## The Commonwealth of Massachusetts

In the One Hundred and Eighty-Ninth General Court  
(2015-2016)

An Act establishing a commission on malnutrition prevention.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1           SECTION 1. Chapter 111 of the General Laws, as appearing in the 2014 Official Edition,  
2 is hereby amended by adding the following new section:-

3           Section 236 There shall be a commission on malnutrition prevention within the  
4 department. The commission shall consist of the commissioner of public health or the  
5 commissioner's designee, who shall chair the commission; the secretary of elder affairs or the  
6 secretary's designee; the commissioner of the department of transitional assistance or the  
7 commissioner's designee; the commissioner of the department of agricultural resources or the  
8 commissioner's designee; the co-chairs of the joint committee on elder affairs or their designees;  
9 and nine members to be appointed by the governor, 1 of whom shall be a physician, 1 of whom  
10 shall be a university researcher, 1 of whom shall be a community-based registered dietitian  
11 nutritionist working with older Americans act funded programs, 1 of whom shall be a  
12 representative of hospitals or integrated health systems, 2 of whom shall be nurses working in  
13 home care, 1 of whom shall be a registered dietitian nutritionist working with a long-term care or  
14 assisted living facility, 1 of whom shall be a registered dietitian nutritionist representing the

15 Massachusetts dietetic association, and 1 of whom shall be a representative from the  
16 Massachusetts association of councils on aging, inc.

17           The commission on malnutrition prevention shall make an investigation and  
18 comprehensive study of the effects of malnutrition on older adults in the commonwealth and of  
19 the most effective strategies for reducing it. The commission shall also monitor the effects of  
20 malnutrition among older adults on health care costs and outcomes, quality indicators, and  
21 quality of life measures. In addition, the commission shall: (1) Consider strategies to improve  
22 data collection and analysis to identify malnutrition risk, health care cost data and protective  
23 factors for older adults; (2) Assess the risk and measure the incidence of malnutrition occurring  
24 in various settings across the continuum of care and the impact of care transitions; (3) Identify  
25 evidence-based strategies that raise public awareness of older adult malnutrition such as through  
26 educational materials, social marketing, state-wide campaigns, and public health events; (4)  
27 Identify evidence-based strategies, including community nutrition programs, used to reduce the  
28 rate of malnutrition among older adults and reduce the rate of re-hospitalizations and healthcare  
29 acquired infections related to malnutrition; (5) Consider strategies to maximize the dissemination  
30 of proven, effective malnutrition prevention interventions including community nutrition  
31 programs, medical nutrition therapy, and oral nutrition supplements and identify barriers to those  
32 interventions; (6) Examine the components and key elements of the above malnutrition  
33 prevention initiatives, consider their applicability in the commonwealth and develop strategies  
34 for pilot-testing, implementation and evaluation.
