1 SECTION 1. Chapter 111 of the General Laws is hereby amended by adding the

6 and "Over-the-counter Diet Pills", a class of drugs, sold for or used with the intent to achieve  
7 weight loss or build muscle that are lawfully sold, transferred, or furnished over-the-counter with  
8 or without a prescription pursuant to the federal Food, Drug, and Cosmetic Act, 21 U.S.C.  
9 section 301 et. seq., or regulations adopted thereunder. "Dietary supplements for weight loss or  
10 muscle building" and "Over-the-Counter Diet Pills" may include, but are not limited to,  
11 thermogens, which are substances that produce heat in the body and promote more calorie  
12 burning, lipotropics, which are compounds that help break down fat during body metabolism,

13 hormones, including hormone modulators and hormone mimetics, appetite suppressants, or  
14 ingredients deemed adulterated under 21 U.S.C.A § 342.

15 “Retail establishment”, any vendor that in the regular course of business sells dietary  
16 supplements for weight loss or muscle building at retail directly to the public including, but not  
17 limited to, pharmacies under chapter 112 sections 37 to 39C, grocery stores, mail-order or

20 building shall be sold to any person under 18 years of age.

21 (c) Any retail establishment that sells over-the-counter diet pills, or dietary supplements  
22 for weight loss or muscle building shall limit access to such products in a manner designed to  
23 prevent the misuse or abuse of such products. Such products shall not be directly accessible by  
24 customers, and may only be accessed by a manager, assistant manager, acting manager or other  
25 supervisory personnel at such location. Such products may only be purchased upon a request  
26 made by a customer to the manager, assistant manager, acting manager or other supervisory  
27 personnel at such location.

28 (d) Retail establishments shall conspicuously post at each purchase counter a notice  
29 developed and provided by the Department of Public Health clearly communicating that certain  
30 over-the-counter diet pills, or dietary supplements for weight loss or muscle building are known  
31 to cause gastrointestinal impairment, tachycardia, hypertension, myocardial infarction, stroke,  
32 severe liver injury sometimes requiring transplant or leading to death, organ failure, other serious
