HOUSE No. 2501

By Mr. O'Day of West Boylston, a petition (accompanied by bill, House, No. 2501) of James J. O'Day and others for legislation to establish a public safety assistance board to assist in the construction of police stations, fire stations and other public safety facilities. Public Safety and Homeland Security.

[SIMILAR MATTER FILED IN PREVIOUS SESSION
SEE HOUSE, NO. 3482 OF 2015-2016.]

The Commonwealth of Massachusetts

—————
**In the One Hundred and Ninetieth General Court
(2017-2018)**
—————

An Act relative to construction and rehabilitation of public safety facilities.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. The General Laws are hereby amended by inserting after chapter 22E the
2 following chapter:-

3 CHAPTER 22F.

4 THE PUBLIC SAFETY ASSISTANCE BOARD

5 Section 1. As used in this chapter, the following words shall, unless the context clearly
6 requires otherwise, have the following meanings:-

7 “Board”, the public safety assistance board.

8 “Capital construction project”, a project for the construction, enlargement or renovation
9 of a municipal police station, fire station or joint public safety facility.

10 “Construction standards”, the standards promulgated by the public safety assistance
11 board, which shall be used to determine the minimum and maximum sizes, including square
12 footage, compliance with health and safety codes, compliance with all applicable provisions of
13 federal, state and local law relative to the accessibility of facilities to handicapped persons, and
14 the scope of design of a municipal police station, fire station, or public safety facility.

15 “Joint public safety facility”, any building constructed, enlarged or renovated with the
16 intent of housing more than 1 public safety agency.

17 Section 2. (a) There is hereby established in the executive office of public safety, a public
18 safety assistance board, which shall consist of 5 members to be appointed by the governor, 1 of
19 whom shall be a representative from the Massachusetts Municipal Association, 1 of whom shall
20 be a representative of the Massachusetts Police Chiefs Association and 1 of whom shall be a
21 representative of the Massachusetts Fire Chiefs Association. The governor shall first appoint 1
22 member for a period of 1 year, 1 member for a period of 2 years, 1 member for a period of 3
23 years, 1 member for a period of 4 years and 1 member for a period of 5 years; provided,
24 however, that appointments made upon the expiration of a term of any member shall thereafter
25 be for a period of 5 years. All members shall be residents of the commonwealth and 1 member
26 shall be designated by the governor, from time to time, as chairman. The secretary of the
27 executive office of public safety, or a designee, shall serve as an ex-officio, non-voting member
28 of said board.

29 (b) The board shall be provided with suitable office space in the executive office of
30 public safety. A majority vote of the board shall constitute action by the board. Any action
31 decided upon by the board shall be in writing and signed by a majority of said board. Each
32 member of the board shall be reimbursed for any expenses actually incurred by him or her in the
33 performance of his or her duties.

34 Section 3. All administrative and clerical duties deemed necessary to carry out the
35 provisions of this chapter shall be carried out by employees within the executive office of public
36 safety, subject to the supervision and control of the board.

37 Section 4. (a) The board shall establish and administer a grant program, to be known as
38 the Public Safety Assistance Program through which the board shall award and prioritize grants
39 to cities and towns for capital construction projects, and to encourage and foster the
40 establishment and building of joint public safety facilities in cities and towns which the board
41 deems appropriate.

42 (b) All such grants made pursuant to this chapter shall be paid from funds in the Public
43 Safety Assistance Fund. No grant shall be approved for any amount greater than 75 per cent of
44 the total construction costs for a police or fire station facility; provided, however, that in the case
45 of a joint public safety facility, a grant may be awarded for up to 90 per cent of the total
46 construction cost. In no case shall a grant include payment for the principal, interest or any other
47 amount obligated to be paid by a city or town in furtherance of a capital construction project. The
48 specific percentage that a city or town is eligible for, if approved, shall be determined in
49 accordance with rules and regulations promulgated by the board pursuant to this act; provided,
50 however, that said rules and regulations shall include provisions to determine the financial

51 obligations of 2 or more cities and towns when applying for a grant for a regional joint public
52 safety facility; provided further that all grant payments shall be made by the public safety
53 assistance board to a city or town in 3 equal payments over a 3 year period.

54 Section 5. Between January 1 and May 1 of each year, a city or town may apply to the
55 board for a grant for a capital construction project, including costs incurred for the preparation of
56 preliminary studies, plans, drawings and estimates related thereto. All applications shall comply
57 with the construction standards promulgated by the board pursuant to this chapter. All
58 application shall be accompanied by required documentation in the form prescribed by the board,
59 including copies of the plans, drawings, estimates and other construction documents, together
60 with such additional information as the board may require.

61 Section 6. (a) The board shall establish criteria for making a decision to approve or reject
62 the grant application for a capital construction project, and to determine the amount of such a
63 grant; provided, however, that each application shall be placed in one of the following 3
64 categories as determined by the population of the city or town in which the capital construction
65 project will take place: (1) cities or towns with a population of not more than 25,000; (2) cities
66 and towns with a population of more than 25,000 but not more than 75,000; and (3) cities and
67 towns with a population greater than 75,000. In making a decision to approve or reject an
68 application, the board shall consider each category separately and shall in no case cause
69 applicants from 1 category to compete for funding against applicants from any other category
70 except the category in which the application was placed. The population of a city or town shall
71 be determined pursuant to the most recent census figures.

72 (b) The board may vote to approve or reject such application after it is satisfied that: (1)
73 the plans so submitted are satisfactory with respect to site, type and adequacy of the proposed
74 construction or renovation; (2) that such a capital construction project is in the best interest of the
75 respective city or town; (3) the city or town has demonstrated the ability and commitment to
76 adequately maintain a new facility according to standards set forth by the public safety assistance
77 board; and (4) the expenses so incurred are reasonable.

78 (c) After a vote which results in the approval of an application, the board shall then list all
79 approved applications in order of priority and according to the 3 categories pursuant to
80 subsection (a). Subject to availability of funding, the board shall certify to the comptroller for
81 payment to such city or town, not exceeding such expenses, as it may deem proper. A city or
82 town which has an approved capital construction project that has been prioritized by the board
83 shall be notified of their ranking and said project shall not be removed from, or have its position
84 altered on, the priority list until a grant has been awarded to such city or town except when
85 conditions beyond the control of any city or town result in the destruction of an existing police or
86 fire facility, necessitating immediate action from the board.

87 Section 7. The board may enter into contracts for technical service within the scope of its
88 duties, to provide legal, architectural or other technical advice and assistance to all applicants in
89 the planning, building or renovating of police and fire station facilities.

90 (b) The board shall promulgate rules and regulations necessary to carry out the provisions
91 of this chapter relative to capital construction project applications; provided, however, that said
92 rules and regulations include standards to be known as “construction standards” which shall
93 include a requirement that all police station facilities shall be designed to include a so-called,

94 community meeting room; and provided, further that the board shall establish a formula for the
95 equitable distribution of revenues from the Public Safety Assistance Fund for each of the 3
96 categories of applications pursuant to subsection (a) of section 6.

97 Section 8. The board may recommend to the general court such legislation as it may
98 deem desirable or necessary to further the purposes of this chapter. The board shall submit
99 biannual reports to the house and senate committees on ways and means and to the joint
100 committee on public safety. Said reports shall include, but not be limited to, a listing of
101 applications received and approved by the board to receive a grant under both grant programs,
102 together with the amount of each such grant, and a listing of cities and towns whose applications
103 have not been approved, together with the reason for failure to approve such applications.

104 Section 9. (a) Any city or town which engages in a capital construction project using
105 funds from a grant pursuant to this chapter shall not be eligible to apply for or receive a grant
106 pursuant to this chapter for the construction or rehabilitation of the building which was the
107 subject of said capital construction project for a period of 20 years; provided, however, that the
108 board may waive the provisions of this section when conditions beyond the control of a city or
109 towns severely damage or destroy the building which was previously the subject of a capital
110 construction project.

111 (b) A city or town which engages in a capital construction project using funds from a
112 grant pursuant to this chapter shall not hire an individual or company to work on said project in
113 any manner without proof that said individual or company shall pay to its employees the current
114 prevailing wage in the commonwealth. Such proof shall be furnished to the board in the form of

115 an affidavit signed by the owner of the business contracted to perform work, or the agent of such
116 owner.

117 SECTION 2. Chapter 29 of the General Laws is hereby amended by inserting after
118 section 2QQQQ, inserted by section 14 of chapter 359 of the acts of 2014, the following section:-

119 There shall be established and set up on the books of the commonwealth a Public Safety
120 Assistance Fund which shall be administered by the public safety assistance board.
121 Notwithstanding any general or special law to the contrary, the following monies shall be
122 credited to the fund: (i) any appropriations, grants, gifts or other monies authorized by the
123 general court or other parties and specifically designated to be credited to the fund; and (ii) any
124 income derived from the investment of amounts credited to the fund. All amounts credited to the
125 fund shall be used without further appropriation for the purpose of administering the Public
126 Safety Assistance Program and any other program established pursuant to chapter 22F. No
127 expenditure from the fund shall cause the fund to be in deficiency at the close of a fiscal year.
128 Monies deposited in the fund that are unexpended at the end of the fiscal year shall not revert to
129 the General Fund and shall be available for expenditure in the subsequent year. The fund shall be
130 exempt from the indirect and fringe benefits that would otherwise be assessed pursuant to this
131 chapter.

132 SECTION 3. Notwithstanding any general or special law to the contrary, any city or town
133 which has certified blueprints for a police station, fire station or joint public safety facility prior
134 to the effective date of this act, and who shall act in furtherance of said blueprints within 1 year
135 of the effective date of this act by commencing the capital construction project, as defined in

136 section 1 of chapter 22F of the General Laws shall not be subject to the construction standards
137 promulgated by the board pursuant to section 5 of said chapter 22F.

138 SECTION 4. The public safety assistance board shall begin making awards and ranking
139 applications in order of priority pursuant to chapter 22F of the General Laws no later than
140 January 1 of the year following the effective date of this act. Each year thereafter said grants
141 shall be awarded on or before September 1.

142 SECTION 5. The public safety assistance board shall promulgate the rules and
143 regulations required under subsection (b) of section 7 of chapter 22F of the General Laws no
144 later than September 15 of the year following the effective date of this act.
