Introduction

In 2014 the Massachusetts Legislature enacted Massachusetts General Law, Chapter 140, Section 131Q. The law directed firearms licensing authorities within the Commonwealth to annually report to the Colonel of the Massachusetts State Police certain data related to crime gun seizures within their jurisdiction. The law further directed the Commonwealth Fusion Center (CFC) to issue an annual report based upon that data.

A "crime gun" for reporting purposes, was defined as a gun which had been used in the commission of a crime, to include possessory offenses. Excluded from the crime gun reporting requirements were recovered firearms with no nexus to criminal activity, firearms used in the commission of a suicide, firearms acquired during gun buyback or turn-in programs, and firearms seized as the result of judicial orders; (such as a 209A Domestic Restraining Order) in which no there was no criminal behavior associated with the actual firearm.

There were some notable reporting and collection gaps identified in the 2015 data collection effort. Among these were the education of licensing authorities relative to their new reporting requirements and the lack of a standardized, user-friendly electronic reporting application.

Thanks in large part to the efforts of the Massachusetts State Police Crime Gun Unit (CGU), the Department of Criminal Justice Information Services (DCJIS) and the Massachusetts Executive Office of Public Safety and Security (EOPSS), steps have been taken to mitigate these gaps. CGU staff conducted outreach through the Massachusetts Chiefs of Police Association to promote data submission to the CFC. DCJIS was instrumental in working with EOPSS to develop and host a web-based electronic submission application which aids in both the collection and normalization of crime gun data.

These efforts have all served to increase the level of self-reporting of crime gun seizures by licensing authorities through the DCJIS application. The CFC remains committed to conducting training and increasing awareness for law enforcement agencies across the Commonwealth of the Chapter 140, Section 131Q requirements. The CFC stands ready to provide technical assistance with data submission as needed. In order to further increase crime gun reporting, in 2017 the Massachusetts State Police Laboratory will begin requiring that submitting agencies provide a receipt for a DCJIS Chapter 140 , Section 131Q data entry prior to submission of all crime guns for forensic analysis.

It is the vision of the CFC that fuller, more detailed crime gun reporting in the future will allow for continued analysis of the data in order to inform decision and policy makers about crime gun trends.

M.G.L. Chapter 140 Section 131Q

Tracing by licensing authority of firearm, rifle or shotgun, large capacity weapon, machine gun or assault weapon used to carry out criminal act; statistical data; annual report

A firearm, rifle or shotgun, large capacity weapon, machine gun or assault weapon used to carry out a criminal act shall be traced by the licensing authority for the city or town in which the crime took place. The licensing authority shall report statistical data, when the data is readily available as determined by the chief of police, including, but not limited to: (i) the make, model, serial number and caliber of the weapon used; (ii) the type of crime committed; (iii) whether an arrest or conviction was made; (iv) whether fingerprint evidence was found on the firearm; (v) whether ballistic evidence was retrieved from the crime scene; (vi) whether the criminal use of the firearm was related to known gang activity; (vii) whether the weapon was obtained illegally; (viii) whether the weapon was lost or stolen; and (ix) whether the person using the weapon was otherwise a prohibited person.

The data shall be reported to the commonwealth fusion center or the criminal firearms and trafficking unit within the division of investigation and intelligence in the department of state police established pursuant to section 6 of chapter 22C. The colonel of state police shall produce an annual report by December 31 of each year regarding crimes committed in the commonwealth using firearms, rifles or shotguns, large capacity weapons, machine guns or assault weapons, including all of the categories of data contained in this section, and shall submit a copy of the report to the joint committee on public safety and homeland security, the clerks of the house of representatives and the senate and, upon request, to criminology, public policy and public health researchers and other law enforcement agencies.

Summary

1391 crime guns were reported to the Commonwealth Fusion Center in 2016. This represents a 67% increase from the 2015 crime gun total count of 927. This increase is likely attributable in large part to the increased awareness of reporting obligations by law enforcement and to the development of an electronic submission application for crime gun data.

58 law enforcement agencies reported making crime gun seizures in 2016. This number was an increase of 18 agencies from the 2015 reporting period in, which 36 agencies reported having made seizures.

82% (1147 guns) of the 2016 crime gun seized were described as "pistol/revolver". In 2015 that percentage was 74% (688 guns). In 2016 shotguns and rifles accounted for 13% (178 guns) and assault rifles comprised 1.5 % (22 guns) of the total crime guns seized. In 2015 those percentages were 20% (184 guns) and 0.75% (7 guns) respectively.

Reporting officers advised that frequently data related to forensic evidence was not readily available during the reporting period. Additionally, they advised that determining if gang activity or a prohibited person was involved with a crime gun seizure was often the product of on going investigation and therefore they were not able to report that data. Many of the submissions lacked data relative to the whether the gun was possessed by a prohibited person. In 2016 169 crime guns were linked to prohibited persons.

The top three submitting agencies were:

1. Boston Police Department (667)
2. Massachusetts State Police (496)
3. New Bedford Police Department (66)

The top three caliber crime guns seized were:

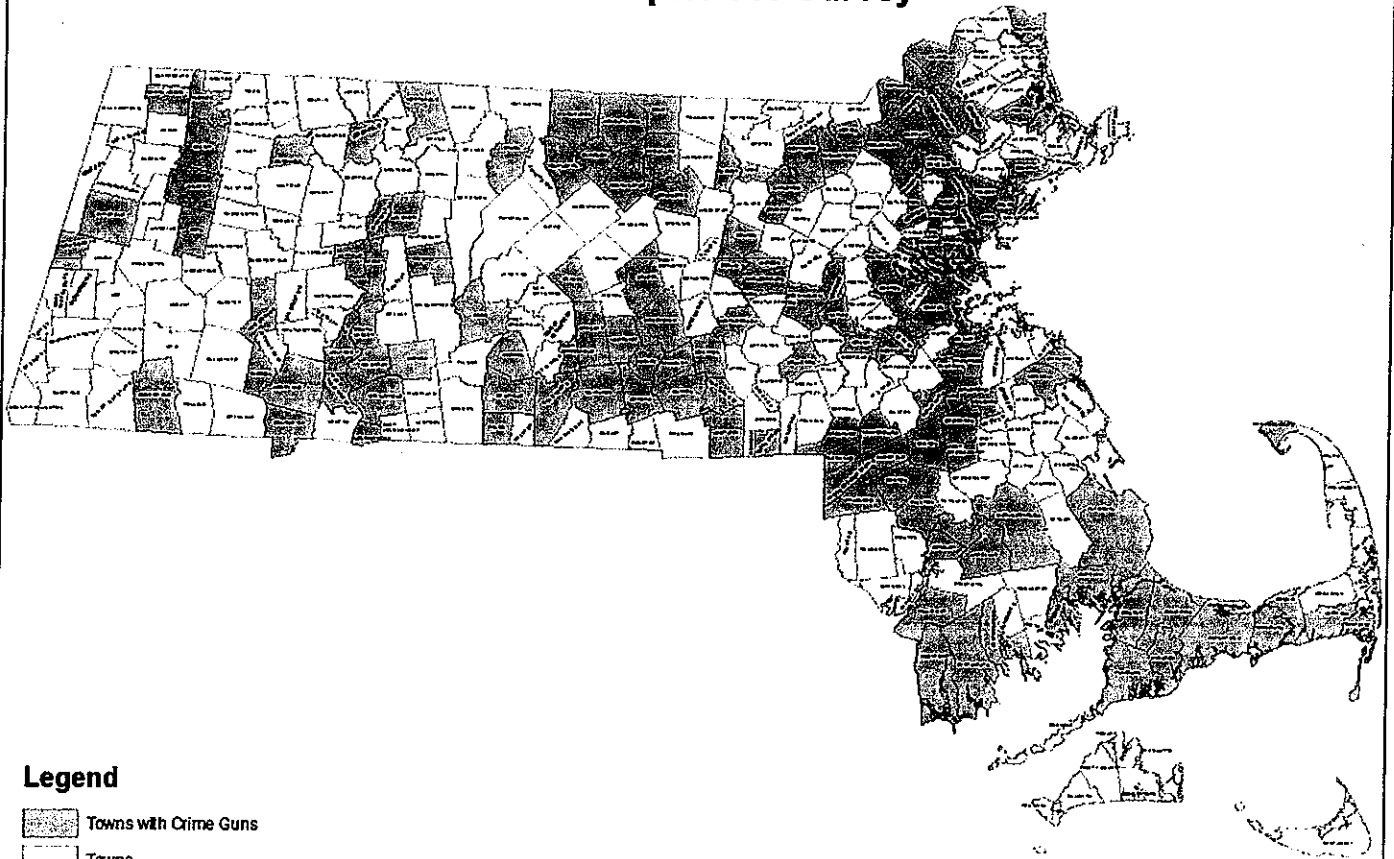

1. 9mm (305 guns)
2. .38 caliber (173)
3. .22 caliber (161)

2017 will represent the first full year that the DCJIS electronic application is available to law enforcement agencies to submit crime gun data and for the CFC to collect that data electronically in a standard format.
