An Act to direct tobacco tax revenues to reduce tobacco use and its harms.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1 SECTION 1. Chapter 29 of the General Laws is hereby amended by adding the following  
2 section:-

3 Section 2XX. (a) There shall be established and set up on the books of the  
4 Commonwealth a separate fund to be known as the Tobacco Use Reduction and Prevention  
5 Fund. There shall be credited to said Fund all sums received pursuant to the excise imposed on  
6 tobacco products by sections 6, 7A, 7B and 7C of chapter 64C, excluding excise credited  
7 pursuant to section 2 of Chapter 168 of the Acts of 2008, together with any penalties, forfeitures,  
8 interest, costs of suits and fines in connection therewith, less all amounts refunded or abated in  
9 connection therewith. There shall additionally be credited to the said Fund all sums received, in  
10 any year after 2008, pursuant to the Master Settlement Agreements or Consent Decrees

11 concerning tobacco product manufacturers, together with any penalties, forfeitures, interests,  
12 costs of suits, fines and all other proceeds in connection therewith, less all amounts refunded or  
13 abated in connection therewith. On an annual basis, not less than three percent of all amounts  
14 credited to the fund shall be held in trust and used solely for the purposes of preventing and  
15 reducing tobacco use and shall be available for expenditure by the Commissioner of the  
16 Department of Public Health. These funds shall not be used to replace existing funding allocated  
17 to state tobacco prevention efforts but solely to increase the total amount of expenditures to  
18 prevent and reduce tobacco use and its harms.

19 (b) The funds directed to the Department of Public Health pursuant to paragraph (a) shall  
20 be allocated by the Commissioner consistent with tobacco reduction and prevention  
21 programmatic recommendations of the Centers for Disease Control and Prevention and as  
22 determined by the Commissioner, in consultation with the oversight committee created pursuant  
23 to paragraph (c), to be effective to prevent and reduce tobacco use, reduce the public's exposure  
24 to secondhand smoke, and identify and eliminate disparities related to tobacco use and its effects  
25 among different population groups.

26 (c) Within 90 days after this section goes into effect, an oversight committee of nine  
27 members shall be established to assist the Commissioner in developing, implementing, and  
28 maintaining a strategic plan for allocating the funds directed to the Department, pursuant to  
29 paragraph (a), in monitoring and evaluating the use of the funds and all other state expenditures  
30 to prevent and reduce tobacco use and its harms, and in assessing the efficacy of all such  
31 expenditures to prevent and reduce tobacco use and its harms. Three members of the oversight  
32 committee shall be appointed by the Governor, three by the majority leader of the Senate, and  
33 three by the majority leader of the House of Representatives. The members of the oversight

34 committee shall be persons with experience and expertise regarding public health, tobacco  
35 reduction and prevention policies and programs, public education and counter-marketing, and  
36 program oversight and evaluation. No member of the oversight committee shall, during the  
37 member's tenure on the committee and for three years before joining the committee, receive any  
38 salary, grants, or other payments or support from any business that manufactures, distributes,  
39 markets, or sells cigarettes or other tobacco products or serve as a director, employee, or  
40 consultant of any organization that receives grants or contributions from any such business or  
41 that provides legal, lobbying, public relations, marketing, or advertising services to any such  
42 business. Each member of the oversight committee shall also agree not to enter into any such  
43 financial or business relationships with the tobacco industry for a period of two years after that  
44 member's tenure on the oversight committee ends. The oversight committee shall annually  
45 provide a publicly available report on tobacco use and its related harms, including but not limited  
46 to those appropriated pursuant to paragraph (a), the effectiveness of such funding allocations,  
47 and related surveillance and evaluation findings to the governor and the legislature.

48 (d) The Department of Public Health shall have the authority to promulgate reasonable  
49 rules to implement this section.
