

**HOUSE . . . . . No. 190**

---

**The Commonwealth of Massachusetts**

PRESENTED BY:

***Bud L. Williams***

*To the Honorable Senate and House of Representatives of the Commonwealth of Massachusetts in General Court assembled:*

The undersigned legislators and/or citizens respectfully petition for the adoption of the accompanying bill:

An Act to establish the Western Massachusetts balanced sustainable development commission.

PETITION OF:

NAME:	DISTRICT/ADDRESS:	DATE ADDED:
<i>Bud L. Williams</i>	<i>11th Hampden</i>	<i>1/3/2019</i>
<i>Carlos González</i>	<i>10th Hampden</i>	<i>2/1/2019</i>
<i>José F. Tosado</i>	<i>9th Hampden</i>	<i>1/17/2019</i>
<i>Chynah Tyler</i>	<i>7th Suffolk</i>	<i>1/31/2019</i>

**HOUSE . . . . . No. 190**

By Mr. Williams of Springfield, a petition (accompanied by bill, House, No. 190) of Bud L. Williams and others for legislation to establish the Western Massachusetts balanced sustainable development commission. Community Development and Small Businesses.

**The Commonwealth of Massachusetts**

**In the One Hundred and Ninety-First General Court  
(2019-2020)**

An Act to establish the Western Massachusetts balanced sustainable development commission.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1           Section 1.   Whereas the Western portion of Massachusetts, specifically the Pioneer  
2 Valley has different characteristics than the Eastern portion, in terms of population density, types  
3 of industry, access of population to undeveloped land, visibility to the Boston media, and so  
4 forth, and

5           Whereas over time thee different characteristics have led to differentials in the impacts of  
6 policies and programs adopted from time to in the area of housing, fair housing, school  
7 integration, regional transportation, taxation, and economic development, and

8           Whereas this differential impact may have played some part in the fact that this Western  
9 portion of Massachusetts, now defined as the Springfield Region, has been Nationally recognized  
10 as having a generally high level of racial segregation, including the highest level of White-  
11 Hispanic segregation in the United States, and

12           Whereas this same area has also underperformed in comparison with the Eastern portion  
13 of the Commonwealth in terms of its ability to implement modern sustainability strategies such  
14 as mass transportation, balanced housing, and economic development in general, then

15           Section 2.   Therefore it is resolved that this Western Massachusetts Balanced  
16 Sustainable Development Act is hereby adopted by the Massachusetts General Court to  
17 implement the following measures:

18           1.       To mandate that a regional Sustainable Development Commission be created  
19 consisting of representatives of regional planning agencies in Hampden, Hampshire, and  
20 Franklin Counties together with representatives of organizations concerned with fair housing,  
21 organized labor, and chambers of commerce or similar organizations concerned with economic  
22 development recognized by the General Court in the impacted area to annually track and assess  
23 the impact of State policies on the Springfield Region and make recommendations to the General  
24 Court for appropriate modifications of these policies, and recommendations as to the  
25 appropriateness of pending legislation and other policies of the Commonwealth which may have  
26 a differential effect on the Region; and

27           2.       To further mandate that the said Commission devise strategies of remediation or  
28 plans to counter any negative impacts of past policies of the Commonwealth so as to create a  
29 more racially and economically integrated, economically vital, and environmentally sustainable  
30 region in the future; and

31           3.       To further mandate and authorize creation of a special, tax-exempt, urban and  
32 regional development corporation, to be controlled jointly by regional elected officials,  
33 representatives of business organizations, and representatives of organized labor, which shall

34 have the power make contracts, acquire property through eminent domain, buy and sell bonds, as  
35 it sees appropriate to implement development programs and projects required to implement the  
36 remediation strategies and/or plans developed by the Sustainable Development Commission to  
37 create more balanced housing, more effective development in the fields of commercial or  
38 industrial development, or other development as it the Commission may determine based on its  
39 research and consultation with the populace and institutions of the Springfield Region and/or  
40 Pioneer Valley.
