(b) (1) Notwithstanding any general or special law to the contrary, a city or town may install and operate Automated Traffic Law Enforcement Systems for the purposes of enforcing violations against the registered owner of a motor vehicle whose vehicle commits a violation pursuant to this section. Such systems shall be limited to monitoring and detecting violations of motorists who fail to come to a complete stop where instructed to do so by a school bus stop arm traffic control sign pursuant to section 14, and violations of motorists that block an intersection in violation of section 9 of chapter 89.

(2) The city or town shall install a sign notifying the public that an Automated Traffic Law Enforcement System is in use at each location of such a system. Each school bus with a stop arm traffic control signal shall have a sign notifying the public that a camera is in use on the bus.

(3) The city or town shall make a public announcement and conduct a public awareness campaign of the use of an Automated Traffic Law Enforcement System beginning at least 30 days before the system is in use. The public awareness campaign shall continue throughout the period of time that the system is in use.

(4) For a period of at least 60 days after the implementation of an Automated Traffic Law Enforcement System, a city or town may issue only warnings to owners of motor vehicles operated in violation of this section and said city or town shall not collect fines for a violation of this section.

(5) All systems installed for use under this section shall produce an evidence file that includes a live digital video image viewable remotely, a recorded image of the license plate and shall be able to record the date, time and location of the vehicle committing the violation.

(6) Recorded video images and still photographic images shall record the rear or front of the motor vehicle, with at least 1 photographic image and 1 recorded video image clearly recording the motor vehicle immediately before the violation and at least 1 photographic image and 1 recorded video image recording the motor vehicle committing the violation. At least 1 photographic image and 1 recorded video image shall clearly identify the license plate of the motor vehicle.

(7) To the extent practicable, an Automated Traffic Law Enforcement System shall use necessary technologies to ensure that photographs or recorded video images produced by the Automated Traffic Law Enforcement System shall not include a frontal view photograph or video image that identifies the operator, the passengers, or the contents of the vehicle; provided, however, no notice of liability issued under this section shall be dismissed solely because a photograph or recorded video image allow for the identification of the operator, passengers, or contents of a vehicle as long as a reasonable effort has been made to comply with this paragraph.

(8) A penalty imposed for a violation of this section shall not be considered a criminal conviction and shall not be considered a surchargeable offense pursuant to section 113B of chapter 175;

(9) The fines contained in this section shall be applied whether the violation is detected through the use of a Automated Traffic Law Enforcement System or by a police officer on scene who issues a written citation to the operator of the motor vehicle. Pursuant to the provisions of

An agreement pursuant to this section shall take effect upon its acceptance by a municipality or district; such acceptance shall be in a municipality, by a vote of the legislative body, subject to the charge of the municipality, or, in a district, by a vote of the district at a district meeting. Compensation paid to the manufacturer or vendor of the Automated Traffic Law Enforcement System shall not be based upon the revenue generated by the use of such systems. (11) A city or town shall provide reimbursement of expenses to the private vendor or manufacturer for the installation, operation and maintenance of the Automated Traffic Law Enforcement Systems in operation and acknowledged by an agreement between the private vendor and the city or town. Unless modified by an agreement with a city or town, reimbursement shall be made from ticket revenue proceeds incurred under this section only if received as currently allocated under the laws of the Commonwealth for said citations so as to eliminate any cost to the city or town for installation, operation and maintenance of the

125 drive and the certificate of registration of the registered owner.”; (vii) a statement explaining the
126 procedure to adjudicate the violation by mail under paragraph (6); and (viii) a statement
