2507 services among the network of providers;

2508 (v) a plan in which there is a separate reduced or eliminated cost-sharing differential for
2509 high value health care services relative to other services covered by the plan; or

2510 (vi) a plan compatible with a health savings account authorized under federal law, a
2511 health plan design in which enrollees are directly incentivized to shop for low-cost, high-quality
2512 participating providers for comparable health care services; provided, that incentives may
2513 include, but shall not be limited to, cash payments, gift cards or credits or reductions of
2514 premiums, copayments or deductibles.

2515 (c) Annually, the commissioner shall determine the base premium rate discount compared
2516 to the base premium of the carrier's most actuarially-similar plan with the carrier's non-selective
2517 or non-tiered network of providers under clauses (i) and (ii) of subsection (b). The savings may
2518 be achieved by means including, but not limited to: (i) the exclusion of providers with similar or
2519 lower quality based on the standard quality measure set with higher health status adjusted total
2520 medical expenses or relative prices, as determined pursuant to the methodology under section 52
2521 of chapter 288 of the Acts of 2010; or (ii) increased member cost-sharing for members who
2522 utilize providers for non-emergency services with similar or lower quality based on the standard
2523 quality measure set and with higher health status adjusted total medical expenses or relative

2524 prices, as determined pursuant to the methodology under said section 52 of chapter 288 of the
2525 Acts of 2010.

2526 The commissioner may apply waivers to the base premium rate discount determined by
2527 the commissioner under this section to carriers that receive not less than 80 per cent of their
2528 incomes from government programs or that have service areas that do not include an area within
2529 the boundaries of the abolished counties of Suffolk or Middlesex and that were first admitted to
2530 do business by the division of insurance not later than January 1, 1986 as health maintenance
2531 organizations under chapter 176G.

2532 (d) The commissioner shall require a plan under paragraph (iii) of subsection (b) to have
2533 at least 1 tier that provides the base premium rate discount. A carrier may include any of its
2534 participating providers in a plan under paragraph (iii) of subsection (b) only if a provider
2535 receives reasonable information on plan performance from the carrier pursuant to the plan.

2536 (e) A tiered network plan shall only include variations in member cost-sharing among
2537 provider tiers that are reasonable in relation to the premium charged and shall ensure adequate
2538 access to covered services. Carriers shall tier providers based on quality performance as
2539 measured by the standard quality measure set and by cost performance as measured by health
2540 status adjusted total medical expenses and relative prices. If applicable quality measures are not
2541 available, tiering may be based solely on health status adjusted total medical expenses or relative
2542 prices or both.

2543 The commissioner shall promulgate regulations requiring the uniform reporting of tiering
2544 information by carriers. The regulations shall include, but not be limited to, a requirement that a
2545 carrier that is implementing a tiered network plan or is modifying the tiering methodology for an
2546 existing tiered network plan shall report a detailed description of the methodology used for the
2547 tiering of providers to the commissioner not less than 90 days before the effective date of the
2548 plan or modification. The description shall include, but not be limited to: (i) the statistical basis
2549 for tiering; (ii) a list of providers to be tiered at each member cost-sharing level; (iii) a
2550 description of how the methodology and resulting tiers shall be communicated to each network
2551 provider, eligible individuals and small groups; (iv) a description of the appeals process a
2552 provider may pursue to challenge the assigned tier level; and (v) the utilization of a variable

2553 premium amount based on tier designation for the primary care provider selected by the member,
2554 if any.

2555 (f) The commissioner shall determine network adequacy: (i) for a tiered network plan
2556 based on the availability of sufficient network providers in the carrier's overall network of
2557 providers; and (ii) for a selective network plan based on the availability of sufficient network
2558 providers in the carrier's selective network.

2559 In determining network adequacy under this section, the commissioner may consider
2560 factors including the location of providers participating in the plan and employers or members
2561 that enroll in the plan, the range of services provided by providers in the plan and plan benefits
2562 that recognize and provide for extraordinary medical needs of members that may not be
2563 adequately dealt with by the providers within the plan network.

2564 (g) A carrier may reclassify provider tiers and determine provider participation in
2565 selective and tiered plans not more than once per calendar year; provided, however, that a carrier
2566 may reclassify a provider from a higher cost tier to a lower cost tier or add a provider to a
2567 selective network at any time. If a carrier reclassifies provider tiers or providers participating in a
2568 selective plan during the course of an account year, the carrier shall provide notice to affected
2569 members of the account that shall include information regarding the plan changes not less than
2570 30 days before the changes are to take effect. A carrier shall provide information on the carrier's
2571 website about any tiered or selective plan including, but not limited to, the providers
2572 participating in the plan, the selection criteria for those providers and, where applicable, the tier
2573 in which each provider is classified.

2574 (h) The commissioner shall review plans under clauses (iv) and (v) of subsection (b) in a
2575 manner consistent with other products offered in the commonwealth. The commissioner may
2576 disapprove a plan established pursuant to clause (iv) or (v) of subsection (b) if it determines that
2577 the carrier-differentiated cost-sharing obligations are solely based on the provider. There shall be
2578 a rebuttable presumption that a plan has violated this subsection if the cost-sharing obligation for
2579 the services provided by a provider, including a health care facility, accountable care
2580 organization, patient-centered medical home or provider organization, is the same cost-sharing
2581 obligation without regard for the types of services provided pursuant to clause (iv) or (v).

2582 When reviewing a plan established pursuant to clauses (iv) and (v) of subsection (b), the
2583 commissioner shall ensure that the plan promotes: (i) the avoidance of consumer confusion; (ii)
2584 the minimization of administrative burdens on payers and providers in implementing the plan;
2585 and (iii) allowing for patients to receive services in appropriate locations.

2586 (i) The commissioner shall make publicly available on the commissioner’s website: (i) a
2587 description of each plan offered under this section, including a list of providers or services by tier
2588 or a list of providers included in a selective network plan; (ii) membership trends for each plan
2589 offered under this section; (iii) the extent to which plans offered under this section have reduced
2590 health care costs for patients and employers; and (iv) the effect of plans offered under this
2591 section on provider mix and other factors impacting overall state health care costs. The
2592 commissioner shall ensure that the information is updated not less than annually.

2593 Nothing in this section shall exempt an insurance carrier or product from state and federal
2594 mental health parity and addiction equity laws, including those codified at 42 U.S. Code §
2595 300gg-26, and regulations implemented pursuant to section 8K of chapter 26. Nothing in this
2596 section shall create a lesser standard of scrutiny for parity compliance for any reduced, tiered or
2597 discounted plan established pursuant to this section.

2598 SECTION 131. Said chapter 176J is hereby further amended by adding the following
2599 section:-

2600 Section 18. Upon request by a network provider, a carrier and, if applicable, a specialty
2601 organization subcontracted by a carrier to manage behavioral health services, shall disclose the
2602 methodology used for a provider's tier placement, including: (i) the criteria, measures, data
2603 sources and provider-specific information used in determining the provider's quality score; (ii)
2604 how the provider's quality performance compares to other in-network providers; and (iii) the data
2605 used in calculating the provider's cost-efficiency. A carrier may require a network provider to
2606 hold information received under this section confidential.

2607 SECTION 132. Section 1 of chapter 176O of the General Laws, as appearing in the 2016
2608 Official Edition, is hereby amended by inserting after the definition of “Incentive plan” the
2609 following definition:-

2614 amended by inserting after the definition of “Network” the following 3 definitions:-

2615 “Noncontracted commercial rate for emergency services”, the amount set pursuant to
2616 section 16A of chapter 6D and used to determine the rate of payment to a health care provider for
2617 the provision of emergency health care services to an insured when the health care provider is
2618 not in the carrier’s network.

2619 “Noncontracted commercial rate for nonemergency services”, the amount set pursuant to
2620 section 16A of chapter 6D and used to determine the rate of payment to a health care provider for
2621 the provision of nonemergency health care services to an insured when the health care provider
2622 is not in the carrier’s network.

2623 “Nonemergency services”, health care services rendered to an insured experiencing a
2624 condition other than an emergency medical condition.

2625 SECTION 134. Clause (a) of section 7 of said chapter 176O, as so appearing, is hereby
2626 amended by striking out clause (1) and inserting in place thereof the following clause:-

2628 location, along with a summary on its internet website for each provider that shall include: (i) the
2629 method used to compensate or reimburse the provider, including details of measures and
2630 compensation percentages tied to any incentive plan or pay for performance provision; (ii) the
2631 provider price relativity, as reported under section 10 of chapter 12C ; (iii) the provider's health

2634 by the secretary of health and human services pursuant to section 16AA of chapter 6A; provided,
2635 however, that if any specific provider or type of provider requested by an insured is not available
2636 in the network or is not a covered benefit, the information shall be provided in an easily
2637 obtainable manner; provided further, that the carrier shall prominently promote providers based

2638 on quality performance as measured by the measures established by the secretary of health and
2639 human services pursuant to said section 16AA of said chapter 6A and cost performance as
2640 measured by health status adjusted total medical expenses and relative prices.

2641 SECTION 135. Section 9A of said chapter 176O, as so appearing, is hereby amended by
2642 inserting after the word “approval”, in line 15, the following words:- unless the provider is
2643 included in a tier for a set of shoppable health care services pursuant to clause (iv) of subsection
2644 (b) of section 11 of chapter 176J.

2650 conform to the uniform methodology for a provider’s tier designation developed pursuant to
2651 section 20A of chapter 12C.

2652 SECTION 138. Said chapter 176O is hereby further amended by adding the following 3
2653 sections:-

2654 Section 28. (a) As used in this section, the following words shall have the following
2655 meanings unless the context clearly requires otherwise:

2656 “Facility fee”, a fee charged or billed by a hospital or health system for outpatient
2657 hospital services provided in a hospital-based facility that is intended to compensate the hospital
2658 or health system for the operational expenses of the hospital or health system and is separate and
2659 distinct from a professional fee.

2660 “Health system”, shall have the same meaning as “Provider Organization or Health
2661 System or System”, as provided by the health policy commission.

2662 “Hospital”, a hospital licensed pursuant to section 51 of chapter 111.

2669 patient receiving such a service with written notice of the fee. The notice shall include a
2670 statement that the patient may be billed separately for that facility fee and the expected amount
2671 of the facility fee.

2674 appointment is made, the hospital or health system shall provide written notice and explanation
2675 to the patient by first class mail, encrypted electronic means or a secure patient Internet portal

2695 received services at the now designated hospital-based facility during the previous calendar year.
2696 The written notice shall be provided not later than 30 days after the designation and shall state
2697 that: (i) the location is now considered to be a hospital-based facility; (ii) certain health care
2698 services delivered at the facility may result in separate bills for services from the hospital and the
2699 provider; and (iii) patients seeking care at the facility may incur additional financial liability at
2700 that location due its hospital-based facility status.

2701 (2) If a hospital or health system designates a location as a hospital-based facility,

2718 chapter 111.

2719 (c) Nothing in this section shall prohibit a carrier from restricting the reimbursement of
2720 facility fees beyond the limitations set forth in section 51K of chapter 111.

2721 Section 30. (a)(1) A carrier shall reimburse a health care provider as follows:

2722 (i) where the health care provider is a member of an insured's carrier's
2723 network but not a participating provider in the insured's health benefit plan and the health care
2724 provider has delivered health care services to the insured to treat an emergency medical
2725 condition, the carrier shall pay that provider the in-network contracted rate for each delivered
2726 service; provided, however, that such payment shall constitute payment in full to that health care
2727 provider and the provider shall not bill the insured except for any applicable copayment,
2728 coinsurance or deductible that would be owed if the insured received such service or services
2729 from a participating health care provider under the terms of the insured's health benefit plan;

2730 (ii) where the health care provider is not a member of an insured's
2731 carrier's network and the health care provider has delivered health care services to the insured to

2736 if the insured received such service or services from a participating health care provider under
2737 the terms of the insured's health benefit plan;

2738 (iii) where the health care provider is a member of an insured's carrier's
2739 network but not a participating provider in the insured's health benefit plan and the health care
2740 provider has delivered nonemergency health care services to the insured and a participating
2741 provider in the insured's health benefit plan is unavailable or the health care provider renders
2742 those nonemergency health care services without the insured's knowledge, the carrier shall pay
2743 that provider the in-network contracted rate for each delivered service; provided, however, that
2744 such payment shall constitute payment in full to the health care provider and the provider shall
2745 not bill the insured except for any applicable copayment, coinsurance or deductible that would be
2746 owed if the insured received such service from a participating health care provider under the
2747 terms of the insured's health benefit plan; and

2748 (iv) where the health care provider is not a member of an insured's
2749 carrier's network and the health care provider has delivered nonemergency services to the

2750 insured and a participating provider in the insured's health benefit plan is unavailable or the
2751 health care provider renders those nonemergency health care services without the insured's
2752 knowledge, the carrier shall pay the provider the noncontracted commercial rate for
2753 nonemergency services for each delivered service; provided, however, that such payment shall
2754 constitute payment in full to the health care provider and the provider shall not bill the insured
2755 except for any applicable copayment, coinsurance or deductible that would be owed if the
2756 insured received such service or services from a participating health care provider under the
2757 terms of the insured's health benefit plan.

2758 (2) It shall be an unfair and deceptive act or practice, in violation of section 2 of
2759 chapter 93A, for any health care provider or carrier to request payment from an enrollee, other
2760 than the applicable coinsurance, copayment, deductible or other out-of-pocket expense, for the
2761 services described in paragraph (1).

2762 (b) Nothing in this section shall require a carrier to pay for health care services delivered
2763 to an insured that are not covered benefits under the terms of the insured's health benefit plan.

2764 (c) Nothing in this section shall require a carrier to pay for nonemergency health care
2765 services delivered to an insured if the insured had a reasonable opportunity to choose to have the
2766 service performed by a network provider participating in the insured's health benefit plan.
2767 Evidence that an insured had a reasonable opportunity to choose to have the service performed
2768 by a network provider may include, but not be limited to, a written acknowledgement submitted
2769 with any claim for reimbursement from the carrier that: (i) is signed by the insured; and (ii) was
2770 provided by the health care provider to the insured before the delivery of nonemergency health
2771 care services and provided the insured a reasonable amount of time to seek health care services
2772 from a participating provider in the insured's health benefit plan.

2773 (d) The commissioner shall promulgate regulations that are necessary to implement this
2774 section.

2775 SECTION 139. Chapter 176Q of the General Laws is hereby amended by striking out
2776 section 7A, as appearing in the 2016 Official Edition, and inserting in place thereof the following
2777 section:-

2779 of employee health plans offered by small businesses that shall be administered by the board, in
2780 consultation with the department of public health. The program shall provide subsidies and
2781 technical assistance for eligible small groups that offer health plans to employees. A small group
2782 shall be eligible to participate in the program if the small group purchases group coverage
2783 through the connector and meets certain criteria determined by the board. In determining such
2784 criteria, the board may consider, but not be limited to considering, the following factors: (i) the
2785 size of the employer group; (ii) the amount of an employer's subsidy for the cost of employee
2786 coverage; (iii) the average salary of employees in the group; (iv) enrollment in a high-value plan
2787 that promotes employee wellness; and (v) participation in a plan-administered or employer-
2788 administered wellness program.

2789 (b) The connector shall provide an annual subsidy of up to 50 per cent of eligible
2790 employer health care costs, calculated by the board, for eligible small groups participating in the
2791 program. The connector may seek a state innovation waiver under 42 U.S.C. 18052 to fund this
2792 program.

2793 (c) If the director determines that available funds are insufficient to meet the projected
2794 costs of enrolling new eligible employers, the director may impose a cap on enrollment in the
2795 program or on the subsidy amounts available to eligible small groups.

2796 (d) The connector shall provide a report on the enrollment in the small group incentive
2797 program and an evaluation of the impact of the program on expanding health plan participation
2798 for small groups annually, not later than March 1, to the clerks of the senate and house of
2799 representatives, the chairs of the joint committee on community development and small
2800 businesses, the chairs of the joint committee on health care financing and the chairs of the house

2855 Section 3. (a) The council shall review the progress of carriers and hospitals towards
2856 demonstrating: (i) the target hospital rate distribution; and (ii) growth in hospital spending that
2857 does not exceed target growth in hospital spending. When conducting its review, the council
2858 shall ensure that the target hospital rate distribution and growth in hospital spending support the
2859 goals of the cost growth benchmark established in section 9 of chapter 6D and do not directly
2860 contribute to increased consumer health care costs.

2861 (b) The council shall review the growth in hospital spending and the statewide
2862 commercial relative price distribution for the previous year to determine whether the carriers and
2863 hospitals have met the goals established under subsection (a).

2864 (c) Annually, the center, in consultation with the commission, shall submit a report to the
2865 council on the statewide commercial relative price distribution and growth in hospital spending
2866 not later than October 1. The council shall review the report and certify, not later than December
2867 1, whether the conditions established under subsection (a) were satisfied for the previous year.

2868 Section 4. (a) Carriers shall annually certify to the division that: (i) all rates filed align
2869 with the target hospital rate distribution; and (ii) if any hospital has received an increase in its
2870 rate of reimbursement, all hospitals contracting with the carrier have received an increase greater
2871 than 0 per cent.

2872 If the division determines that a carrier does not meet the certification requirements, the
2873 division shall notify the carrier and presumptively disapprove the rates filed by the carrier.

2874 (b) In any year that the council determines that either carriers have not demonstrated the
2875 target hospital rate distribution or the growth in hospital spending exceeded the target growth in
2876 hospital spending, the council shall:

2877 (i) assess a carrier referred to the council by the division that did not meet the
2878 certification requirements of subsection (a) in an amount equal to the product of: (i) the total
2879 change in rates for the fewest number of contracted hospitals necessary for the carrier to achieve
2880 alignment with the target hospital rate distribution; and (ii) the projected utilization of those same

2881 hospitals provided, however, that a carrier shall not be assessed unless the division certifies that
2882 the carrier was notified that the carrier's rates did not meet the certification requirements of said
2883 subsection (a) and did not refile compliant rates; or

2884 (ii) assess a penalty on not less than the top 3 hospitals that contributed to hospital
2885 spending that equals in its aggregate the difference between the growth in hospital spending and
2886 the target growth in hospital spending; provided, however, that each hospital shall be responsible
2887 for a proportionate share of the penalty commensurate to its share of commercial hospital
2888 spending; provided, however, that the council may reduce the overall amount to be assessed to
2889 the identified hospitals in the aggregate or on a specific hospital basis based on the degree to
2890 which actual hospital spending that exceeded target commercial growth is predominantly
2891 attributable to hospitals that have not been identified to be assessed.

2892 (c) In any year that the council determines that carriers and hospitals have not
2893 demonstrated the target hospital rate distribution or growth in hospital spending that does not
2894 exceed target growth in hospital spending, the council may define "target hospital rate
2895 distribution" and "target growth in hospital spending"; provided, however, that the council shall
2896 solicit input from the advisory committee, receive testimony and solicit public input and review
2897 the definition every 3 years. The council shall submit proposed definitions to the clerks of the
2898 senate and house of representatives, the joint committee on health care financing and the senate
2899 and house committees on ways and means not less than 4 months prior to their effective date. In
2900 making the definition determination, the council shall ensure that a proposed definition does not
2901 negatively impact the goals of the cost growth benchmark established in section 9 of chapter 6D
2902 and the cost of health insurance premiums.

2903 The joint committee on health care financing may, not later than 30 days after the
2904 submission of the proposed definitions with the clerks of the senate and house of representatives,
2905 the joint committee on health care financing and the senate and house committees on ways and
2906 means, hold a public hearing on the proposed definitions. The joint committee may report its
2907 findings to the general court, together with drafts of legislation necessary to implement those
2908 findings. In the report, the joint committee may include its recommendation on whether to affirm
2909 or modify the proposed definitions. The joint committee shall issue any findings not later than
2910 20 days after the public hearing and shall provide a copy of the findings and any proposed

2911 legislation to the board. If the general court does not enact legislation with respect to the
2912 recommendations within 65 days after the commission has submitted the recommendations to the
2913 joint committee, the proposed definitions shall be in effect until the definitions proposed take
2914 effect.

2915 (d) If the council amends the definition of “target hospital rate distribution” or “target
2916 growth in hospital spending”, the council shall consider: (i) factors resulting in a hospital’s
2917 relative price and any weighting assigned by the council to those factors; (ii) alternative payment
2918 methodologies in place between a hospital and carrier; (iii) the volume and mix of services
2919 provided; (iv) a hospital’s patient population and payer mix; (v) hospital inpatient and outpatient
2920 rates as compared to the commercial relative price levels; and (vi) any other information deemed
2921 necessary by the council.

2922 (e) Amounts assessed by the council under this section shall be deposited into the
2923 Hospital Alignment and Review Trust Fund established in section 2ZZZZ of chapter 29.

2924 (f) Any amounts assessed by the council and then distributed through the Hospital
2925 Alignment and Review Trust Fund shall be excluded from the calculation of growth in hospital
2926 spending for a year in which the funds are distributed.

2927 Section 5. There shall be an advisory committee to the council. The committee shall
2928 support its responsibilities under this section. The committee shall be chosen by the council and
2929 shall ensure broad representation of carriers and hospitals across regions, of different sizes and, if
