GOVERNOR

OFFICE OF THE GOVERNOR
COMMONWEALTH OF MASSACHUSETTS
STATE HOUSE · BOSTON, MA 02133
(617) 725-4000

KARYN POLITO
LIEUTENANT GOVERNOR

April 26, 2021

To the Honorable Senate and House of Representatives,

During the last legislative session, our partnership and mutual goal of improving roadway safety delivered significant enhancements to the Commonwealth’s driving laws, including new hands-free requirements to prevent and enforce distracted driving. But promoting safety, and ultimately saving lives, is a never-ending task. For this reason, I am filing for your consideration a bill entitled, “An Act Relative to Improving Safety on the Roads of the Commonwealth.”

Over the past year, even as the global pandemic dramatically decreased driving, Massachusetts saw 334 roadway deaths, nearly matching the 336 deaths in 2019. Given the drop in both total crashes and overall miles driven, this steady number of road fatalities is likely due to generally increased speeds on near-empty highways during the pandemic. Faster drivers mean more fatal crashes, and when coupled with Massachusetts’ poor rate of seatbelt usage, it is clearer than ever that a primary seatbelt law is a necessary enhancement for roadway safety. I am grateful for and applaud the Legislature’s action to update our distracted driving statutes in 2019, and am now imploring us to join the thirty-four other states who use primary enforcement of seatbelt laws to encourage this life-saving habit. While I believe this is essential to road safety, I am aware of concerns that such a law could be misused or misapplied and look forward to working together to address those concerns.

As more drivers return to the road, it is also important to ensure that adequate deterrents are in place to ensure that the rules of the road are followed. For this reason, I have included this year the provisions of the proposed second “Haley’s Law” as championed by Marc Cremer,

whose 20 year old daughter, Haley, was killed by a driver operating on a suspended license. The initial Haley's Law provided that the RMV notify local law enforcement when a driver in their community had their license suspended for certain serious offenses, and Haley's father, Marc Cremer has worked tirelessly to ensure full implementation, which now includes near real-time and electronic communication to local police departments when a driver in their community is suspended for a serious offense. This proposal takes the next step, providing for enhanced penalties for drivers who drive after their license has already been suspended for non-administrative serious driving offenses, and who cause harm. These enhanced penalties match the seriousness with which we must respond to suspended drivers who purposefully disregard the safety of others.

As another deterrent, this legislation also includes a local option for municipalities to use cameras for enforcement of red lights, allowing communities to fine the registered owner of a vehicle that runs a red light. These fines would be based on vehicle registration and would not be used in calculating surcharges or taking action against individual licenses. Studies have shown that red light cameras, in use in over 300 communities across the nation, produce impressive reductions in dangerous accidents and fatalities.

To ensure that only safe and qualified drivers are authorized to operate the largest vehicles on the road, I am once again filing language presented in 2019 to address the statutory deficiencies found during a review of the commercial driver's license statutes and practices. Most of these items were advanced last session by the Transportation Committee, but time ran out to address the legislation. We look forward to working with the Legislature to ensure the timely adoption of these important changes.

I am also refiling several provisions from last year's safety bill, including new provisions of law requiring state-owned heavy trucks, and state and municipally-contracted vehicles to be equipped with convex and cross-over mirrors and sideguards to protect pedestrians, bicyclists, and motorcyclists from being caught under a truck and run over by its rear wheels. These provisions mirror requirements already in place in Boston, Cambridge, and in other jurisdictions across the country.

While the pandemic slowed the growth of scooter sharing programs that were gaining in popularity, we expect the reopening of the Commonwealth to reignite interest in these kinds of micro-mobility options. Absent an existing statutory framework at the state level covering these new devices – especially electric scooters – cities and towns have been unable to move forward with allowing their use. To better understand how these new options fit into our transportation system, we are proposing to establish an advisory group to review the use of electric scooters and other micro-mobility devices and recommend policies to help shape the creation of a statutory and regulatory framework.

The roads must be safe for all users – motorists, bicyclists, pedestrians – and this legislation recommends additional provisions to increase the safety of all users of the right-of-way, first by specifying in law, as do thirty-six other states, a safe passing distance of three feet which must be observed by motor vehicle operators when passing bicyclists, pedestrians, scooter riders, or other users of the roads. To better understand where and why crashes are happening, this legislation also updates the requirement for crash reports to include not only crashes with significant damage or bodily injury, but also to include any crash involving a pedestrian, cyclist, or other “vulnerable user” in an effort to gather data to address engineering and other deficiencies.

I know that we share the same commitment to making our roadways and streets safer for all users. The attached proposal will move Massachusetts forward in several important areas of road safety, with the goal of reducing roadway fatalities and injuries across the Commonwealth. I urge your prompt enactment of these important recommendations.

Sincerely

Charles D. Baker,
Governor

The Commonwealth of Massachusetts
