Commissioner

March 2017

Dear Members of the General Court:

I am pleased to submit this *Report to the Legislature: English Language Acquisition Professional Development, Pursuant to line item 7027-1004 and G.L. c. 69 § 1I.*

Funding for professional development to teachers of English learners (ELs) has been provided by the legislature over the past several years. The funding supported two key activities of the Rethinking Equity and Teaching for English Language Learners (RETELL) initiative: 1) professional development for incumbent core academic teachers of ELs, and principals/assistant principals and supervisor/directors who supervise or evaluate such teachers, so they would have the opportunity to earn the Sheltered English Immersion (SEI) Endorsement appropriate to their role; and 2) professional development to support educators in implementing the WIDA English language development standards and assessments for ELs.

The Department launched the Rethinking Equity and Teaching for English Language Learners (RETELL) initiative in 2012 to comprehensively restructure teaching and learning for ELs. The factors contributing to this effort included concern by the Board of Elementary and Secondary Education (Board) and the Commissioner about the proficiency gap between the growing EL student population and native-English-speaking peers, and recognition of the need to update the Department's training for teachers of ELs. The U.S. Department of Justice's notification in the summer of 2011 that the state has a duty under federal law to mandate preparation and training requirements for educators of ELs in SEI programs accelerated the pace of the Department's work.

This report provides background information as well as the current status of all specific activities undertaken to meet these needs with the funding provided.

Sincerely,

Mitchell D. Chester, Ed.D.
Commissioner of Elementary and Secondary Education

Introduction

The Department of Elementary and Secondary Education (ESE) respectfully submits this *Report to the Legislature: English Language Acquisition Professional Development* pursuant to line item 7027-1004 of the General Appropriations Act of 2016, which reads as follows:

“For English language acquisition professional development to improve the academic performance of English language learners and effectively implement sheltered English immersion as outlined in chapter 71A of the General Laws; provided, that funds may be expended for the Rethinking Equity and Teaching for English Language Learners (RETELL) initiative; provided further, that the department shall, not later than January 12, 2015, provide a report on the number of educators who have received such training since the passage of said chapter 71A, the estimated number who need such additional training, a review and analysis of the most effective types of professional development, and the most common gaps in the knowledge base of educators implementing English immersion and teaching English language acquisition, along with legislative or regulatory recommendations of the department; provided further, that said report shall be provided to the secretary of administration and finance, the senate president, the speaker of the house, the chairs of the house and senate committees on ways and means, and the house and senate chairs of the joint committee on education; and provided further, that appropriated funds may be expended for programs or activities during the summer months...”

The report also contains data responsive to the provisions of G.L. c. 69, §11:

“The commissioner annually shall analyze and publish data reported by school districts under this section regarding English language learners programs and limited English proficient students. Publication shall include, but need not be limited to, availability on the department’s worldwide web site. The commissioner shall submit annually a report to the joint committee on education, arts and humanities on such data on a statewide and school district basis, including, but not limited to, by language group and type of English language learners program. (G.L. ch.69 § 11)”

Funding for professional development to teachers of English learners (ELs) has been provided by the legislature over the past several years. The funding supported two key activities of the Rethinking Equity and Teaching for English Language Learners (RETELL) initiative:

1) professional development for incumbent core academic teachers¹ of ELs, and principals/assistant principals and supervisor/directors² who supervise or evaluate such teachers, so they would have the opportunity to earn the Sheltered English Immersion (SEI) Endorsement appropriate to their role; and 2) professional development to support educators in implementing the WIDA English language development standards and assessments for ELs.

¹ For SEI Endorsement purposes, a core academic teacher means teachers of students with moderate disabilities, teachers of students with severe disabilities, and teachers of the following academic subjects: English, reading or language arts, mathematics, science, civics and government, economics, history and geography; and early childhood and elementary teachers who teach such subjects. See 603 CMR 14.07(5).

² Supervisor/directors may fill the following roles: director, department head, and curriculum specialist.

Policy Context and EL Enrollment

The provision of educational services to ELs is governed by federal and state law. Federal law requires states and local school districts to take appropriate action to overcome language barriers that impede equal participation by its students in its instructional programs.³ As a result of a 2002 ballot initiative popularly referred to as Question 2, G.L. c. 71A, the state statute governing the education of English learners was amended to replace transitional bilingual education (TBE) with sheltered English immersion (SEI) as the primary instructional methodology for ELs. ELs in SEI programs are taught in English, unlike TBE programs in which students are taught in their native language until they become proficient in English. The state's SEI model includes *both* English language instruction (English as a Second Language, or ESL) in which the teacher working with ELs supports their language development by providing explicit instruction focused on social and instructional English language used in classrooms, *and* sheltered content instruction (SCI) in which core subject area teachers use sheltering strategies to make their content accessible to English learners. Since the passage of Question 2, the use of SEI as the dominant educational model for ELs has increased. According to the data in Table 1, the percentage of ELs receiving SEI has continued to climb from 83 percent in SY2010 to 93 percent in SY2016.⁴

Table 1a: English Learners Program Enrollment

English Learners in Massachusetts

The 85,762 ELs enrolled in the Commonwealth's public school districts in SY2016 represents an *increase* of 26,604 ELs over the student count six years earlier. During the same time period, the total enrollment of all public school students in the Commonwealth *decreased* by 3,624, for a total of 2,082,596. As of March 2016, 94 districts in the Commonwealth reported an enrollment

³ Equal Educational Opportunities Act, 20 USC § 1703(f). Title VI of the Civil Rights Act requires similar action on the part of public schools.

⁴ See Appendix 2 for district data regarding the number of English learners and program type for SY2016.

⁵ Two-way bilingual education is a program in which all content is taught to students in two languages. The goal of the program is full academic proficiency (oral language and literacy) in two languages.

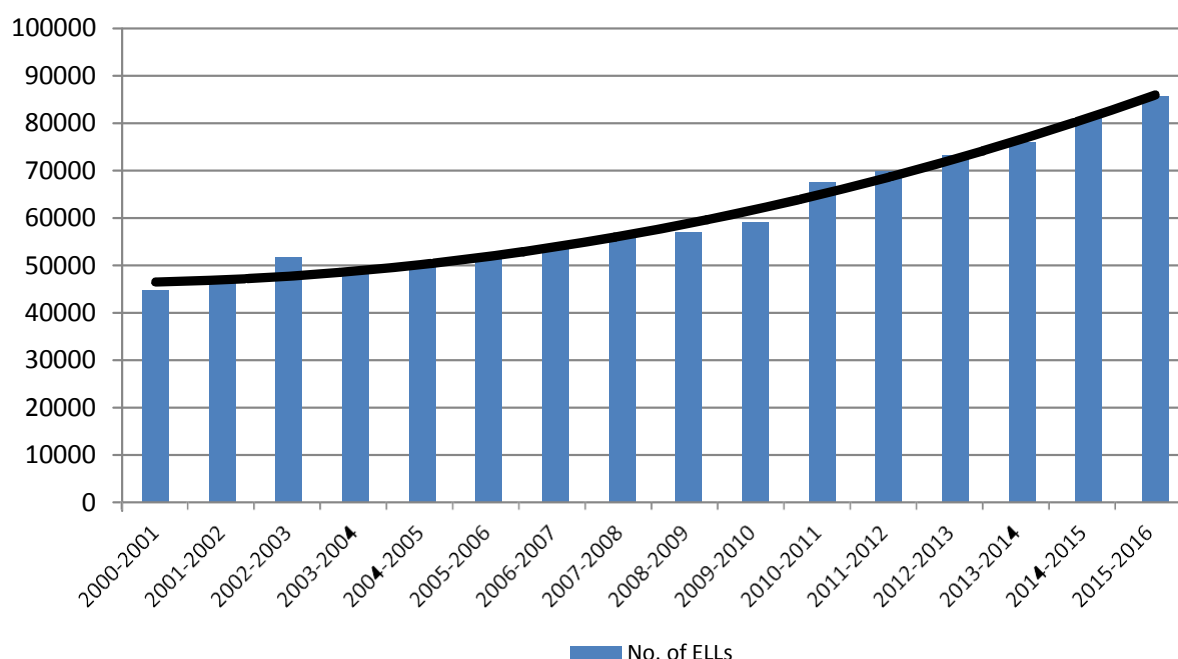

of 100 or more ELs, which is an increase of 34 districts from six years ago. As evidenced by the data, the EL student population has continued to grow in Massachusetts while the overall student population has not. Table 2 compares the growth in the EL population to that of the entire student population since SY2010.

Table 2: Increase in EL population in MA public school districts compared to overall student population

	SY2010		SY2016		Change	
	All	EL	All	EL	All	EL
State	957053	59158	953429	85762	-3624	+26,604

The following chart demonstrates the increase in the EL population in Massachusetts since 2001.

Source: The Department Student Information Management System, March 2016

The percentage of Massachusetts public school students who are ELs has risen from 6.2 percent in SY2010 to 8.9 percent in SY2016.⁶ As Table 3 indicates 67 percent of Massachusetts' ELs are enrolled in the top 15 districts in the state. Boston enrolls 19 percent of all ELs in the state.

⁶ See Appendix 1 for the district by district comparison from SY2010 to SY2016 for all students versus ELLs.

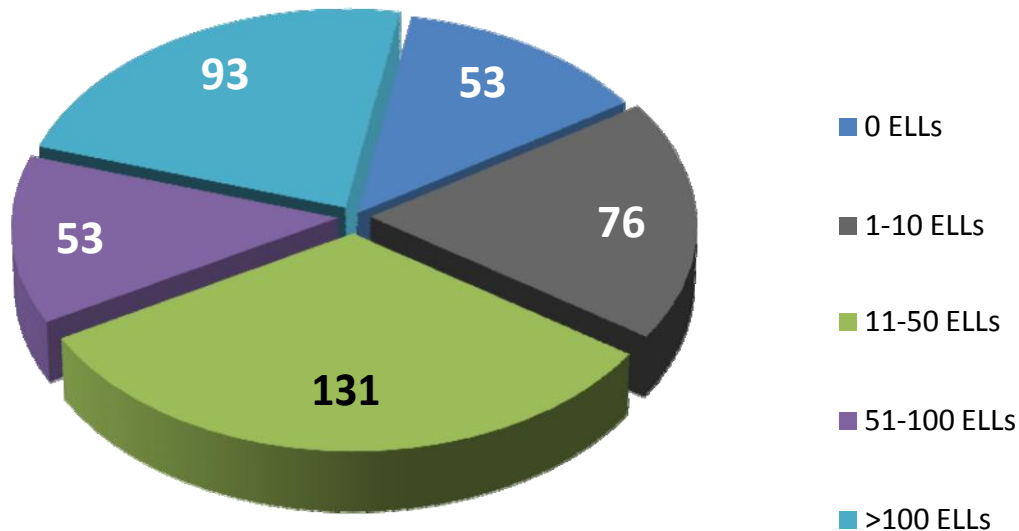

Table 3: Districts with the largest numbers of ELs by EL enrollment in SY2016

The following table breaks down the district EL enrollment profile for all districts in Massachusetts.

District EL Enrollment Profile – SY2016

Source: The Department Student Information Management System, March 2016

The RETELL Initiative

The Department launched the Rethinking Equity and Teaching for English Language Learners (RETELL) initiative in 2012 to comprehensively restructure teaching and learning for ELs. The factors contributing to this effort included concern by the Board of Elementary and Secondary Education (Board) and the Commissioner about the proficiency gap between the growing EL student population and native English-speaking peers, and recognition of the need to update the Department's training for teachers of ELs. The U.S. Department of Justice's notification in the summer of 2011 that the state has a duty under federal law to mandate preparation and training requirements for educators of ELs in SEI programs accelerated the pace of the Department's work.

The SEI Endorsement

Under regulations adopted by the Board, between September 2012 and June 30, 2016, incumbent core academic teachers⁷ of ELs are required to earn an SEI Teacher Endorsement, which demonstrates that the teacher has met the subject matter and skill requirements necessary to instruct an EL. Similarly, principals/assistant principals, and supervisor/directors⁸ who supervise or evaluate SEI teachers must meet knowledge and professional practice standards related to recognizing and supporting effective SEI practices in order to obtain the SEI Administrator Endorsement. These requirements apply to educators in all public schools, including charter schools. Incumbent educators may earn the SEI Endorsement through successful completion of the appropriate⁹ SEI Endorsement course provided by the Department with legislative appropriation, or through other pathways.¹⁰

The SEI Teacher Endorsement courses are designed to promote continuous improvement in educator practice and to build teachers' confidence and familiarity with research-proven practices for working with ELs. Throughout the courses, effective research-based strategies are modeled. Teachers have opportunities to practice the modeled strategies, to analyze their practice, to provide and receive feedback, and to reflect on their experiences. Through this cycle of reflective practice, teachers gain new skills, knowledge, and dispositions for the education of English learners. Assignments are designed to reinforce key concepts and practices. As participants proceed through the course, assignments include a paper drawing on classroom data and information, classroom tryouts of modeled strategies which teachers assess using a tool provided for the purpose, and the development, implementation, and presentation of instructional segments. Throughout the courses, participants are asked to reflect upon the impact of course material and activities on their practice.

Similar to the SEI Teacher Endorsement course, the SEI Administrator Endorsement course is designed to promote continuous improvement in educator practice, and to build administrators'

⁷ See footnote 1.

⁸ See footnote 2.

⁹ Most teachers take a 45-hour SEI Teacher Endorsement course, which is referred to as the "full course." Some teachers were eligible to take a shorter version of SEI Teacher Endorsement course, referred to as the Long Bridge or Short Bridge courses. Eligibility for the shorter courses is based on whether the teacher has completed in full or in part Category Training, the Department's previous EL training. The bridge courses were discontinued in SY2017. Administrators complete a 15-hour course which is focused on strengthening administrators' ability to recognize and support effective EL instruction.

¹⁰ For example, if an educator holds English as a Second Language (ESL) license, he or she is eligible for the SEI Teacher Endorsement. For this and other examples, see 603 CMR 7.14 (1)(a).

confidence and familiarity with procedures and strategies for supporting teachers in implementing research-proven practices for working with ELs. Throughout the course, effective methods of examining data, observing teaching practice, and providing support to teachers are explored. Assignments include careful analysis of school, district, and state data pertaining to ELs, as well as data collection on the classroom practice of SEI teachers. Administrators learn about the elements to look for in teachers' lesson plans, as well as the SEI strategies to look for during classroom observations. Throughout, administrators are asked to reflect upon how they can use the new educator evaluation system to support effective instruction for ELs as well as the implications of the content of the course material on their responsibilities as school leaders.

Unless they applied for and qualified for a hardship extension,¹¹ educators who were required to obtain the SEI Endorsement during the July 1, 2012 to June 30, 2016 period but failed to do so will not be able to renew, advance, or extend their license until they obtain the Endorsement.

Among the other regulatory requirements adopted to further the goals of RETELL there is a provision addressing educators entering the teaching profession and administrator ranks. As of July 1, 2014, applicants for an initial license as a core academic teacher,¹² principal/assistant principal, or supervisor/director must qualify for the SEI Teacher Endorsement or SEI Administrator Endorsement as appropriate. As part of the RETELL initiative, the Department has worked with approved educator preparation programs as they developed pre-service curricula addressing the SEI Endorsement requirements for both teachers and administrators.

A new provision, which impacts educators as of July 1, 2016, requires educators renewing a professional educator license to earn at least 15 Professional Development Points (PDPs) related to SEI or English as a Second Language and at least 15 PDPs related to training in strategies for effective schooling for students with disabilities and instruction of students with diverse learning styles. This is based on the theory that every educator needs basic knowledge to work effectively with these student populations. (603 CMR 44.06(2))

WIDA

As part of the RETELL initiative, in 2012 Massachusetts joined the WIDA consortium, which has 39 member states as of 2016. WIDA has developed a comprehensive standards and assessment framework to support ELs' academic language development and content area learning. This framework is made up of two key components: the WIDA ELD standards and the ACCESS for ELLs[®] assessment based on the standards. Massachusetts has adopted the WIDA standards as the state's English language proficiency framework, and the ACCESS for ELLs[®] as the state-mandated annual English proficiency assessment.

The WIDA ELD standards promote academic language development for ELs in four core content areas: language arts, mathematics, science, and social studies. The standards promote a collaborative instructional approach in which ESL and content area teachers work together to

¹¹ A hardship extension will be approved upon documentation of a serious illness or injury, or other circumstances that are beyond the control of the educator and impede the educator's ability to complete the requirements for the SEI Endorsement. 603 CMR 14.07(2)b.

¹² These individuals are generally graduates of Massachusetts educator preparation programs. The Department has worked with such programs to revise their courses so they provide the subject matter and skills necessary to earn the SEI Endorsement.

promote ELs' language development throughout the school day, thus maximizing language and content area learning.

Funds Used for Professional Development SY2016

In FY 2016, \$805,319 (*budget* line-item 7027-1004) supported the development and delivery of professional development to more than 12,000 teachers of ELs and administrators, predominantly in the two main components of the RETELL Initiative, which are SEI Endorsement courses and WIDA ELD Standards implementation.

SEI Endorsement Trainings SY2016

At the launch of RETELL, based on numbers then available, the Department committed to training approximately 26,000 incumbent core academic teachers of ELs and principal/assistant principals and supervisor/directors by July 31, 2016, starting with educators in districts that have a high incidence of ELs and low student performance.

Using data submitted by districts in the spring of 2012, the Department established an initial targeted count of core academic teachers responsible for educating ELs for each district. These counts are updated annually using district data submitted each spring prior to courses being offered. The Department has established the portion of this targeted count of teachers that must qualify for the SEI Endorsement in each school year from SY2013 through SY2016. The Department apportioned the targeted count over a three year period for districts with a high incidence of ELs from SY2013-SY2015 (cohort one); for moderate-incidence districts from SY2014-SY2016 (cohort two); and for low-incidence districts from SY2015-SY2016 (cohort three). Educators in districts with the highest incidence and lowest performing ELs have been required to earn the Endorsement sooner than educators in other districts.¹³

During SY2013 the Department used state funds to help develop and implement SEI Endorsement courses. Before the spring 2013 courses began, and again before the SY2014 courses began, state funding was also used to host several train-the-trainer workshops for the SEI Endorsement classes in which over 200 educators were trained to serve as Sheltered English Immersion Endorsement course trainers.

From SY2014-SY2016 almost 40,000 teachers and administrators enrolled in SEI Endorsement courses. This was well ahead of the combined SY2014-SY2016 training target of 26,000. Table 4 and Table 5 indicate the number of courses offered and the enrollment in each of the four SEI Endorsement courses over that four year period.

In SY2017, the Department made additional courses available to educators who, during the final cohort year in SY2016, had attempted to enroll in a course and could not because the course was full, had enrolled in a course which was cancelled by the Department for lack of an instructor, or had been granted a hardship extension. As of January 17, 2016, 1,644 educators enrolled in courses in SY2017. Registration for SY2017 courses was restricted only to those educators who fit the criteria described here. The SY2017 registration closed on January 15, 2017.

¹³ See Appendix 3 for a complete list of districts assigned to cohort one, two and three.

Table 4: SEI Endorsement Courses Provided by DESE

SEI Endorsement Courses	Full SEI Teacher	Long Bridge Teacher	Short Bridge Teacher	Administrator Endorsement	Total
2012-2013	83	*	*	*	83
2013-2014	194	70	83	71	418

2016-2017	1,550	*	*	94	1,644
Total	25,959	3,663	4,866	4,515	39,003

Educators and WIDA Standards

Educators who teach ELs are expected to integrate components of the WIDA ELD standards framework into their instruction and assessments. Because the WIDA standards promote an integrated approach to support English language development, both ESL and content area teachers should be teaching academic language and differentiating instruction for ELs based on their specific teaching context. For example, a science teacher with Emerging (Level 2) and Developing (Level 3) ELs should incorporate *ELD Standard 4: the Language of Science* into his or her instruction by explicitly teaching academic language related to the specific topic or science standards addressed in the unit or lesson. This science teacher should also provide his or her EL students access to the content standards by differentiating language expectations, supports, and assessments in ways that are appropriate for the ELs' language proficiency levels. Similarly, an ESL teacher working with these ELs might support their language development by providing explicit instruction focused on social and instructional English language used in science classrooms, helping science teachers identify specific language features commonly used to communicate about scientific topics, and/or pre-teaching or reinforcing academic language taught in the science classroom.

The way in which ESL and content area teachers collaborate to implement the WIDA standards will vary depending on the type of language program established in their school or district. Irrespective of the language program model, ESL and content area educators must develop an understanding of the key components of the WIDA ELD standards framework, how to use them and how to collaborate to maximize student learning. The SEI Endorsement courses provide

introductory information about the WIDA ELD standards framework; however, the Department is also providing educators who participate in the SEI Endorsement courses with access to additional, in-depth professional development about the components of the WIDA ELD standards framework and how to integrate them into content area and ESL curriculum. Educators may choose to participate in ESE-sponsored WIDA trainings, learn from other district staff that have participated in WIDA Training-of-Trainers (ToTs), or attend WIDA consortium professional development offerings.

WIDA English Language Development Trainings SY2016

During SY2016, The Department developed and delivered a variety of WIDA projects statewide. Funds were used for professional development opportunities at no cost to districts in various regions of the state, including the following:

- WIDA 101: three-day basic WIDA overviews focused on the principles, organization and key components of the WIDA framework.
- WIDA 101+1: A one day training for administrators following the three-day Basic WIDA Overview.
- Data Analysis Workshops: Two-day workshops with a version focused at the school level and another at the district level to analyze data and develop an action plan grounded in the WIDA ELD Standards Framework.
- Formative Language Assessment: practices for teachers of ELs.
- WIDA Trainer-of-Trainers (ToT): a three-day workshop with a district application component and a two-day follow-up.

Future Professional Development and other Activities

The Office of English Language Acquisition and Academic Achievement (OELAAA) will continue to provide SEI Endorsement course through the SY2017 school year as well as WIDA trainings on existing and emerging topics.

Future Opportunities for Educators to Earn the SEI Endorsement

Educators who are assigned ELs for the first time beginning in the SY2017 school year are required to earn the SEI endorsement within one year of the assignment under state regulations. They may do so through an approved provider of the course, passing the SEI MTEL, or earning their ESL license. The Department has created an open, rolling RFR to approve additional providers of the course, including school districts, for the next three years. As of the date of this report, there were 11 non-district organizations such as collaborative and 20 school districts approved to offer the Department's SEI Endorsement teacher and administrator courses. In addition, as of SY2016, some colleges, universities, and other sponsoring organizations have been approved to provide the SEI Endorsement course stand-alone. That means that a participant in the course will be awarded the SEI Endorsement even if they are not enrolled in a pre-service licensure program through the organization offering the course. Each organization has its own fee structure, enrollment rules and procedures, and course format. All courses must meet the minimum requirements for face-to-face instruction, practicum time, and instruction in the required content. At the time of this writing, 12 institutions of higher education have been approved to offer the SEI Endorsement to in-service educators.

Future Needs for Extending the Learning - SY2017 and Beyond

Opportunities for ongoing learning must be provided and the knowledge and skills learned in the SEI Teacher and Administrator Endorsement courses must be reinforced. The Department has been:

- Making elective professional development courses available that educators will be able to take after completion of the SEI Teacher Endorsement course and/or to meet re-licensure requirements;
- providing graduate-level training to the state's existing literacy and math coaches and administrators;
- providing ESL curricula and curriculum development guidance and training in the process of curriculum development;
- providing tools for administrators to assist them with ensuring school and district-wide implementation of RETELL;
- providing guidance for working with ELs who have limited or interrupted formal education;
- providing guidance for working with ELs who have disabilities;
- developing guidance for Sheltered English Immersion programming.

Coaching Professional Development

To fully leverage the investment in SEI training and maximize the benefits to ELs, teachers need to be supported in further developing their confidence and skills with SEI practices in their classrooms. Instructional coaches, administrators and department heads are excellent supports for classroom teachers. However, many coaches, administrators and department heads have relatively limited training in SEI.

The Department contracted with the Massachusetts Association of Teachers of Second or Other Languages (MATSOL) to create courses to prepare instructional coaches, administrators and department heads to better support SEI practices through their coaching and/or supervisory work. The course targeted to literacy coaches was rolled out in July of 2015. The course for literacy coaches was followed up by the course for math coaches that was rolled out in June of 2016. The last course of the three part series is the leadership coaching course. This course designed for Principals and other instructional leaders was piloted in the summer and fall of 2016. The final version of the leadership coaching course will be submitted by June 30, 2017 for roll out to the field.

Professional Development Mini Courses

ESE has created a list of 15-hour courses that will be approved for Professional Development Points (PDP's) in the area of SEI. This approved list is meant to support districts seeking to organize high quality programs for graduates of the SEI Endorsement course or those who need to earn the SEI PDP's required of all educators under Department regulations. This list is updated on an ongoing basis and published on the Department's website.

ESL Model Curriculum Units

In the summer of 2014, the Department, in partnership with MATSOL, the Northeast Comprehensive Center (NCC), and various stakeholder groups from throughout the state began work on the creation of curriculum development guides and model curriculum units for the

content area of ESL. That project was completed in the summer of 2016 and rolled out to the field along with various sessions of training-of-trainers workshops in the summer of 2016.

Tools for Administrators

ESE created an SEI walk-through tool for school and district administrators. The tool is called the SEI Smart Card and it outlines specific and observable SEI strategies and activities that administrators should see when observing classes. This tool was developed in cooperation with district EL Directors and MATSOL, and was piloted by administrators in several districts. Training was developed and training sessions began in the summer of 2015.

SEI Program Guidance

The Department is preparing to begin work on the development of comprehensive guidance for SEI programs so that district leadership and educators can more effectively develop and enhance SEI programs within their districts. This project will include programmatic and curricular guidance, expectations for collaboration between content and ESL teachers, SEI model curriculum units, and a series of video resources. The Department intends to develop training materials, including online tutorials, to help maximize the effectiveness of this guidance.

Conclusion

State funding enabled the Department to undertake significant work in several areas related to the RETELL initiative. It has funded SEI Endorsement courses provided to teachers and administrators as well as WIDA trainings and support for district leaders and educators. These investments in professional development will help address the proficiency gap for ELs statewide by providing administrators, SEI content teachers, and ESL teachers with deeper knowledge and understanding of the academic and language needs of ELs as well as tools and classroom skills that can be further honed in the coming years.

The data for this report was compiled by the Department's Office of English Language Acquisition and Academic Achievement (OELAAA). If you have any questions, please contact Paul J. Aguiar, Director, OELAAA, by email at paguiar@doe.mass.edu or by phone at 781-338-3538.
