An Act to promote business continuity and recovery after a disaster.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. Notwithstanding the provisions of any other general or special law to the
2 contrary, for the purposes of the act, the following terms shall have the following meanings:-

3 “Business Continuity Plan (BCP)”, a document containing the recovery timeline
4 methodology, test-validated documentation, procedures, and action instructions developed
5 specifically for use in restoring organization operations in the event of a declared disaster. To be
6 effective, most Business Continuity Plans also require testing, skilled personnel, access to vital
7 records, and alternate recovery resources including facilities.

8 “Disaster” or “emergency”, an occurrence such as a hurricane, tornado, flood,
9 earthquake, explosion, hazardous materials accident, war, transportation accident, act of

10 terrorism, mass shooting, fire, famine, or epidemic that causes human suffering or creates human
11 need that the victim cannot alleviate without assistance.

12 SECTION 2. Chapter 63 of the General Laws, as appearing in the 2014 Official Edition,
13 is hereby amended by inserting at the end thereof the following new section:-

14 Section 38GG. (a) In determining the net income subject to tax under this chapter a
15 domestic or foreign business corporation, at its election, may deduct an amount equal to one half
16 of the expenditures paid or incurred during the taxable year for the purchase of business
17 continuity or business interruption insurance for business operations within the commonwealth,
18 but in no case shall the deduction exceed the minimum corporate tax payment due.

19 Such deduction shall be allowed only if the insurance remained in full force and effect
20 throughout the taxable year and the corporation maintained a current business continuity or
21 interruption plan on file with the municipal government where the business is located. For
22 purposes of this section, a business continuity or interruption plan is a practiced logistical plan
23 for how an organization will recover and restore partially or completely interrupted critical
24 functions within a specified time after a disaster or extended disruption.

25 SECTION 3. Chapter 43D of the General Laws, as so appearing, is hereby amended by

30 which render currently used real property unusable or unavailable for the purposes intended and

31 which creates an immediate need for other real property to preserve the health or safety of
32 persons or property.

33 SECTION 4. Notwithstanding any general or special law to the contrary, the Small
34 Business Insurance Commission is established to examine the need for guidelines for small
35 business insurance, including, but not limited to, a requirement that the insured have and
36 maintain a continuity of business plan, and a requirement that the business be registered with the
