An Act to protect innovation and entrepreneurship in the Commonwealth.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1           SECTION 1. The general laws are hereby amended by inserting after chapter 93K the  
2 following new chapter:–

3           CHAPTER 93L

4           BAD FAITH ASSERTIONS OF PATENT INFRINGEMENT

5           Section 1. As used in this chapter, the following words shall have the following meanings  
6 unless the context clearly requires otherwise:–

7           “Assertion of patent infringement”, means (i) sending or delivering a demand letter to a  
8 target; (ii) threatening a target with litigation asserting, alleging or claiming that the target has  
9 engaged in patent infringement; (iii) sending or delivering a demand letter to the customers of a  
10 target; or (iv) otherwise making claims or allegations, other than those made in litigation against

11 a target, that a target has engaged in patent infringement or that a target should obtain a license to  
12 a patent in order to avoid litigation.

13 “Demand letter”, means a letter, e-mail, or other communication asserting, alleging or  
14 claiming that the target has engaged in patent infringement or that a target should obtain a license  
15 to a patent in order to avoid litigation, or any similar assertion.

16 “Person” shall include, where applicable, natural persons, corporations, trusts,  
17 partnerships, incorporated or unincorporated associations, and any other legal entity.

18 “Target”, means a person residing in, conducting substantial business in, or having its  
19 principal place of business in Massachusetts and with respect to whom an assertion of patent  
20 infringement is made.

21 Section 2. A person shall not make, in bad faith, an assertion of patent infringement. In  
22 determining whether a person has made an assertion of patent infringement in bad faith, a court  
23 may consider the following:

24 (a) The demand letter does not contain the following information:

25 (1) the patent number;

26 (2) the name and address of the patent owner or owners and assignee or assignees, if any;

27 and

28 (3) factual allegations concerning the specific areas in which the target’s products,  
29 services, and technology infringe the patent or are covered by the claims in the patent.

30 (b) Prior to sending the demand letter, the person fails to conduct an analysis comparing  
31 the claims in the patent to the target's products, services, and technology, or such an analysis was  
32 done but does not identify specific areas in which the products, services, and technology are  
33 covered by the claims in the patent.

34 (c) The demand letter lacks the information described in subsection (a), the target  
35 requests the information, and the person fails to provide the information within a reasonable  
36 period of time.

37 (d) The demand letter demands payment of a license fee or response within an  
38 unreasonably short period of time.

39 (e) The person offers to license the patent for an amount that is not based on a reasonable  
40 estimate of the value of the license.

41 (f) The claim or assertion of patent infringement is meritless, and the person knew, or  
42 should have known, that the claim or assertion is meritless.

43 (g) The claim or assertion of patent infringement is deceptive.

44 (h) The person or its subsidiaries or affiliates have previously filed or threatened to file  
45 one or more lawsuits based on the same or similar claim of patent infringement and:

46 (1) those threats or lawsuits lacked the information described in subsection (a); or

47 (2) the person attempted to enforce the claim of patent infringement in litigation and a  
48 court found the claim to be meritless.

49 (i) Any other factor the court finds relevant.

50 (j) A court may consider the following factors as evidence that a person has not made an  
51 assertion of patent infringement in bad faith:

52 (1) The demand letter contains the information described in subsection (1) of this section.

53 (2) Where the demand letter lacks the information described in subsection (1) and the  
54 target requests the information, the person provides the information within a reasonable period of  
55 time.

56 (3) The person engages in a good faith effort to establish that the target has infringed the  
57 patent and to negotiate an appropriate remedy.

58 (4) The person makes a substantial investment in the use of the patent or in the  
59 production or sale of a product or item covered by the patent.

60 (5) The person is:

61 (a) the inventor or joint inventor of the patent or, in the case of a patent filed by and  
62 awarded to an assignee of the original inventor or joint inventor, is the original assignee; or

63 (b) an institution of higher education or a technology transfer organization owned or  
64 affiliated with an institution of higher education.

65 This section shall not apply to:

66 (A) Any party who is currently making significant investments in:

67 (i) research and development, where development means technical or experimental work  
68 to create, test, qualify, modify, or validate technologies or processes for commercialization of  
69 goods or services;

- 70 (ii) manufacturing;
- 71 (iii) the provision of goods or commercial services; or
- 72 (iv) a combination of any of the areas of business described in clauses (i) through (iv).

73 (B) Any party whose business is the licensing of patents and has affiliated entities who  
74 are currently making significant investments in any of the areas of business described in  
75 subparagraph (A).

76 (C) Any institution of higher education, public or private, or non-profit research institute,  
77 or an organization which has as one of its primary functions the management of inventions on  
78 behalf of the aforementioned entities.

79 Section 3. A target of conduct involving assertions of patent infringement, or a person  
80 aggrieved by a violation of this chapter may bring an action in Superior Court. A court may  
81 award the following remedies to a plaintiff who prevails in an action brought pursuant to this  
82 chapter:

- 83 (i) equitable relief;
- 84 (ii) damages;
- 85 (iii) costs and fees, including reasonable attorney's fees; and
- 86 (iv) exemplary damages in an amount equal to \$50,000.00 or three times the total of  
87 damages, costs, and fees, whichever is greater.

88 Section 4. (a) The Attorney General shall have the same authority under this Chapter to  
89 make rules, conduct civil investigations, bring civil actions, and enter into assurances of

90 discontinuance as provided under Chapter 93A. In an action brought by the Attorney General  
91 pursuant to this Section, the court may award or impose any relief available under this Chapter.

92 (b) A target or a person aggrieved by a violation of this Chapter or by a violation of rules  
93 adopted under this Chapter may bring an action in superior court against a person who has made  
94 a bad-faith assertion of patent infringement. A court may award to a plaintiff who prevails in an  
95 action brought pursuant to this subsection one or more of the following remedies:

96 (1) Equitable relief

97 (2) Damages

98 (3) Costs and fees, including reasonable attorneys' fees

99 (4) Exemplary damages in an amount equal to fifty thousand dollars (\$50,000) or three  
100 times the total of damages, costs, and fees, whichever is greater.

101 (c) A court may award to a defendant who prevails in an action brought pursuant to this  
102 section costs and fees, including reasonable attorneys' fees, if the court finds the action was not  
103 well-grounded in fact and warranted by existing law or was interposed for any improper purpose,  
104 such as to harass or to cause unnecessary delay or needless increase in the cost of litigation.

105 (d) Joinder of Interested Parties. In an action arising under subsection (a) or (b) of this  
106 section, the court shall grant a motion by the Attorney General or a target to join an interested  
107 party if the moving party shows that the party alleging infringement has no substantial interest in  
108 the patent or patents at issue other than making demands or asserting such patent claim in  
109 litigation.

110 (e) In an action arising under subsection (a) or (b) of this section, any person who has  
111 delivered or sent, or caused another to deliver or send, a demand to a target in Massachusetts has  
112 purposefully availed himself or herself of the privileges of conducting business in the  
113 Commonwealth and shall be subject to suit in the Commonwealth, whether or not the person is  
114 transacting or has transacted any other business in the Commonwealth.

115 (f) If a party is unable to pay an amount awarded by the court pursuant to subsection (a)  
116 or (b) of this section, the court may find any interested party joined pursuant to subsection (d) of  
117 this section jointly and severally liable for the abusive patent assertion and make the award  
118 recoverable against any or all of the joined interested parties.

119 (g) This Chapter shall not be construed to limit rights and remedies available to the  
120 Commonwealth of Massachusetts or to any person under any other law and shall not alter or  
121 restrict the Attorney General's authority under this Chapter.
