95 academic detailing program to enhance the health of residents of the commonwealth, improve
96 the quality of decisions regarding drug prescribing, encourage better communication between the
97 commission and health care providers participating in publicly funded health programs and

99 prescribing.

101 dispensers of drugs, private insurers offering prescription drug coverage, hospitals, pharmacy
102 benefit managers, consumers and the MassHealth drug utilization review board. The program, as
103 well as any affiliated organizations, shall be required to use transparent procedures for

122 from program staff. To the extent possible, program components shall also include information
123 regarding clinical trials, pharmaceutical efficacy, adverse effects of drugs, evidence-based
124 treatment options and drug marketing approaches that are intended to circumvent competition
125 from generic and therapeutically equivalent drugs. Academic detailers shall observe standards of
126 conduct in their educational materials and written and oral presentations as established by rules
127 adopted by the commission that are consistent with the following federal regulations regarding
128 labeling and false and misleading advertising: (i) the Food and Drug Administration labeling

135 participate in, contract with or are reimbursed health care programs funded by the
136 commonwealth, including but not limited to, those programs for which the group insurance
137 commission purchases health insurance pursuant to section 4 of chapter 32A. The program may
138 provide outreach and education to private insurers offering prescription drug coverage, hospitals,
139 employers and other persons interested in the program on a subscription or fee-paying basis
140 pursuant to rules adopted by the commission.

141 (f) On or before April 1st each year, the commission shall provide the governor with an
142 annual report on the operation of the program. The report shall include information regarding: (i)
143 the outreach and education components of the program; (ii) revenues, expenditures and balances;

144 and (iii) savings attributable to the program in health care programs funded by the
145 commonwealth. During the first 2 annual reports to the governor, the commission shall also
146 include discussion regarding its review and evaluation of the use of the educational and
147 assessment materials developed by educational institutions pursuant to subsection (c).

148 (g) The commission shall undertake a public education initiative to inform residents of
149 the commonwealth about clinical trials and drug safety information.

150 (h) The commission may seek funding from nongovernmental health access foundations
151 and undesignated drug litigation settlement funds associated with pharmaceutical marketing and
152 pricing practices and any unused funds collected under the annual disclosure report fee
153 promulgated by the executive office pursuant to chapter 111N. The commission may also
154 develop a subscription fee through which any interested party in the commonwealth may
155 voluntarily purchase a subscription to the program.

156 Section 21. (a) In the course of its duties the commission may contract with a third-party
157 entity, such as an accounting firm, to conduct an annual study of pharmaceutical or

182 in subsection (d) for NMEs, such submissions shall be provided as soon as practical upon receipt
183 of the relevant designation.

184 (f) Any study conducted pursuant to this section shall be funded by annual registration
185 fees and any other assessments that accompany the annual marketing disclosure reports required
186 pursuant to chapter 111N.
