

**HOUSE . . . . . No. 2532**

---

**The Commonwealth of Massachusetts**

PRESENTED BY:

***Paul F. Tucker***

*To the Honorable Senate and House of Representatives of the Commonwealth of Massachusetts in General Court assembled:*

The undersigned legislators and/or citizens respectfully petition for the adoption of the accompanying bill:

An Act relative to automated enforcement.

PETITION OF:

NAME:	DISTRICT/ADDRESS:	DATE ADDED:
<i>Paul F. Tucker</i>	<i>7th Essex</i>	<i>2/17/2021</i>
<i>Sean Garballey</i>	<i>23rd Middlesex</i>	<i>2/25/2021</i>
<i>Thomas M. Stanley</i>	<i>9th Middlesex</i>	<i>2/26/2021</i>
<i>Jon Santiago</i>	<i>9th Suffolk</i>	<i>4/7/2021</i>
<i>Mathew J. Muratore</i>	<i>1st Plymouth</i>	<i>5/10/2021</i>
<i>Steven G. Xiarhos</i>	<i>5th Barnstable</i>	<i>10/15/2021</i>

**HOUSE . . . . . No. 2532**

By Mr. Tucker of Salem, a petition (accompanied by bill, House, No. 2532) of Paul F. Tucker and others relative to automated motor vehicle violation enforcement. Public Safety and Homeland Security.

**The Commonwealth of Massachusetts**

**In the One Hundred and Ninety-Second General Court  
(2021-2022)**

An Act relative to automated enforcement.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1 SECTION 1. Clause Twenty-sixth of section 7 of chapter 4 of the General Laws, as  
2 appearing in the 2018 Official Edition, is hereby amended by adding the following subclause:-

3 (w) Photographs and other personal identifying information collected by cities and towns  
4 under chapter 90J.

5 SECTION 2. The General Laws are hereby amended by inserting after chapter 90I the  
6 following chapter:-

7 CHAPTER 90J.

8 “AUTOMATED ROAD SAFETY ENFORCEMENT PILOT PROGRAM

9 Section 1. As used in this chapter, the following words shall have the following meanings  
10 unless the context clearly requires otherwise:

11 “Automated road safety camera system”, an automated motor vehicle sensor device that  
12 produces digital photographs of a motor vehicle that commits a camera enforceable violation at  
13 the location where the automated motor vehicle sensor device is installed.

14 “Camera enforceable violation”, any of the following violations of a traffic law or  
15 regulation: (i) failing to stop at a steady red indication in a traffic control signal at an intersection  
16 pursuant to section 9 of chapter 89; (ii) making a right turn on a steady red indication in a traffic  
17 control signal where prohibited pursuant to section 8 of said chapter 89; (iii) exceeding the speed  
18 limit in violation of section 17 , section 18, or section 18B of chapter 90; (iv) passing a school  
19 bus when its warning signals are activated in violation of section 14 of said chapter 90; (v)  
20 blocking an intersection in violation of said section 9 of said chapter 89; and (vi) operating,  
21 parking or causing a motor vehicle to stand in a lane designated for the exclusive use of buses  
22 unless otherwise regulated or posted by an official traffic signal, sign or marking or at the  
23 direction of an authorized police officer.

24 “Municipal designee”, the municipal entity designated by the city manager in a city with  
25 a Plan D or E form of government, the mayor in all other cities or the board of selectmen in a  
26 town to supervise and coordinate the administration of camera enforceable violations under this  
27 chapter.

28 “Registrar”, the registrar of motor vehicles.

29 Section 2. (a) A city or town that accepts this chapter may install an automated road  
30 safety camera system as a means of promoting traffic safety. The automated road safety camera  
31 system may be placed: (i) along any portion of any way within the city’s or town’s control; (ii)  
32 along any portion of any way within the control of the commonwealth with written permission

33 from the Massachusetts Department of Transportation or the Department of Conservation and  
34 Recreation; or (iii) attached to a school bus; provided, however, that before equipping a school  
35 bus serving a regional school district with an automated road safety camera, each city or town  
36 member of the regional school district shall accept this chapter and shall approve the location of  
37 the automated road safety camera system pursuant to subsection (b); provided further, that the  
38 city or town may impose a penalty for a camera enforceable violation on the registered owner of  
39 a motor vehicle pursuant to section 3.

40 (b) A city or town that accepts this chapter shall not employ more than 1 automated road  
41 safety camera system per 2,500 residents as measured by using the most recent census data;  
42 provided, however, that a city or town with less than 2,500 residents shall not employ an  
43 automated road safety camera system; and provided further, that an automated road safety  
44 camera system that is attached to a school bus shall not be included in the number of automated  
45 road safety camera systems in the city or town. The location of an automated road safety camera  
46 system shall be approved by the city council with the approval of the mayor in a city or the board  
47 of selectmen in a town after a public hearing on the proposed location of the automated road  
48 safety camera system.

49 (c) Annually, not later than December 1, a city or town that accepts this chapter shall  
50 transmit a report to the Massachusetts Department of Transportation that details each automated  
51 road safety camera system located in the city or town or proposed to be located in the city or  
52 town. The report shall include, but not be limited to: (i) a list of the locations of each automated  
53 road safety camera system in the city or town; (ii) an analysis of the nexus between public safety  
54 and each location's automated road safety camera system; and (iii) the number of fines and  
55 warnings issued for camera enforceable violations pursuant to section 3; (iv) records of the

56 maintenance and calibration of each location's automated road safety camera system. The  
57 department shall post all reports received pursuant to this section on its website; and (v) crash  
58 data at each separate location of an automated road safety camera system.

59         Section 3. (a) The maximum fine imposed under this chapter for a camera enforceable  
60 violation shall be \$25 per violation for this first offense, by a fine of \$75 for a second offense and  
61 by a fine of \$125 for a third or subsequent offense. Except as provided in section 4, the registered  
62 owner of a motor vehicle shall be liable for the fine; provided, however, that a registered owner  
63 of a motor vehicle shall not be liable for the fine imposed under this chapter for a camera  
64 enforceable violation if the operator of the motor vehicle was issued a citation for the violation in  
65 accordance with section 2 of chapter 90C. A city or town that accepts this chapter may send a  
66 written warning to the registered owner of a motor vehicle for the purposes of education in lieu  
67 of enforcement through a fine; provided, however, that a written warning shall only be issued  
68 pursuant to objective and consistent criteria in a written policy established by the municipal  
69 designee; provided further, that the Massachusetts Department of Transportation may provide  
70 guidance to the city or town on establishing such objective and consistent criteria.

71         (b) A certificate, or a facsimile thereof, based upon inspection of photographs and data  
72 produced by an automated road safety camera system and sworn to or affirmed by the municipal  
73 designee shall be prima facie evidence of the facts contained therein.

74         (c) A camera enforceable violation issued by a city or town under this chapter shall not  
75 be: (i) made part of the operating record of the person upon whom such liability is imposed; or  
76 (ii) a conviction of a moving violation of the motor vehicle laws for the purpose of determining a  
77 surcharge on a motor vehicle premium pursuant to section 113B of chapter 175.

78 (d) The municipal designee may hire and designate personnel as necessary or contract for  
79 services to implement this chapter.

80 (e) (1) The municipal designee shall provide a notice of violation to the registered owner  
81 of a motor vehicle that is identified in photographs produced by an automated road safety camera  
82 system as evidence of a camera enforceable violation pursuant to this chapter. The notice shall  
83 include, but not be limited to: (i) a copy of the photographs produced by the automated road  
84 safety camera system and any other data showing the vehicle in the process of a camera  
85 enforceable violation; (ii) the registration number and state of issuance of the vehicle; (iii) the  
86 date, time and location of the alleged camera enforceable violation; (iv) the specific camera  
87 enforceable violation charged; (v) instructions for payment of the fine imposed pursuant to  
88 subsection (a); (vi) instructions on how to appeal the camera enforceable violation in writing and  
89 to obtain a hearing; and (vii) an affidavit form approved by the municipal designee for the  
90 purposes of making a written appeal pursuant to subsection (h).

91 (2) In the case of a violation involving a motor vehicle registered in the commonwealth,  
92 the notice of violation shall be mailed within 14 business days of the violation to the address of  
93 the registered owner of the motor vehicle as listed in the records of the registrar. If a motor  
94 vehicle is registered under the laws of another state or country, the notice of violation shall be  
95 mailed within 21 business days of the violation to the address of the registered owner as listed in  
96 the records of the official in the state or country that has charge of the registration of the motor  
97 vehicle. If the address is unavailable, it shall be sufficient for the municipal designee to mail a  
98 notice of violation to the official in the state or country that has charge of the registration of the  
99 motor vehicle.

100 (3) The notice of violation shall be sent by first class mail in accordance with paragraph  
101 (2). A manual or automatic record of mailing processed by or on behalf of the municipal  
102 designee in the ordinary course of business shall be prima facie evidence thereof and shall be  
103 admitted as evidence in any judicial or administrative proceeding as to the facts contained  
104 therein.

105 (f) A registered owner of a motor vehicle shall not be liable for a camera enforceable  
106 violation under this chapter if the: (i) violation was necessary to allow the passage of an  
107 emergency vehicle; (ii) violation was incurred while participating in a funeral procession; (iii)  
108 violation was incurred during a period of time in which the motor vehicle was reported to the  
109 police department of any state, city or town as having been stolen and had not been recovered  
110 before the time the violation occurred; (iv) operator of the motor vehicle was operating the motor  
111 vehicle under a rental or lease agreement and the registered owner of the motor vehicle is a rental  
112 or leasing company and has complied with section 4; (v) operator of the motor vehicle was  
113 issued a citation for the violation in accordance with section 2 of chapter 90C; or (vi) violation  
114 was necessary to comply with any other law or regulation governing the operation of a motor  
115 vehicle.

116 (g) A registered owner of a motor vehicle to whom a notice of violation has been issued  
117 pursuant to this chapter may admit responsibility for the violation and pay the fine provided  
118 therein. Payment of the established fine shall operate as the final disposition of a camera  
119 enforceable violation; provided, however, that payment by a registered owner of a motor vehicle  
120 shall operate as the final disposition of the violation as to any other registered owner of the same  
121 motor vehicle for the same violation.

122 (h) Not more than 60 days after a camera enforceable violation under this chapter, a  
123 registered owner of a motor vehicle may contest responsibility for the violation in writing by  
124 mail or online. The registered owner shall provide the municipal designee with a signed affidavit,  
125 in a form approved by the municipal designee, stating the: (i) reason for disputing the violation;  
126 (ii) full legal name and address of the registered owner of the motor vehicle; and (iii) full legal  
127 name and address of the operator of the motor vehicle at the time the violation occurred. The  
128 registered owner may include signed statements from witnesses, including the names and  
129 addresses of witnesses, supporting the registered owner's defense. Not more than 21 days after  
130 receipt of the signed affidavit, the municipal designee or the hearing officer shall send the  
131 decision of the hearing officer, including the reasons for the outcome, by first class mail to the  
132 registered owner. If the registered owner is found responsible for the violation, the registered  
133 owner shall pay the fine in the manner described in subsection (g) not more than 14 days after  
134 the issuance of the decision or request further judicial review pursuant to section 14 of chapter  
135 30A.

136 (i) In lieu of contesting responsibility for a violation in writing or online pursuant to  
137 subsection (h) and not more than 60 days after a violation under this chapter, a registered owner  
138 of the motor vehicle may request a hearing to contest responsibility for a camera enforceable  
139 violation. A hearing request shall be made in writing by mail or online. Upon receipt of a hearing  
140 request, the municipal designee shall schedule the matter before a hearing officer. The hearing  
141 officer may be an employee of the municipal designee or such other person as the municipal  
142 designee may designate. Written notice of the date, time and place of the hearing shall be sent by  
143 first class mail to each registered owner of the motor vehicle. The hearing shall be informal, the  
144 rules of evidence shall not apply and the decision of the hearing officer shall be final subject to

145 judicial review pursuant to section 14 of chapter 30A. Not more than 21 days after the hearing,  
146 the municipal designee or the hearing officer shall send the decision of the hearing officer,  
147 including the reason for the outcome, by first class mail to the registered owner. If the registered  
148 owner is found to be responsible for the camera enforceable violation, the registered owner shall  
149 pay the fine in the manner described in subsection (g) not more than 14 days after the issuance of  
150 the decision or request further judicial review pursuant to said section 14 of said chapter 30A.

151 (j) The municipal designee shall notify the registrar when a registered owner of a motor  
152 vehicle to whom a notice of a camera enforceable violation has been issued: (i) fails to contest  
153 the responsibility for a violation pursuant to subsection (h) or subsection (i) and fails to pay the  
154 fine in the notice in accordance with subsection (g) within 90 days of the violation; or (ii) is  
155 found responsible for the violation and does not pay the fine in accordance with subsection (h) or  
156 subsection (i). Upon being notified by the municipal designee, the registrar shall consider it in  
157 effect a failure to pay penalty. If a person liable under this section does not pay the civil penalty  
158 or contest the violation, the registrar: (i) may refuse to register or reregister the motor vehicle  
159 cited for the violation; or (ii) may suspend the registration of the motor vehicle cited for the  
160 violation until after notification from the municipal designee of each city or town from whom the  
161 registrar received notification that all fines owed pursuant to this chapter have been paid. The  
162 municipal designee shall notify the registrar immediately when a fine that is the basis for a notice  
163 to the registrar under this subsection has been paid; provided, however, that certified receipt of  
164 full and final payment from the municipal designee issuing a violation shall also serve as legal  
165 notice to the registrar that a violation has been disposed of in accordance with this chapter. The  
166 certified receipt shall be printed in such form as the registrar may approve.

167 Section 4. (a) Notwithstanding section 3, if the registered owner of a motor vehicle is a  
168 person or entity engaged in the business of leasing or renting motor vehicles and the motor  
169 vehicle was operated under a rental or lease agreement at the time of the camera enforceable  
170 violation, this section shall be applicable and the registered owner shall not be liable for any  
171 unpaid fines if the registered owner has complied with the requirements of this section.

172 (b) The municipal designee shall provide notice in writing of each camera enforceable  
173 violation to the registered owner of a motor vehicle if a motor vehicle owned by the registered  
174 owner is involved in a camera enforceable violation.

175 (c) Not more than 45 days after the violation, the registered owner shall furnish to the  
176 municipal designee, in writing, the name and address of the lessee or rentee of the motor vehicle  
177 at the time of the camera enforceable violation, the lessee's or rentee's driver's license number,  
178 the state that issued the driver's license and the lessee's or rentee's date of birth.

179 (d) Upon receipt of the information required under subsection (c), the municipal designee  
180 shall issue a notice of a camera enforceable violation to the lessee or rentee in the form  
181 prescribed by section 3 and the lessee or rentee shall be liable for the violation.

182 (e) The municipal designee shall notify the registrar if the lessee or rentee to whom a  
183 notice of violation has been issued: (i) fails to contest the responsibility for a camera enforceable  
184 violation pursuant to either subsection (h) or subsection (i) of section 3 and fails to pay the fine  
185 in the notice in accordance with subsection (g) of said section 3 within 90 days of the violation;  
186 or (ii) is found responsible for the violation and does not pay the fine in accordance with said  
187 subsection (h) or said subsection (i) of said section 3. Upon being notified by the municipal  
188 designee, the registrar shall place the matter on record.

189           Upon receipt by the registrar of 5 or more of such notices under this section, the registrar  
190 shall: (i) suspend and not renew the license of the lessee or rentee to operate a motor vehicle in  
191 the commonwealth; or (ii) suspend the right to operate of a lessee or rentee not licensed in the  
192 commonwealth until the registrar receives notification from each applicable municipal designee  
193 that all fines owed by the lessee or rentee pursuant to this chapter have been paid. The municipal  
194 designee shall notify the registrar immediately when a fine that is the basis for a notice to the  
195 registrar under this subsection has been paid; provided, however, that certified receipt of full and  
196 final payment from the municipal designee issuing a camera enforceable violation shall also  
197 serve as notice to the registrar that the camera enforceable violation has been disposed of in  
198 accordance with this chapter; provided further, that the certified receipt shall be printed in such  
199 form as the registrar may approve.

200           Section 5. No violation shall be issued pursuant to this chapter for: (i) a failure to stop at  
201 a signal at an intersection if any part of the vehicle was over the stop line when the light was  
202 yellow, regardless of whether or not the light turned red while the vehicle was over the stop line;  
203 (ii) exceeding the speed limit, unless the vehicle exceeds the speed limit by not less than 10 miles  
204 per hour where the posted speed limit is 45 miles per hour or greater and not less than 5 miles per  
205 hour where the posted speed limit is less than 45 miles per hour; (iii) passing a school a bus  
206 when its warning signals are activated, unless the vehicle crosses the plane of the stop sign on the  
207 bus; (iv) making a right turn on a steady red indication in a traffic control signal where  
208 prohibited, unless the entire vehicle has crossed the stop line; or (v) blocking an intersection,  
209 unless the entire vehicle has crossed the stop line and no portion of the vehicle has exited the  
210 intersection.

211 Section 6. (a) A city or town that accepts this chapter shall install at each location of an  
212 automated road safety camera system an unobstructed sign notifying the public that an  
213 automated road safety camera system is in use; provided, however, that a school bus with an  
214 automated road safety camera system shall have a sign on the bus notifying the public that an  
215 automated road safety camera system is in use on the bus.

216 (b) A city or town that accepts this chapter shall make a public announcement and  
217 conduct a public awareness campaign of its use of automated road safety camera systems  
218 beginning not less than 30 days before the first such automated road safety camera system is put  
219 into use; provided, however, that a city or town that accepts this chapter may install but shall not  
220 activate automated road safety camera systems during the 30-day time period.

221 Section 7. (a) The compensation paid to the manufacturer or vendor of an automated road  
222 safety camera system authorized in this chapter shall be based on the value of the equipment or  
223 services provided and shall not be based on the number of camera enforceable violations issued  
224 or the revenue generated by the automated road safety camera system.

225 (b) Not less than annually, a professional engineer registered in the commonwealth or an  
226 independent laboratory shall verify that the automated road safety camera system and any  
227 appurtenant traffic control signals are correctly calibrated.

228 Section 8. (a) An automated road safety camera system shall only take photographs when  
229 a camera enforceable violation occurs. Photographs and other recorded evidence shall be  
230 destroyed not more than 48 hours after the final disposition of a camera enforceable violation.

231 (b) A photograph or other recorded evidence taken pursuant to this chapter shall not be  
232 discoverable in any judicial or administrative proceeding, other than a proceeding held pursuant

233 to this chapter, without a court order. A photograph or other recorded evidence taken pursuant to  
234 this chapter shall not be admissible in any judicial or administrative proceeding, other than in a  
235 proceeding to adjudicate liability for a violation of this chapter, without a court order. A court  
236 shall not order a release of a photograph or other recorded evidence taken pursuant to this  
237 chapter unless the photograph or other recorded evidence establishes or undermines a finding of  
238 a moving violation and the camera enforceable violation is material as to a finding of civil or  
239 criminal liability.

240 (c) Photographs and other personal identifying information collected by a city or town  
241 pursuant to this chapter shall not be a public record under Clause Twenty-Sixth of section 7 of  
242 chapter 4 or chapter 66.

243 (d) An automated road safety camera system shall not be utilized to take a frontal view  
244 photograph of a motor vehicle committing a camera enforceable violation. A frontal view  
245 photograph of a motor vehicle committing a camera enforceable violation taken by an automated  
246 road safety camera system shall not be discoverable or admissible in any judicial or  
247 administrative proceeding and shall not be used as the basis for a camera enforceable violation  
248 under this chapter. To the extent practicable, additional efforts shall be made to ensure that  
249 photographs produced by an automated road safety camera system do not identify the vehicle  
250 operator, the passengers or the contents of the vehicle.

251 (e) A city or town or a manufacturer or vendor of an automated road safety camera  
252 system may not use, disclose, sell or permit access to data collected by an automated road safety  
253 camera system except as necessary to process camera enforceable violations in accordance with  
254 this chapter.

255           Section 9. A city or town that accepts this chapter may only recover costs reasonably  
256 related to the implementation and operation of an automated road safety camera system  
257 including, but not limited to, costs associated with: (i) maintaining and operating the automated  
258 road safety camera system; (ii) issuing notices of camera enforceable violations; (iii) holding  
259 hearings for appeals of camera enforceable violations; (iv) notifying the registrar of a failure to  
260 pay a fine under this chapter; and (v) collecting a fine; provided, however, that net revenues  
261 collected by participating cities and towns pursuant to this chapter shall be deposited in the  
262 Massachusetts Transportation Trust Fund established in section 4 of chapter 6C.

263           Section 10. The operation of emergency vehicles shall be subject to this chapter except as  
264 otherwise provided in section 7B of chapter 89.

265           Section 10A. A city or town shall not implement this chapter unless the city or town has  
266 submitted a plan for the implementation of automated road safety camera systems to the  
267 Massachusetts Department of Transportation and the department has approved the plan. The  
268 review of the plan by the department shall include, but shall not be limited to, consideration of  
269 the social and racial equity impacts of the plan.

270           Section 10B. Not less than once every 2 years, the Massachusetts Department of  
271 Transportation shall submit a report to the clerks of the senate and house of representatives, the  
272 senate and house committees on ways and means and the joint committee on transportation that  
273 analyzes the public safety, traffic congestion and social and racial equity impacts of this chapter.

274           Section 11. The Massachusetts Department of Transportation shall promulgate rules and  
275 regulations necessary to implement this chapter.

276 SECTION 2A. Not later than 90 days from the effective date of this act, the  
277 Massachusetts Department of Transportation shall promulgate regulations to implement chapter  
278 90J of the General Laws. The regulations shall include, but not be limited to: (i) establishing  
279 standardized forms for notices of violations and written warnings; (ii) developing uniform  
280 signage requirements for the purpose of complying with subsection (a) of section 6 of said  
281 chapter 90J; and (iii) establishing standards for the calibration of automated road safety camera  
282 systems under subsection (b) of section 7 of said chapter 90J.

283 “SECTION 3. The first report required under section 10B of chapter 90J of the General  
284 Laws shall be submitted not less than 2 years after the first plan is approved by the  
285 Massachusetts Department of Transportation under section 10A of said chapter 90J.

286 "SECTION 4. Clause Twenty-sixth of section 7 of chapter 4 of the General Laws is  
287 hereby amendment by striking out subclause (w).

288 SECTION 5. Chapter 90J of the General Laws is hereby repealed.

289 SECTION 6. Section 3 is hereby repealed.

290 SECTION 7. Sections 4 to 6, inclusive, shall take effect on January 1, 2028.”
