12	
13	(a) Every health care entity that provides any services at a location other than its "Facility
14	of Primary Licensure" is prohibited from operating a Secondary Facility pursuant to the original
15	license of the Facility of Primary Licensure and is hereby required to obtain from the Department

(f) Notwithstanding the provisions of this chapter the Department shall not grant a license to any Secondary Facility unless there is a determination by the department that there is a need for such a facility pursuant to Section 25C. Secondary Facilities in operation as of the effective date of this section shall be exempt from the Department's determination of need requirements.

(g) The Department along with the Office of the Attorney General shall have the authority to enforce the requirements of this section.
