RE: Emerging Technology Fund Quarterly Report

Dear Clerk of the Massachusetts House of Representatives:

Pursuant to Chapter 141, § 71 of the Acts and Resolves of 2003 and M.G.L. Chapter 23G, §27-28, enclosed please find the Emerging Technology Fund Quarterly Report for the period January 1, 2020 to March 31, 2020.

Charles D. Baker
Governor

The Emerging Technology Fund (ETF) was established to leverage private investment and to recruit and retain technology-based and advanced manufacturing companies in the Commonwealth. Since its creation in 2003, the ETF has helped innovative companies locate or expand by providing financing through loans and guarantees (up to \$2.5 million) for facilities, equipment and working capital to help them grow and commercialize their cutting-edge products.

Karyn E. Polito
Lieutenant Governor

Mike Kennealy
Chairman

As of March 31, 2020, the ETF has made loans and guarantees to 52 companies totaling \$88,847,115 across each geographic region of the Commonwealth, creating jobs and strengthening the innovation economy. Potential loans of another \$19.6 million were in the ETF pipeline as of March 31, 2020.

Lauren A. Liss
President and CEO

As required by Chapter 141, § 71 of the Acts and Resolves of 2003, we respectfully submit this report along with an ADA compliant electronic PDF that can be found online at www.massdevelopment.com/who-we-are/annual-reports/.

Sincerely,

A handwritten signature in blue ink that reads "Lauren A. Liss".

Lauren A. Liss
President and CEO

Emerging Technology Fund

Quarterly Report to the Legislature

January 1, 2020 to March 31, 2020

Summary

The Emerging Technology Fund (ETF) helps grow technology and advanced manufacturing companies in Massachusetts. Since its creation in 2003, the ETF has helped cutting-edge companies locate or expand in the Commonwealth, providing jobs and strengthening the innovation economy. Sixty loans and guarantees totaling \$88.8 million have closed through March 31, 2020. Thirty-one companies have repaid their ETF loans and most of these companies are thriving in Massachusetts.

Through these financings, the ETF has leveraged private investment for companies and maintained its ability to serve as an “evergreen fund,” providing unconventional risk capital in the form of debt to development-stage emerging technology companies seeking to commercialize their products. In an effort to increase both employment and production, the Commonwealth passed legislation in 2010 that allowed MassDevelopment to offer a working capital term loan product from the Fund to help growing companies address staffing and other working capital needs. The new capability has been well received, and 10 term working capital financings have closed as of March 31, 2020.

The ETF was last recapitalized in 2007, and in 2010 the Legislature transferred \$15 million to launch the Massachusetts Growth Capital Corporation. Since then, the Fund has taken various measures to ration capital. These measures, as well as early loan payoffs from successful portfolio companies, have stabilized the Fund’s liquidity position. The Fund has restored its maximum loan size to \$2.5 million and can now support larger expansions. The ETF, however, continues to rely on loan repayments to capitalize new loans and may need recapitalization if new investments for business expansions and relocations outpace loan repayments.

ETF Company of the Quarter

MentorWorks Education Capital is a developer of a platform that provides an alternative to traditional student loans. The platform’s signature component, an Income Share Agreement (“ISA”), is a legal contract students can enter into to fund higher education such as undergraduate, graduate, and certificate programs by providing a certain percentage of his or her earnings over a set period. The Income Share Agreement features a floor and a ceiling: if a student’s earnings post-graduation are below the floor, he or she is not responsible for paying back a percentage of their earnings; if the student’s earnings are above the ceiling, he or she will only pay the percentage up to the ceiling.

MentorWorks is not simply providing dollars to help students pay for higher education. The company’s alternative model of education finance incorporates career mentorship and professional networking. The platform’s aim is to help low- and middle-income students complete their higher education and build strong careers. Each MentorWorks student is given a mentor, an established professional who has the experience and network to enable a greater breadth of opportunities than a student may otherwise receive. The student is also onboarded to MentorWorks’ proprietary networking tool that connects students with one another, all of the mentors in the program, and the company’s corporate partners. The corporate partners receive a first look at MentorWorks’ students that could fill open positions at their companies. MassDevelopment provided MentorWorks with a \$1 million term working capital loan to support new full-time hires at the company.

Background

Chapter 141 of the Acts of 2003 created the ETF. The statute requires submission of this quarterly report to certain legislative committees. Established to leverage private investment and to recruit and retain technology-based and advanced manufacturing companies in the Commonwealth, the approximately \$46 million Fund provides loans and guarantees for the purchase, expansion, or improvement of real estate; equipment purchases; and working capital needs. The Fund was initially capitalized with \$24.75 million, recapitalized in September 2006 with \$10 million as a result of an economic stimulus bill passed by the Legislature, and then recapitalized again in November 2007 with an additional \$15 million. In November 2010, \$15 million was transferred from the Fund to capitalize the Massachusetts Growth Capital Corporation in accordance with signed legislation. As of March 31, 2020, the Fund had \$19.1 million available to make loan commitments and a pipeline of \$19.6 million of projects that are considering applying or are in the underwriting process. The Fund is governed by an Advisory Committee that has adopted the following mission statement:

The mission of the Emerging Technology Fund is to create jobs in Massachusetts by providing financing for facilities, equipment and working capital that leverages private financing to growing companies employing or commercializing emerging technologies.

ETF Activity Summary

As of March 31, 2020, the ETF has made loans and guarantees to 52 companies totaling \$88,847,115. Potential loans of another \$19.6 million were in the ETF pipeline as of March 31, 2020. Additional loans totaling \$3.5 million were previously approved by the MassDevelopment Board of Directors and were in the closing process as of March 31, 2020. While the Agency has closed 60 loans and guarantees over the lifetime of the ETF, 34 of those have been paid off in full and are no longer in the portfolio. The Fund also received partial proceeds after liquidation of certain assets on loans provided to eight companies in the portfolio and charged-off \$6,517,005. Seven of the companies involved have ceased to exist.

Financial and Technical Assistance

MassDevelopment assisted Acusphere, Inc., Celldex Therapeutics, Inc. (formerly Avant Immunotherapeutics Inc.), and Cytonome, LLC in finding suitable facilities in the Commonwealth. All loan applicants received assistance in structuring financing for their projects with MassDevelopment and other lenders.

Geographic Distribution

As of March 31, 2020, the ETF has closed loans and guarantees with companies in each of the Commonwealth's five geographic regions as follows:

Region	Closed Loans	# of Companies
North	\$ 20,300,000	9
South	\$ 5,903,657	3
Central	\$ 13,980,000	7
West	\$ 3,905,958	4
Greater Boston	\$ 44,757,500	30
Total	\$ 88,847,115	53
