The value of closely held agricultural land as determined pursuant to such election shall only be for the purposes of computing the tax due under this chapter. Such election shall be subject to the provisions of paragraphs (3) to (6), inclusive.
- (3) Unless the property is restricted by a non-development covenant that: (i) is approved by the commissioner of agriculture; (ii) is for the purposes of maintaining the land in agricultural use; (iii) precludes non-agricultural development of the land; (iv) is recorded at the registry of deeds in the counties or districts in which the property is located; and (v) does not expire within 10 years of the applicable date, the commissioner shall forthwith cause to be recorded in the registry of deeds of the counties or districts in which the property is situated a statement which shall constitute a lien upon the land covered by election under this subsection. The statement shall include the owner or owners of record, the savings as a result of such election, the fair market value of the property and a description of the land adequate for identification. Unless such a statement is recorded, the lien shall not be effective with respect to a bona fide purchaser or other transferee without actual knowledge of such lien. Upon application by any record owner, such liens shall be released by the commissioner with respect to any property upon the facts

being established by record or by affidavit or otherwise that all assessments have been paid, or it being more than 10 years past the applicable date, no assessment being due. All recording fees paid under this subsection, whether for statements of liens, certificates, releases or otherwise, shall be borne by the owner of record of the land.

Property restricted by an agricultural preservation restriction, as defined in section 31 of chapter 184, that is signed by the commissioner of agriculture shall be deemed to be restricted by a non-development covenant if the restriction: (i) is approved by the commissioner of agriculture; (ii) is for the purposes of maintaining the land in agricultural use; (iii) precludes non-agricultural development of the land; (iv) is recorded at the registry of deeds in the counties or districts in which the property is located; and (v) does not expire within 10 years of the applicable date.

(4)(i) When land valued as closely held agricultural land under this subsection, within a period of 10 years from the applicable date, is sold for other use or no longer qualifies as closely held agricultural land, the owner or owners shall immediately notify the commissioner of such sale or change of use and an assessment shall be due the commonwealth. Such assessment shall be calculated with interest based on the date of sale for other use or based on the last date of use as closely held agricultural land as specified in this clause.

The assessment shall be equal to 100 per cent of the savings if such date is not more than 1 year of the applicable date; 90 per cent of the savings if such date is more than 1 year but not more than 2 years of the applicable date; 80 per cent of the savings if such date is more than 2 years but not more than 3 years of the applicable date; 70 per cent of the savings if such date is more than 3 years but not more than 4 years of the applicable date; 60 per cent of the savings if

such date is more than 4 years but not more than 5 years of the applicable date; 50 per cent of the savings if such date is more than 5 years but not more than 6 years of the applicable date; 40 per cent of the savings if such date is more than 6 years but not more than 7 years of the applicable date; 30 per cent of the savings if such date is more than 7 years but not more than 8 years of the applicable date; 20 per cent of the savings if such date is more than 8 years but not more than 9 years of the applicable date; 10 per cent of the savings if such date is more than 9 years but not more than 10 years of the applicable date; and no assessment shall be due if such date is more than 10 years from the applicable date.

Such assessment shall also include interest calculated at a simple interest rate of 5 per cent per annum on the savings from the applicable date.

There shall be an additional assessment equal to 30 per cent of the savings if the date of sale for other use or the last date of use while qualified as closely held agricultural land occurs not more than 1 year of the applicable date; and 15 per cent of the savings if such date occurs more than 1 year but not more than 2 years of the applicable date.

(ii) If an election has been made with respect to: (A) qualifying non-committed land which, on the applicable date, fails to meet the definition of forest land under chapter 61; (B) land actively devoted to agricultural, horticultural or agricultural and horticultural uses under chapter 61A; or (C) recreational land under chapter 61B that is also used for farming or agriculture, as defined in section 1A of chapter 128, an assessment shall be due the commonwealth and payable by the owner or owners not more than 30 days of the applicable date; provided, however, that the land need not be classified by municipal assessors as forest land under chapter 61, land actively devoted to agricultural, horticultural or agricultural and

horticultural uses under chapter 61A or recreational land under chapter 61B. Such assessment shall be equal to the sum of (A) 100 per cent of the savings; (B) interest calculated at a simple interest rate of 5 per cent per annum on the savings from the date of death of the decedent; and (C) an additional assessment equal to 30 per cent of the savings.

(iii) Notwithstanding this paragraph, there shall be no assessment if the land involved, or a lesser interest in the land involved, is acquired for a natural resource by the commonwealth or by a nonprofit conservation organization; provided, however, that if any portion of the land is sold or converted to commercial, residential or industrial use not more than 10 years after the applicable date by a nonprofit conservation organization, an assessment shall be imposed against the nonprofit conservation organization in the amount that would have been imposed at the time of acquisition of the subject parcel by the nonprofit conservation organization had the transaction been subject to an assessment or, in the case of qualifying non-committed land acquired by a nonprofit conservation organization before the applicable date, the amount that would have been imposed on the applicable date under clause (ii).

(iv) In the case of sale for other use of closely held agricultural land, other than qualifying non-committed land sold for other use before the applicable date, assessments imposed by this subsection shall be due and payable by the grantor at the time of transfer of the property by deed or other instrument of conveyance. In the case of qualifying non-committed land sold for other use before the applicable date, assessments imposed by this subsection shall be due and payable by the grantor on the applicable date. In the case of change to a non-qualifying use, assessments imposed by this subsection shall be due and payable by the owner or owners not more than 30 days of the last date of use as closely held agricultural land, regardless

of the date on which the commissioner was notified by said owner or owners of such change of use.

- (v) An assessment shall only be imposed under this subsection on that portion of land on which the use has changed. If, by conveyance or other action of the owner thereof, a portion of land which is valued as closely held agricultural land under this subsection is separated for other use, the land so separated shall be subject to liability for assessment, interest and additional assessment under this paragraph based on the proportion that the acreage of the land so separated bears to the total acreage of land valued as closely held agricultural land under this subsection.
- (5) All buildings located on land which is valued as closely held agricultural land under this subsection and all land occupied by a dwelling or regularly used for family living shall not be valued as provided under this subsection.
