(iii) strengthening district capacity to use data to make strategic resource allocation decisions; and

(iv) how to establish a data collection and reporting system that:

(2) allows for access to school-level expenditures and data across all districts to inform the public and policy-makers about effective school-level interventions and investments.

The data advisory committee shall report its progress to the board, the chairs of the joint committee on education and the house and senate committees on ways and means not less than semi-annually, by December 1 and June 1 of each year, and shall make recommendations as are necessary for the department to achieve the goals outlined in this section. The department may, in consultation with the data advisory group, develop or procure the data collection and reporting system under clause (iv).
