\_\_\_\_\_

An Act relative to advancing contraceptive coverage and economic security in our state (ACCESS).

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1           SECTION 1. Chapter 32A of the General Laws, as appearing in the 2014 Official  
2       Edition, is hereby amended by inserting after section 27 the following section:

3           Section 28. (a) Any coverage offered by the commission to any active or retired  
4       employee of the commonwealth insured under the group insurance commission shall provide  
5       coverage for:

6           (1) all Food and Drug Administration ("FDA")-approved contraceptive drugs, devices  
7       and other products. This includes all FDA-approved contraceptive drugs, devices, and products,  
8       as prescribed by the enrollee's provider or otherwise authorized under state or federal law. The  
9       following apply:

(i) If there is a therapeutic equivalent of an FDA-approved contraceptive drug, device, or product, the Commission shall provide coverage for either the original FDA-approved contraceptive drug, device, or product or at least one of its therapeutic equivalents; and

(ii) If the covered contraceptive drug, device, or product is deemed medically inadvisable by the covered person's provider, the Commission shall defer to the determination and judgment of the attending provider and provide coverage for an alternate prescribed contraceptive drug, device, or product;

(2) all FDA-approved contraceptive drugs available over the counter without a prescription;

(3) a single dispensing to an enrollee of a supply of prescription contraceptives for a 12-month period;

(4) voluntary sterilization procedures;

(5) patient education and counseling on contraception; and

(6) follow-up services related to the drugs, devices, products and procedures covered under this subsection, including, but not limited to, management of side effects, counseling for continued adherence, and device insertion and removal.

(b) (1) Coverage provided under this subsection shall not be subject to any deductible, coinsurance, copayment or any other cost-sharing requirement. Any coverage offered by the commission shall not impose any restrictions or delays in the coverage, including medical management techniques such as denials, step therapy, or prior authorization.

(2) Benefits for an enrollee under this section shall also be provided for such enrollee's covered spouse and covered dependents.

(3) Nothing in this section shall be construed to exclude coverage for contraceptive drugs, devices, products and procedures as prescribed by a provider, acting within the his/her scope of practice, for reasons other than contraceptive purposes, such as for decreasing the risk of ovarian cancer or eliminating symptoms of menopause or for contraception that is necessary to preserve the life or health of such enrollee, or such enrollee's covered spouse, and/or covered dependents.

(4) Nothing in this section shall be construed to deny or restrict in any way the group insurance commission's authority to ensure plan compliance with this chapter.

(5) Nothing in this section shall be construed to require the commission to cover experimental or investigational treatments.

(c) For purposes of this section, the following definitions shall apply, unless the context clearly requires otherwise:

"Provider", an individual or facility licensed, certified, or otherwise authorized or permitted by law to administer health care in the ordinary course of business or professional practice.

Contraceptive drugs, devices, or products classified as "therapeutic equivalents" means (1) they are approved as safe and effective; and (2) they are pharmaceutical equivalents in that they (a) contain identical amounts of the same active drug ingredient in the same dosage form and route of administration, and (b) meet compendial or other applicable standards of strength, quality, purity, and identity; provided further that to be considered a "therapeutic equivalent", the

contraceptive drugs, devices, or products must be assigned the same therapeutic equivalence code by the FDA.

SECTION 2. Chapter 118E of the General Laws, as so appearing, is hereby amended by inserting after section 10I the following section:

10J (a) The division and its contracted health insurers, health plans, health maintenance organizations, behavioral health management firms and third-party administrators under contract to a Medicaid managed care organization or primary care clinician plan shall provide coverage for:

(i) If there is a therapeutic equivalent of an FDA-approved contraceptive drug, device, or product, the division shall provide coverage for either the original FDA-approved contraceptive drug, device, or product or at least one of its therapeutic equivalents; and

(ii) If the covered contraceptive drug, device, or product is deemed medically inadvisable by the covered person's provider, the division shall defer to the determination and judgment of the attending provider and provide coverage for an alternate prescribed contraceptive drug, device, or product;

(2) all FDA-approved contraceptive drugs available over the counter without a prescription;

(3) a single dispensing to a beneficiary of a supply of prescription contraceptives for a 12-month period;

(4) voluntary sterilization procedures;

(5) patient education and counseling on contraception; and

(6) follow-up services related to the drugs, devices, products and procedures covered under this subsection, including, but not limited to, management of side effects, counseling for continued adherence, and device insertion and removal.

(b) (1) The division shall not impose a deductible, coinsurance, copayment or any other cost-sharing requirement on the coverage provided pursuant to this subsection. Cost sharing shall not be imposed on any person with coverage under this chapter.

The division shall not impose any restrictions or delays on the coverage required under this section, including medical management techniques such as denials, step therapy, or prior authorization.

(2) Benefits for an enrollee under this section shall be the same for such enrollee's covered spouse and covered dependents.

(3) Nothing in this section shall be construed to exclude coverage for contraceptive drugs, devices, products and procedures as prescribed by a provider, acting within his/her scope of practice, for reasons other than contraceptive purposes, such as decreasing the risk of ovarian cancer or eliminating symptoms of menopause or for contraception that is necessary to preserve the life or health of such enrollee, or such enrollee's covered spouse and/or covered dependents.

(4) Nothing in this section shall be construed to deny or restrict in any way the division of medical assistance's authority to ensure its contracted health insurers, health plans, health maintenance organizations, behavioral health management firms and third-party administrators under contract to a Medicaid managed care organization or primary care clinician plan are in compliance with this chapter.

(5) Nothing in this section shall be construed to require the division to cover experimental or investigational treatments.

(c) For purposes of this section, the following definitions shall apply, unless the context clearly requires otherwise:

"Provider", an individual or facility licensed, certified, or otherwise authorized or permitted by law to administer health care in the ordinary course of business or professional practice.

173 is substantially less than the cost of providing such goods, services, or facilities; and

(ii) normally receives more than 25 percent of its support from either (I) governmental sources, or (II) receipts from admissions, sales of merchandise, performance of services, or furnishing of facilities, in activities which are not unrelated trades or businesses, or both.
