A provider directory that is electronically available shall: (i) be in a searchable format; and (ii) make accessible to the general public the current health care providers for a network plan through a clearly identifiable link or tab without requiring the general public to create or access an account, enter a policy or contract number, provide other identifying information or demonstrate coverage or an interest in obtaining coverage with the network plan. Each electronic network plan provider directory shall be updated not less than monthly; provided, however that an online network plan provider directory shall be updated more frequently than monthly if required by state or federal law or regulations promulgated by the commissioner, when informed of and upon confirmation by the plan of:

A provider directory, whether in electronic or print format, shall accommodate the communication needs of individuals with disabilities and include a link to or information regarding available assistance for persons with limited English proficiency, including how to obtain interpretation and translation services.
- (g) A carrier shall include a disclosure in the print format of the directory that the information included in the directory is accurate as of the date of printing and that an insured or prospective insured may consult the carrier's electronic provider directory on its website or call a specified customer service telephone number to obtain the most current provider directory information.
- (h) A carrier shall update the print copies of the carrier's directory not less than annually; provided, however, that the carrier shall update the print directories more frequently than annually if required by federal law; and provided further, that the division may promulgate regulations requiring that the print directories be updated more frequently than annually.
