (vi) a parent member of the school council established pursuant to section 59C of chapter 71 to be chosen by the school council. Meetings of the local stakeholder group shall be open to the public.

(2) In creating the turnaround plan, the local stakeholder group shall, to the extent practicable, base the plan on student outcome data, including, but not limited to: (i) data collected pursuant to section 1I or information from a school or district review performed under section 55A of chapter 15; (ii) student achievement on the statewide assessment system approved by the board under section 1I of this chapter; (iii) other measures of student achievement, approved by the commissioner; (iv) student promotion and graduation rates; (v) achievement

data for different subgroups of students, including low-income students as defined in chapter 70, limited English-proficient students and students receiving special education; and (vi) student attendance, dismissal rates and exclusion rates.

The local stakeholder group shall also consider, in the creation of the turnaround plan, whether to include the following: (i) steps to address social service and health needs of students at the school and their families, to help students arrive and remain at school ready to learn; provided, however, that this may include mental health and substance abuse screening; (ii) steps to improve or expand child welfare services and, as appropriate, law enforcement services in the school community, in order to promote a safe and secure learning environment; (iii) steps to improve workforce development services provided to students and their families at the school, to provide students and families with meaningful employment skills and opportunities; (iv) steps to address achievement gaps for limited English-proficient, special education and low-income students; and (v) notwithstanding chapter 71A, alternative English language learning programs for limited English proficient students; provided that the school committee may retain said programs after the school is no longer designated as a challenge school. The secretaries of health and human services, labor and workforce development, public safety, health and child welfare officials and other applicable state and local social services, shall coordinate with the superintendent to implement the strategies established pursuant to clauses (i) to (iii), inclusive, of this paragraph that are included in a final turnaround plan and shall, subject to appropriation, reasonably support the implementation, which shall be consistent with the requirements of all state and federal law applicable to the relevant programs to be administered. The secretary of education shall assist the superintendent in facilitating the coordination.

To assess the school across multiple measures of school performance and student success, the turnaround plan shall include measurable annual goals including, but not limited to: (i) student attendance, dismissal rates and exclusion rates; (ii) student safety and discipline; (iii) student promotion and graduation and dropout rates; (iv) student achievement on the statewide assessment system approved by the board under section 1I; (v) progress in areas of academic underperformance; (vi) progress among subgroups of students, including low-income students as defined by chapter 70, limited English proficient students and students receiving special education; (vii) reduction of achievement gaps among different groups of students; (viii) student acquisition and mastery of twenty-first century skills; (ix) development of college and career readiness, including at the elementary and middle school levels; (x) parent and family engagement; (xi) building a culture of academic success among students; (xii) building a culture of student support and success among school faculty and staff; and (xiii) developmentally appropriate child assessments from pre-kindergarten through third grade, if applicable.

(3) The plan shall include provisions intended to maximize the rapid achievement of students at the school by addressing the conditions for school effectiveness as determined by the department. The plan shall identify the specific provisions of the collective bargaining agreement that must be waived in order to implement the plan in accordance with the process set forth in paragraph (1) of this subsection, and shall describe the process and schedule for seeking approval of the plan by the teachers in the school pursuant to paragraph (5) of this subsection.

Notwithstanding any general or special law to the contrary, the turnaround plan may also include provisions that allow the superintendent to: (i) expand, alter or replace the curriculum and program offerings of the school, including the implementation of research-based early literacy programs, early interventions for struggling readers and the teaching of advanced

126 placement courses or other rigorous nationally or internationally recognized courses, if the  
127 school does not already have such programs or courses; (ii) reallocate the uses of the existing  
128 budget of the school; (iii) provide additional funds to the school from the budget of the district, if  
129 the school does not already receive funding from the district at least equal to the average per  
130 pupil funding received for students of the same classification and grade level in the district; (iv)  
131 provide funds, subject to appropriation, to expand the school day or school year or both of the  
132 school; (v) limit, suspend or change 1 or more school district policies or practices that relate to  
133 improved student performance and achievement at the school; (vi) for an elementary school, add  
134 pre-kindergarten and full-day kindergarten classes, if the school does not already have such  
135 classes; (vii) include a provision of job-embedded professional development for teachers at the  
136 school, with an emphasis on strategies that involve teacher input and feedback; (viii) provide for  
137 increased opportunities for teacher planning time and collaboration, including professional  
138 learning communities, focused on improving student instruction; (ix) establish a plan for  
139 professional development for administrators at the school, with an emphasis on strategies that  
140 develop leadership skills and use the principles of distributive leadership; (x) redesign and  
141 refocus the use of existing teacher preparation periods in the school to ensure that such  
142 preparation period is utilized to improve student instruction with an emphasis on improved  
143 student performance and achievement at the school; (xi) develop a strategy to search for and  
144 study best practices in areas of demonstrated deficiency in the school; (xii) establish strategies to  
145 address student attendance, mobility and transiency among the student population of the school;  
146 and (xiii) use formative and summative assessments to track student progress and to inform the  
147 instructional strategies employed in the classroom. The plan may also include a financial plan for  
148 the school based on additional funds to be provided by the district, commonwealth, federal

149 government, private foundations, or other sources to provide additional resources, and may  
150 include a process for modifying the plan.

151 For a school with limited English proficient students, the professional development and  
152 planning time for teachers and administrators shall include specific strategies and content  
153 designed to maximize the rapid academic achievement of limited English proficient students at  
154 the school.

155 (4) The local stakeholder group shall submit an initial turnaround plan to the school  
156 committee within 30 days of its initial meeting. The school committee may propose  
157 modifications to the turnaround plan and shall submit any proposed modifications to the  
158 superintendent within 10 days of receiving the initial plan. The superintendent shall consider and  
159 may incorporate, alter or reject the proposed modifications submitted by the school committee,  
160 and may propose additional modifications to the plan. Within 15 days of receiving any proposed  
161 modifications from the school committee, the superintendent shall issue the final turnaround plan  
162 for the school; provided, however, that if the plan requires any waiver of provisions of the  
163 collective bargaining agreement beyond those authorized by the negotiated agreement pursuant  
164 to paragraph (1) of this subsection, the school committee and the local teachers union shall meet  
165 to negotiate additional waivers. Such negotiations shall be completed within 15 days and shall  
166 not be subject to impasse provisions under section 9 of chapter 150E or unilateral  
167 implementation after impasse pursuant to chapter 150E. If the school committee and the union  
168 fail to reach an agreement, the process provided in this subsection shall be terminated and the  
169 commissioner may designate the school as underperforming pursuant to subsection (a).

(5) The superintendent shall submit the final turnaround plan to the school committee and the teachers in the school for approval, and shall forward a copy of said plan to the commissioner. A two-thirds vote of the teachers shall be required to approve the plan and shall be conducted by the local teachers union. A copy of the plan shall be provided to the faculty at least 5 days in advance of an informational meeting which shall be held at least 5 days in advance of the vote. The vote shall be by secret ballot. For the purposes of this vote, a teacher is any person working at least 50 per cent of the time in the designated challenge school under a license listed in 603 CMR 7.04 (3) (a), (b) or (d). A teacher on an approved leave at the time of the election may vote in such election. A teacher who has prior to such vote given notice to leave the school the following year because of: (i) retirement; (ii) resignation; (iii) voluntary transfer; or (iv) any other reason or who has received notice to leave the school the following year because of involuntary transfer, dismissal or any other reason, shall not be eligible to vote to approve the plan. If a final turnaround plan is not approved within the time frame provided in this subsection, the process provided in this subsection shall be terminated and the commissioner may designate the school as underperforming pursuant to subsection (a). Each turnaround plan shall be authorized for a period of not more than 2 years. The superintendent, as applicable, shall be responsible for meeting the goals of the plan.

(6) Each school designated by the commissioner as a challenge school pursuant to this subsection shall be reviewed by the superintendent, in consultation with the principal of the school, at least annually. The purpose of the review shall be to determine whether the school has met the annual goals in its turnaround plan and to assess the overall implementation of the plan. The review shall be in writing and shall be submitted to the relevant school committee not later

192 than July 1 for the preceding school year and shall be available to the public on the school  
193 district's website.

194 If the superintendent, in consultation with the principal of the school, determines that the  
195 school has met the annual performance goals stated in the turnaround plan, the review shall be  
196 considered sufficient and the implementation of the turnaround plan shall continue. If the  
197 superintendent determines that the school has not met 1 or more goals in the turnaround plan and  
198 that the failure to meet the goals may be corrected through reasonable modification of the plan,  
199 the superintendent may reconvene the local stakeholder group which may amend the turnaround  
200 plan in a manner consistent with the requirements of paragraphs (1) to (5), inclusive; provided,  
201 however, that if a turnaround plan includes a process for modifying the plan, such modifications  
202 shall be implemented in accordance with the provisions of the plan.

203 (7) At a point not more than 2 years after the designation of a school as a challenge  
204 school, the commissioner shall determine whether the school has improved sufficiently, requires  
205 further improvement or has failed to improve. The commissioner may determine that: (i) the  
206 school has improved sufficiently for the designation of the school as a challenge school to be  
207 removed; (ii) the school has improved, but has not improved sufficiently for the designation of  
208 the school as a challenge school to be removed, in which case the superintendent may, with the  
209 approval of the commissioner, reconvene the local stakeholder group for the purposes of  
210 renewing the plan or creating a new or modified plan for an additional period of not more than 2  
211 years, consistent with the requirements of paragraphs (1) to (5), inclusive; or (iii) consistent with

462 fill that enrollment space with a student from the waiting list maintained pursuant to this

482 geographical area in which such school buildings are located as a condition of such lease  
483 agreements; provided, however, that within this geographical preference area, the percentage of  
484 students who qualify for the free or reduced price lunch program is equal to or higher than the

498 the free or reduced price lunch program, as the district as a whole; and (iv) an explanation of  
499 how the charter school will target its recruitment and retention efforts for students within this  
500 geographical area. When any charter school that chooses to offer a geographical preference seeks  
501 charter renewal and intends to continue applying the geographical preference, the board shall  
502 consider whether the preference area continues to support the mission of the charter school and  
503 the academic performance of its students, as well as whether the preference area continues to  
504 serve an adequate percentage of low-income students to qualify as a geographical preference  
505 area under this subsection.

506         In commonwealth charter schools that offer geographical enrollment preferences,  
507 students who reside within the geographical preference area shall have priority for enrollment in  
508 any open seats over students who reside in the city or town in which the charter school is located  
509 but outside of the geographical preference area. In Horace Mann charter schools that offer  
510 geographical enrollment preferences, priority for enrollment shall be given first to students  
511 actually enrolled in the school on the date the application is filed with the board and their

521 offer for admission.
